Stonehenge People:

Stonehenge Mike Parker Pearson, 2012-06-07 Our knowledge about Stonehenge has changed dramatically as a result of the Stonehenge Riverside Project 2003 2009 led by Mike Parker Pearson and included not only Stonehenge itself but also the nearby great henge enclosure of Durrington Walls This book is about the people who built Stonehenge and its relationship to the surrounding landscape The book explores the theory that the people of Durrington Walls built both Stonehenge and Durrington Walls and that the choice of stone for constructing Stonehenge has a significance so far undiscovered namely that stone was used for monuments to the dead Through years of thorough and extensive work at the site Parker Pearson and his team unearthed evidence of the Neolithic inhabitants and builders which connected the settlement at Durrington Walls with the henge and contextualised Stonehenge within the larger site complex linked by the River Avon as well as in terms of its relationship with the rest of the British Isles Parker Pearson's book changes the way that we think about Stonehenge correcting previously erroneous chronology and dating filling in gaps in our knowledge about its people and how they lived identifying a previously unknown type of Neolithic building discovering Bluestonehenge a circle of 25 blue stones from western Wales and confirming what started as a hypothesis that Stonehenge was a place of the dead through more than 64 cremation burials unearthed there which span the monument's use during the third millennium BC In lively and engaging prose Parker Pearson brings to life the imposing ancient monument that continues to hold a fascination for everyone *The Stonehenge People* Rodney Castleden, 2002-01-31 First published in 1990 Of all the monuments left by the past Stonehenge is the most evocative the most memorable and the most mysterious Whilst the monuments of other cultures have gradually surrendered their mysteries Stonehenge alone seems to stimulate endless conjecture Rodney Castleden's vivid presentation of the world of the megaliths answers many of the most baffling questions about Stonehenge There are he stresses few absolute certainties but from the vast body of evidence assembled during the last hundred years it is now possible to get much closer to the truth than ever before Who built the monuments and for what purpose How were the bluestones moved from the sacred mountains of the west to Salisbury Plain Who were the people responsible for this amazing undertaking and what did they think and believe **A History of Western Society, Volume 1** John P. McKay, Bennett D. Hill, John Buckler, Clare Haru Crowston, Merry E. Wiesner-Hanks, Joe Perry, 2011-01-31 Now from Bedford St Martin's A History of Western Society is one of the most successful textbooks available because it captures students interest in the everyday life of the past and ties social history to the broad sweep of politics and culture The tenth edition has been thoroughly revised to strengthen the text's readability heighten its attention to daily life and incorporate the insights of new scholarship including an enhanced treatment of European exploration and a thoroughly revised post 1945 section With a dynamic new design new special features and a completely revised and robust companion reader this major revision makes the past memorable and accessible for a new generation of students and instructors *The Making of Stonehenge* Rodney Castleden, 2002-11-01

Every generation has created its own interpretation of Stonehenge but rarely do these relate to the physical realities of the monument Rodney Castleden begins with those elements which made possible the building of this vast stone circle the site the materials and the society that undertook the enormous task of transporting and raising the great vertical stones then capping them all to a carefully contrived plan What emerges from this detailed examination is a much fuller sense of Stonehenge both in relation to all the similar sites close by and in terms of the uses to which it was put Castleden suggests that there is no one meaning or purpose for Stonehenge that from its very beginning it has filled a variety of needs The Romans saw it as a centre of resistance the antiquaries who rediscovered it in the seventeenth century saw a long line of continuity leading back into the nation s past The archaeologists see it as a subject for rational scientific investigation The National Trust and English Heritage view it as an unfailing magnet for visitors UNESCO has declared it a World Heritage Site the cultural property of the whole of humanity Lost to view amid competing interests over the millenia are the uses it has served for those who live within its penumbra for whom Stonehenge has never been lost or rediscovered It exists in local myth and legend stretching back beyond history

Castleden, 2014-10-24 The climax of the Stone Age in Britain the Neolithic period 4700-2000BC was a period of startling achievement The British Isles are rich in Neolithic sites which give us evidence of a complex and surprisingly developed archaic society The author surveys 1100 secular and ceremonial sites in Britain selecting some for detailed explanation from these a sense of the diversity and dynamism of the living Neolithic communities emerges He presents a comprehensive profusely illustrated and up to date view of the Neolithic organised by county Archaeologists and prehistorians will find this book of interest and it should prove indispensable to students of archaeology as a source of information about the British Neolithic
