The Mind In Early Buddhism Hardcover:

Rationality and Mind in Early Buddhism Frank J. Hoffman, 1992-01-01 Here is a study of rationality and mind based on the earliest recorded stratum of Buddhism the Pali Nikayas The author makes a distinction between what can be said from within the context of the Buddhist texts themselves and what can be spoken of from the point of view of contemporary philosophy of religion The author is at once sympathetic to Early Buddhism as a system of religious belief and attentive to its philosophical difficulties The volume is primarily addressed to students of Buddhism Scholars and researchers in the field of philosophical and religious studies will also find it interesting *Philosophy East & West* ,2001 Rebirth in Early Buddhism and Current Research Bhikkhu Analayo, 2018-04-23 Join a rigorous scholar and Buddhist monk on a brisk tour of rebirth from ancient doctrine to contemporary debates German Buddhist monk and university professor Bhikkhu Analayo had not given much attention to the topic of rebirth before some friends asked him to explore the treatment of the issue in early Buddhist texts This succinct volume presents his findings approaching the topic from four directions The first chapter examines the doctrine of rebirth as it is presented in the earliest Buddhist sources and the way it relates to core doctrinal principles The second chapter reviews debates about rebirth throughout Buddhist history and up to modern times noting the role of confirmation bias in evaluation of evidence Chapter 3 reviews the merits of current research on rebirth including near death experience past life regression and children who recall previous lives The chapter concludes with an examination of xenoglossy the ability to speak languages one has not learned previously and chapter 4 examines the particular case of Dhammaruwan a Sri Lankan boy who chants Pali texts that he does not appear to have learned in his present life Rebirth in Early Buddhism and Current Research brings together the many strands of the debate on rebirth in one place making it both comprehensive and compact It is not a polemic but an interrogation of the evidence and it leaves readers to come to their own conclusions **The Selfless Mind** Peter Harvey, 2013-09-13 This careful analysis of early Buddhist thought opens out a perspective in which no permanent Self is accepted but a rich analysis of changing and potent mental processes is developed It explores issues relating to the not Self teaching self development moral responsibility the between lives period and the undetermined questions on the world on the life principle and on the liberated one after death It examines the person as a flowing continuity centred on consciousness or discernment vinnana configured in changing minds sets cittas The resting state of this is seen as brightly shining like the Buddha nature of Mahayana thought so as to represent the potential for Nirvana Nirvana is then shown to be a state in which consciousness transcends all objects and thus participates in a timeless unconditioned realm *The Tibetan Book of the Great Liberation, Or, The Method of Realizing Nirvāṇa Through Knowing the Mind* Walter Yeeling Evans-Wentz, 2000 To introduce this great published work on the Eastern yoga inspired method of attaining enlightenment Evans Wentz presents 100 pages of explanatory notes Psychoanalyst C G Jung offers commentary on the differences between Eastern and Western thought and Donald S Lopez Jr writes the Foreword 9 halftones *The*
