New York [Wenner-Gren Foundation for Anthropological Research] 1955** John Gulick,1968 *Social Structure and Culture Changes in a Lebanese Village* John Gulick, *Social Structure and Culture Change in a Lebanese Village* John Gulick (anthropologue).),1955 *Social Structure and Cultural Change in a Lebanese Village* John Gulick,1955 **The Social Origins of the Modern Middle East** Haim Gerber,1987 **Wasita in a Lebanese Context** Frederick Charles Huxley,1978-01-01 In the 1970s Frederick Charles Huxley conducted fieldwork in the Lebanese village of Barouk to investigate the social process called wasita a term that means roughly intermediary or mediation He explains the geography and history of Lebanon as they relate to the country s social diversity and argues for further examination of wasita as a process that operates on and between levels of society in economic political and social contexts Following a detailed description of his ethnographic research he discusses the importance of a better understanding of wasita in the context of the Lebanese civil war *Pluralism and Party Transformation in Lebanon* Entelis,2022-04-25 *Another Arabesque* John Tofik Karam,2008-03-14 A revealing investigation of changing identity in a globalizing world **Famine Worlds** Tylor Brand,2023-08-15 World War I was a catastrophe for the lands that would become Lebanon With war came famine and with famine came unspeakable suffering starvation and mass death For nearly four years the deadly crisis reshaped society killing untold thousands and transforming how people lived how they interacted and even how they saw the world around them Famine Worlds peers out at the famine through their eyes from the wealthy merchants and the dwindling middle classes to those perishing in the streets Tylor Brand draws on memoirs diaries and correspondence to explore how people negotiated the famine and its traumas Many observers depicted society in collapse the starving poor became wretched victims and the well fed became villains or heroes for the judgment of their peers He shows how individual struggles had social effects The famine altered beliefs and behaviors and those in turn influenced social relationships policies and even the historical memory of generations to come More than simply a chronicle of the Great Famine however Famine Worlds offers a profound meditation on what it means to live through such collective trauma and how doing so shapes the character of a society Brand shows that there are consequences to living amid omnipresent suffering and death A crisis like the Great Famine is transformative in ways we cannot comprehend It not only reshapes the lives and social worlds of those who suffer it creates a particular rationality that touches the most fundamental parts of our being even down to the ways we view and interact with each other We often assume that if we were thrust into historic calamity that we would continue to behave compassionately Famine Worlds questions such confidence providing a lesson that could not be more timely **Commoners, Climbers and Notables** Nieuwenhuijze,2022-05-16 **A Lebanese Perspective** Simone Kosremelli,Sylvia Shorto,2011 For the past 30

years Simone Kosremelli has produced an architecture known for its character and its outstanding quality Volumetrically complex internally and visually coherent externally her work is rooted in the Lebanese vernacular but it is not constrained by the past Rather her designs incorporate vernacular elements in modern arrangements encouraging the natural continuation of a local architectural vocabulary and the preservation of time honoured building techniques Kosremelli also designs simple yet carefully detailed interiors that combine hints of the past with modern materials for a contemporary outlook This the first monograph devoted to her firm s work offers a beautifully illustrated tour through a selection of her most exceptional projects

Patterns of Acculturation in a Lebanese Village John Gulick, 1953

Resources for the Teaching of Anthropology David G. Mandelbaum, Gabriel W. Lasker, Ethel M. Albert, 2023-11-15

The Seed and the Soil Carol Delaney, 1991-11-14 How do the metaphors we use to describe procreation affect our view of the relative worth of each gender Carol Delaney discloses the powerful meanings condensed in the seemingly innocent images of seed and soil Drawing on her work in a small Turkish village of Sunni Muslims she shows us that the images are categorically different hierarchically ordered and unequally valued The ways in

which the creation of a child is understood in Turkey furnish a key to understanding a whole range of Turkish attitudes toward sexuality and gender honor and shame authority and submission time and space inside and outside open and closed Moreover the symbols and meanings by which they represent procreation provide the means for understanding relationships between such seemingly disparate elements as the body family house village nation this world and other world Delaney points out that these symbols do not embellish reality they provide the key to a particular conception of it a conception that gives coherence to social life The patterns revealed are not distinctly Turkish they also comment on some of our own deeply held assumptions and values about procreation
