Stolen Heritage:

Stolen Heritage Abel G. Rubio, 1986 **Heritage Crime** Louise Grove, Suzie Thomas, 2014-10-06 Bringing together leading academics and practitioners from across the globe this unique collection explores the emerging field of heritage crime studies Moving beyond the traditional focus on illicit antiquities the volume identifies the diversity of crimes that affect heritage and outlines various approaches to prevention *Indian Heritage - Collector's Digest* Prime Point Srinivasan, Priyadharshni Rahul, 2021-10-01 This is the collection of select articles published in the eMagazine PreSense published by Prime Point Foundation These articles deal with the glory of Indian heritage **Cultural Heritage Issues** James A.R. Nafziger, Ann M. Nicgorski, 2009-12-07 The global community dependent as always on the cooperation of nation states is gradually learning to address the serious threats to the cultural heritage of our disparate but shared civilizations The legacy of conquest colonialization and commerce looms large in defining and explaining these threats The essays contained in this challenging volume are based on papers presented at an international conference on cultural heritage issues that took place at Willamette University The conference sought to generate fresh ideas about these cultural heritage issues offer a good sense of their nuances and complexities and reveal how culture law and ethics can interact complement diverge and contradict one another This book seeks to accomplish these purposes What it explores is the fact that allong with an emerging blend of adversarial and collaborative processes to address cultural heritage issues has come a substantial broadening of the normative framework in recent years This framework now spans a welter of issues ranging from the creation of cultural safety zones during armed conflict to the ongoing rectification of genocidal conquest during the European Holocaust and World War II to the treatment of shipwrecks and their cargo to the protection of folklore and other intangibles to the promotion of traditional knowledge in the interest of biological diversity All of these topics are controversial as are the legal instruments that incorporate them but the issues they embrace are vital to us all whether our viewpoint is in the global arena a national legislature a courtroom a classroom an archaeological site or a museum *Whose Heritage?* Susan L.T. Ashley, Degna Stone, 2023-03-28 This edited collection challenges and re imagines what is heritage in Britain as a globalised vernacular cosmopolitan post nation It takes its inspiration from the foundational work of public intellectual Stuart Hall 1932 2014 Hall was instrumental in calling out embedded elitist conceptions of The Heritage of Britain The book s authors challenge us to reconsider what is valued about Britain s past its culture and its citizens Populist discourses around the world including Brexit and culture war declarations in the UK demonstrate how heritage and ideas of the past are mobilised in racist politics The multidisciplinary chapters of this book offer critical inspections of these politics and dig deeply into the problems of theory policy and practice in today s academia society and heritage sector The volume challenges the lack of action since Hall rebuked The Heritage twenty years ago The authors featured here are predominantly Black Britons academics and practitioners engaged in culture and heritage spurred by the killing of George Floyd and the

rise of the Black Lives Matter movement to contest racist practices and structures that support them This fact alone makes the volume a unique addition to the Routledge Museum Heritage Studies repertoire The primary audience will be academics but it will also attract culture sector practitioners and heritage institutions However the book is particularly aimed at scholars and community members who identify as Black and are centrally concerned with questions of identity and race in British society Its Open Access status will facilitate access to the book by all groups in society **Post-Conflict**

Archaeology and Cultural Heritage Paul Newson, Ruth Young, 2017-11-14 The human cost in any conflict is of course the first care in terms of the reduction if not the elimination of damage However the destruction of archaeology and heritage as a consequence of civil and international wars is also of major concern and the irreversible loss of monuments and sites through conflict has been increasingly discussed and documented in recent years Post Conflict Archaeology and Cultural Heritage draws together a series of papers from archaeological and heritage professionals seeking positive pragmatic and practical ways to deal with conflict damaged sites For instance by showing that conflict damaged cultural heritage and archaeological sites are a valuable resource rather than an inevitable casualty of war and suggesting that archaeologists use their skills and knowledge to bring communities together giving them ownership of and identification with their cultural heritage The book is a mixture of the discussion of problems suggested planning solutions and case studies for both archaeologists and heritage managers It will be of interest to heritage professionals archaeologists and anyone working with post conflict communities as well as anthropology archaeology and heritage academics and their students at a range of levels China, Cultural

Heritage, and International Law Hui Zhong, 2017-11-27 China is a country that is rich in antiquities but it is also a victim of looting that occurred during the period from the First Opium War to the end of the Japanese Occupation 1840 1945 when innumerable cultural objects were lost overseas The Chinese Government insists on asserting its interest over its wrongfully removed cultural heritage and has sought for the return of lost cultural heritage by all means in accordance with relevant international conventions and Chinese laws However securing the return has been and continues to be problematic Little research has been done regarding the question as to whether China has a legal basis for recovery which is the first legal hurdle that China needs to get over In addition China does not have a legal basis for all cultural heritage taken during the period of 1840 1945 Claims for return without a legal basis are usually silenced or at best discussed only but very rarely facilitated This book provides an answer for the return of Chinese cultural heritage It examines the law contemporaneous to the removal of Chinese cultural heritage and its application For this lack of a legal basis this book argues that a new customary international law is emerging according to which the interests of the states of origin in their wrongfully removed heritage should be prioritised This proposed customary rule supports the return of wrongfully removed heritage Once this proposed customary rule is accepted it will provide a stronger argument not only for China but also for other states of origin with a similar dilemma including South Korea Egypt Greece Cambodia Turkey Peru and Italy to recover their wrongfully

removed heritage While dealing with a large pool of return cases this book is valuable to museums and art collectors in the event of buying and accepting art objects and settling recovery disputes with states of origin It will also be of interest to researchers academics policymakers and students in the fields of cultural heritage law international law international trade and human rights law

Reclaiming Our Forgotten Heritage Curt Landry, 2019-01-15 A timely and groundbreaking take on the roots of the Christian church and its place in the entirety of God's kingdom There is no better time than now to learn about and become firmly grounded within your spiritual heritage from the foreword by Perry Stone The early church was made up of Jewish and Gentile followers of Jesus and the church's culture was rooted in Judaism and a Jewish understanding of God's relationship to His people Over time however Christianity became increasingly more Roman than Jewish and the church lost its identity Rabbi Curt Landry's personal story is remarkably similar Born to a Jewish mother and a Catholic father Landry was put up for adoption and for more than thirty years he had no understanding of his heritage his roots or who his parents were But when he discovered the truth of his story his life changed completely The key to a life of power and purpose is understanding who you are In this revelatory book Curt Landry helps Christians discover their roots in Judaism empowering them to walk in the revelation of who they really are and who they are born to be Reclaiming Our Forgotten Heritage reveals the mysteries of the church letting Christians grasp the power that comes from connecting with their true identity
