

Anne Winston-Allen

The background of the cover is a medieval-style illustration. It depicts the Virgin Mary seated, holding the Christ Child on her lap. Mary has long dark hair and a halo, and is wearing a red robe. The Christ Child is also haloed and has a long, dark beard. A branch of roses is visible to the right of the figures. The title 'Stories of the Rose' is written in a large, stylized, yellow Gothic font across the center of the image. The subtitle 'The Making of the Rosary in the Middle Ages' is written in a smaller, black, sans-serif font at the bottom of the cover.

Stories Of The Rose The Making Of The Rosary In The Middle Ages:

Stories of the Rose Anne Winston-Allen, 2010-11-01 In its most basic form the rosary is a series of prayers and meditations designed to bring the worshiper closer to God through the Virgin Mary But as Anne Winston Allen shows there was no single text of the rosary prayer different versions some in German and some in Latin evolved over the course of the late Middle Ages as communities of believers experimented with their own forms She also finds that rosary prayers were influenced by secular even courtly literature that used images of the rose and rose garden in the rosary Mary is the Mystical Rose

The Virgin Mary in the Perceptions of Women Joelle Mellon, 2016-04-21 Once the Virgin Mary was a pivotal element of Christianity a holy figure at the heart of most Christians spiritual lives She was invoked at all major life passages baptisms weddings childbirths and funerals and images of the Virgin Mary could be found virtually anywhere from pub signs to sacred texts Medieval women especially looked to Mary to answer their prayers be their role model and serve as their advocate in heaven They prayed to her several times a day and sometimes devoted their entire lives to her service This book investigates perceptions of the Virgin Mary through several centuries of literature Focusing especially on the depictions of the Virgin Mary in medieval and Renaissance manuscripts the author rediscovers a time when the Divine Female was very much in evidence and good Christian women were taught to pray to a Holy Mother Topics include the cyclical popularity of Virgin Mary devotional objects such as Books of Hours rosaries and Marian gardens the mystical qualities attributed to the Virgin Mary through centuries of reported divine visions the historical relationships between the Virgin Mary and other religious figures including the Devil and Mary Magdalene as an alternative to the Virgin Mary as a feminine model

Lest We Be Damned Lisa McClain, 2004-03-01 Through compelling personal stories and in rich detail McClain reveals the give and take interaction between the institutional church in Rome and the needs of believers and the hands on clergy who provided their pastoral care within England In doing so she illuminates larger issues of how believers and low level clergy push the limits of official orthodoxy in order to meet devotional needs

Promissory Notes on the Treasury of Merits Robert Swanson, 2018-11-12 Promissory Notes on the Treasury of Merits is a volume of 12 essays by a distinguished team of international scholars dealing with the place of indulgences in the religious life of Europe between roughly 1250 and the outbreak of the Reformation Some of the articles offer regional analyses stretching from Spain to the Netherlands from England to Bohemia and Italy Others deal with the theology and theological and practical controversies provoked by indulgences or with thematic issues like the place of indulgences in fifteenth century crusades in pilgrimage and the early exploitation of print in their distribution The complementary nature of the articles builds into a fuller picture of the central but hitherto neglected role which indulgences had in late medieval European religious life

Blacks of the Rosary Elizabeth W. Kiddy, 2007-03-30 Blacks of the Rosary tells the story of the Afro Brazilian communities that developed within lay religious brotherhoods dedicated to Our Lady of the Rosary in Minas Gerais It shows how these brotherhoods functioned

as a social space in which Africans and their descendants could rebuild a communal identity based on a shared history of an African past and an ongoing devotional practice thereby giving rise to enduring transnational cultures that have survived to the present day In exploring this intersection of community identity and memory the book probes the Portuguese and African contributions to the brotherhoods in Part One Part Two traces the changes and continuities within the organizations from the early eighteenth century to the end of the Brazilian Empire and the book concludes in Part Three with discussion of the twentieth century brotherhoods and narratives of the participants in brotherhood festivals in the 1990s In a larger sense the book serves as a case study through which readers can examine the strategies that Afro Brazilians used to create viable communities in order to confront the asymmetry of power inherent in the slave societies of the Americas and their economic and social marginalization in the twentieth century Ambiguous Locks Roberta Milliken,2014-01-10

It has long been said that a woman s hair is her crowning glory Indeed throughout history hair has remained an important cultural symbol of femininity In medieval art iconic images of long flowing locks can express sexuality and the cutting of a woman s hair often signals her feminine misbehavior Artists of all kinds in the Middle Ages used women s long hair to manipulate their audience s estimation of their female figures This interdisciplinary work explores the significance of women s hair in literature and art from the medieval period through 1525 putting into historical context the ways in which hair participates in construction of the female identity **The Cambridge History of Christianity: Volume 4, Christianity in Western Europe,**

c.1100-c.1500 Miri Rubin,Walter Simons,2014-07-31 During the early middle ages Europe developed complex and varied Christian cultures and from about 1100 secular rulers competing factions and inspired individuals continued to engender a diverse and ever changing mix within Christian society This volume explores the wide range of institutions practices and experiences associated with the life of European Christians in the later middle ages The clergy of this period initiated new approaches to the role of priests bishops and popes and developed an ambitious project to instruct the laity For lay people the practices of parish religion were central but many sought additional ways to enrich their lives as Christians Impulses towards reform and renewal periodically swept across Europe led by charismatic preachers and supported by secular rulers This book provides accessible accounts of these complex historical processes and entices the reader towards further enquiry

Medieval Religious Rationalities D. L. d'Avray,2010-09-23 Inspired by the social theories of Max Weber David d Avray asks in what senses medieval religion was rational and in doing so proposes a new approach to the study of the medieval past Applying ideas developed in his companion volume on Rationalities in History he explores how values instrumental calculation legal formality and substantive rationality interact and the ways in which medieval beliefs were strengthened by their mutual connections by experience and by mental images He sheds new light on key themes and figures in medieval religion ranging from conversion miracles and the ideas of Bernard of Clairvaux to Trinitarianism papal government and Francis of Assisi s charismatic authority This book shows how values and instrumental calculation affect each other in

practice and demonstrates the ways in which the application of social theory can be used to generate fresh empirical research as well as new interpretative insights

The Invention of the Self Andrew Spira, 2020-06-25 This book is an examination of personal identity exploring both who we think we are and how we construct the sense of ourselves through art It proposes that the notion of personal identity is a psycho social construction that has evolved over many centuries While this idea has been widely discussed in recent years Andrew Spira approaches it from a completely new point of view Rather than relying on the thinking subject s attempts to identify itself consciously and verbally it focuses on the traces that the self sense has unconsciously left in the fabric of its environment in the form of non verbal cultural conventions Covering a millennium of western European cultural history it amounts to an anthropology of personal identity in the West Following a broadly chronological path Spira traces the self sense from its emergence from the collectivity of the medieval Church to its consummation in the individualistic concept of artistic genius in the nineteenth century In doing so it aims to bridge a gap that exists between cultural history and philosophy Regarding cultural history especially art history it elicits significances from its material that have been thoroughly overlooked Regarding philosophy it highlights the crucial role that material culture plays in the formation of philosophical ideas It argues that the sense of personal self is as much revealed by cultural conventions and as a cultural convention as it is observable to the mind as an object of philosophical enquiry
