

A Halloween Story

I was staying with my grandfather in an old house in the forest. One night I wanted to go out in the forest. 'Where are you going?' said my Grandfather. 'To the shop,' I said. 'But it is getting dark! And a storm is coming. All the snakes come out when there is a storm. Do not go near them. And don't touch them!' I went out and saw lots of snakes. I was not scared. I went near them and touch them. Then I remembered what my Grandfather had said. Too late! My teeth turned green and my skin was covered with worms. I screamed and ran to the forest. In the middle of the forest I saw a ghost, and when it's dark and stormy I go to the forest and scare people. Maybe I will come out and scare you.

Stories And Pictures:

Stories, Pictures And Reality Virginia Lowe, 2007 *Stories Pictures and Reality* follows two children as they work out the reality status of stories and pictures with a daily parent observer record from the birth of the first child until the second is eight a span of eleven years in all Together these children pick through the meaning of stories and the motivations of the characters they discover in this unique first hand description of the discernment that children bring to books from an early age full of revealing quotes that tell us a great deal about the cognitive development of our young readers It s a joke cause it couldn t really have happened I ll tell you what s pretend Batman Robin Superman pirates cowboys and Indians Pussy cats don t fly kites The man who drewed it was wrong In analysis this longitudinal study shows that children have more insight and understanding than they are often given credit for and that they approach subjects that puzzle the most sophisticated of thinkers with an elegant simplicity beyond the expectations of conventional psychologists and children s literature commentators This book urges readers especially practitioners and academics to afford greater respect to what young children are capable of in this area

Stories Pictures Tell ... Flora Leona Carpenter, 1918 Art supervisors in the public schools assign picture study work in each grade recommending the study of certain pictures by well known masters As Supervisor of Drawing I found that the children enjoyed this work but that the teachers felt incompetent to conduct the lessons as they lacked time to look up the subject and to gather adequate material Recourse to a great many books was necessary and often while much information could usually be found about the artist very little was available about his pictures Hence I began collecting information about the pictures and preparing the lessons for the teachers just as I would give them myself to pupils of their grade My plan does not include many pictures during the year as this is to be only a part of the art work and is not intended to take the place of drawing The lessons in this grade are planned for the usual drawing period of from twenty to thirty minutes and have been given in that time successfully However the most satisfactory way of using the books is as supplementary readers thus permitting each child to study the pictures and read the stories himself
