Australian Books and Authors in the American Marketplace 1840s-1940s David Carter, Roger Osborne, 2018-07-02

Australian Books and Authors in the American Marketplace 1840s-1940s explores how Australian writers and their works were present in the United States before the mid-twentieth century to a much greater degree than previously acknowledged. Drawing on fresh archival research and combining the approaches of literary criticism, print culture studies, and book history, David Carter and Roger Osborne demonstrate that Australian writing was transnational long before the contemporary period. In mapping Australian literature's connections to British and US markets, their research challenges established understandings of national, imperial, and world literatures. Carter and Osborne examine how Australian authors, editors, and publishers engaged productively with their American counterparts and how American readers and reviewers responded to Australian works. They consider the role played by British publishers and agents in taking Australian writing to

America and how the international circulation of new literary genres created new opportunities for novelists to move between markets Some of these writers such as Christina Stead and Patrick White remain household names others who once enjoyed international fame such as Dale Collins and Alice Grant Rosman have been largely forgotten The story of their books in America reveals how culture commerce and copyright law interacted to create both opportunities and obstacles for Australian writers Reader's Guide to Literature in English Mark Hawkins-Dady,1996 First Published in 1996 Routledge is an imprint of Taylor Francis an informa company *The United States Catalog; Books in Print January 1, 1912* Marion Effie Potter,1921 *Critical Dictionary of English Literature, and British and American Authors, Living and Deceased, from the Earliest Accounts to the Middle of the Nineteenth Century* Samuel Austin Allibone,1896
