Stone Of Terror:

The French Terror Wave, 2015-2016 Marc E. Vargo, 2021-02-02 A torrent of Islamist terrorism swept across France in 2015 and 2016 executed by militant jihadists on behalf of al Qaeda and the Islamic State ISIS Their targets ranged from the Paris offices of Charlie Hebdo magazine to the Bataclan Theatre on the Boulevard Voltaire to a parish church in a Normandy village and a beachfront promenade on the Mediterranean This book reconstructs these and other terrorist offensives France weathered during this period Placing each attack in its sociopolitical context the author examines the backgrounds and motives of the perpetrators the attributes of the victims and the legacy of the attacks for the people **Terror in the**

Balance Eric A. Posner, Adrian Vermeule, 2007-01-04 In *Terror in the Balance* Posner and Vermeule take on civil libertarians of both the left and the right arguing that the government should be given wide latitude to adjust policy and liberties in the times of emergency They emphasize the virtues of unilateral executive actions and argue for making extensive powers available to the executive as warranted At a time when the struggle against violent extremism dominates the United States agenda this important and controversial work will spark discussion in the classroom and intellectual press alike *Phoenix*

Rising Donald G. Lett, Donald G Lett Jr, 2008-02 In an age when the supply of gasoline to feed this modern American society has become both more expensive and more scarce questions are being pondered Inquires like How can a modern society scale back its dependence on gasoline as a motive source Are there genuine alternative power sources Are they the answer to a growing crisis Recent announcements of hybrids like those from Honda Toyota and Ford have really brought attention to this issue Hybrids that use both gasoline engines and electric motors Really though alternative power sources have been around for as long as the automobile has been The battle between and among the steam car the electric and the gas car was fought out in the first couple of decades of the twentieth century This book explores the ins and outs of that battle A struggle from which the gasoline car emerged completely victorious To such an extent that steam cars and electric cars virtually disappeared from the scene for many decades We will look over all three alternatives exploring their advantages and disadvantages We will also look over the obstacles to the steamers and the electrics Barriers that still exist to a certain extent Handicaps that caused their disappearance in the first place **Terror on the Screen** Luke Howie, 2011 Through dazzling
