Spencer C. Tucker

Stormtroop Tactics Innovation In The German Army 1914 1918:

Stormtroop Tactics Bruce I. Gudmundsson, 1995-06-30 Describing the radical transformation in German Infantry tactics that took place during World War I this book presents the first detailed account of the evolution of stormtroop tactics available in English It covers areas previously left unexplored the German Infantry's tactical heritage the squad's evolution as a tactical unit the use of new weapons for close combat the role of the elite assault units in the development of new tactics and detailed descriptions of offensive battles that provided the inspiration and testing ground for this new way of fighting Both a historical investigation and a standard of excellence in infantry tactics *Stormtroop Tactics* is required reading for professional military officers and historians as well as enthusiasts Contrary to previous studies *Stormtroop Tactics* proposes that the German Infantry's adaption to modern warfare was not a straightforward process resulting from the top down intervention of reformers but instead a bottom up phenomenon It was an accumulation of improvisations and ways of dealing with pressing situations that were later sewn together to form what we now call Blitzkrieg Focusing on action at the company platoon and squad level *Stormtroop Tactics* provides a detailed description of the evolution of German defensive tactics during World War I tactics that were the direct forbears of those used in World War II

How the War Was Won T.H.E. Travers, 1992-06-11 This important and sometimes controversial book explains what part the British Expeditionary Force played in bringing the First World War to an end Travers focuses on the themes of command and technology drawing on a wide range of sources

The First World War Stuart Robson, 2014-09-11 This is a compelling account of the First World War It offers clear analysis of the war on land sea and air and considers the impact of the war on Europe's civilian population Issues addressed include the relationship between war and industrialisation trench warfare the long term effects of the war on changing social structures and economic and demographic consequences The main text is supplemented by a rich selection of primary source material from songs soldiers slang to diary accounts

The Oxford Illustrated History of the First World War Hew Strachan, 2000 Having a profound influence on the history of the twentieth century the First World War left an intense legacy that continues to affect both those who lived through it and those who merely read about it in school It was the first conflict in which airplanes submarines and tanks played a significant role and the first in which casualties on the battlefield outnumbered those from disease It precipitated the collapse of the empires of Austria Hungary and Turkey and it promoted revolution in Russia America's entry into the war and the part it played in the peace settlement signaled the arrival on the world stage of a new great power In this extensively illustrated book an international team of experts explores the war in all its different aspects From its causes to its consequences from the strategy of the politicians to the tactics of the generals the course of the war is charted and its political and human consequences assessed The legacy of the war to end wars in poetry and prose in collective memory and political culture is with us still eighty years after that first Armistice Day This remarkable book helps us understand that legacy

Endurance and War Jasen J. Castillo, 2014-04-09

Scholars and military practitioners alike have long sought to understand why some country's militaries fight hard when facing defeat while others collapse. In *Endurance and War*, Jason Castillo presents a new unifying theory, cohesion theory, to explain why national militaries differ in their staying power. His argument builds on insights from the literatures on group solidarity in general and military effectiveness in particular, which argue that the stronger the ties binding together individuals in a group of any kind, the higher the degree of cohesion that a group will exhibit when taking collective action, including fighting in war. Specifically, he argues that two types of ties determine the cohesion and therefore the resilience of a nation's armed forces during war: the degree of control a regime holds over its citizens and the amount of autonomy the armed forces possess to focus on training for warfighting. Understanding why armed forces differ in their cohesion should help U.S. military planners better assess the military capabilities of potential adversaries like Iran and North Korea. For scholars of international politics, cohesion theory can help provide insights into how countries create military power and how they win wars.

World War I Spencer C. Tucker, 2014-10-28 Offering exhaustive coverage, detailed analyses, and the latest historical interpretations of events, this expansive five-volume encyclopedia is the most comprehensive and detailed reference source on the First World War available today. One hundred years after the beginning of World War I in 1914, this conflict still stands as perhaps the most important event of the 20th century. World War I toppled all of the existing empires at the time, transformed the Middle East, and vaulted the United States to becoming the world's leading economic power. Its effects were profound and lasting, and included outcomes that led to World War II. This multivolume encyclopedia provides a wide-ranging examination of World War I that covers all of the important battles, key individuals, both civilian and military, weapons, and technologies, and diplomatic, social, political, cultural, military, and economic developments. Suitable as a reference tool for high school and undergraduate students as well as faculty members and graduate-level researchers, *World War I: The Definitive Encyclopedia and Document Collection* offers accessible, in-depth information and up-to-date analyses in a format that lends itself to quick and easy use. The set comprises alphabetically arranged, cross-referenced entries accompanied by further reading selections, as well as a comprehensive bibliography. A fifth volume provides chronologically arranged documents and an A-Z index.

A Companion to World War I John Horne, 2011-11-23 *A Companion to the First World War* brings together an international team of distinguished historians who provide a series of original and thought-provoking essays on one of the most devastating events in modern history. Comprising 38 essays by leading scholars who analyze the current state of historical scholarship on the First World War, it provides extensive coverage spanning the pre-war period, the military conflict, social, economic, political, and cultural developments, and the war's legacy. Offers original perspectives on themes as diverse as strategy and tactics, war crimes, science and technology, and the arts. Selected as a 2011 Outstanding Academic Title by CHOICE.

Blitzkrieg Niklas Zetterling, 2020-01-10 From the author of *Bismarck*, a work of simply outstanding scholarship, unreservedly recommended for World War II Military History collections. Midwest Book Review. The successes of the German

Blitzkrieg in 1939-41 were as surprising as they were swift. Allied decision makers wanted to discover the Germans' secrets even though only partial, incomplete information was available to them. The false conclusions drawn became myths about the Blitzkrieg that have lingered for decades. It has been argued that rather than creating a new way of war based on new technology, the Germans fitted the new weapons into their existing ideas on warfare. The conduct of German soldiers, particularly the lower ranking men on the battlefield, was at the core of the concept, and German victories rested upon the quality, flexibility, and mobility of the small combat units. This book focuses on the experiences of the enlisted men and junior officers in the Blitzkrieg operations in Poland, Norway, Western Europe, and Russia. Using accounts previously unpublished in English, military historian Niklas Zetterling not only shows you the big picture economically, strategically, but also takes you right into the Panzers, showing how a company commander led his tanks, how a crew worked together inside a tank, and the role of the repair services. For those of us who are interested in the tactics and strategy of the early war years, it is a book you won't want to miss. A Wargamer's Needful Things. In support of his convincing argument, the author uses several accounts of German actions seen through the eyes of the soldiers and junior officers who had to put theory into practice on the battlefield.

4.5 stars Army Rumour Service **Clash of Arms** Russell Hart, 2001. Russell Hart has put it all together: the culture, history, society, politics, and ideas that undergirded four separate armies and their combat performance in a single campaign along the coast of Normandy in France from June through September 1944. *Clash of Arms* is an outstanding example of contemporary military history. Arden Bucholz, *Journal of Modern History*. Russell Hart has written a masterful account of the effectiveness of the Anglo-Canadian-American and German forces not only in Normandy in 1944 but also throughout the interwar and early war periods. Major James P. Gates, *Air Space Power Journal*. As a result of Hart's work, historians are a step closer on their long journey to understand how armies adapt and innovate both in peacetime and in war. Steve R. Waddell, *Army History*. This work is the most comprehensive, academically grounded, and logical evaluation of the relative combat capabilities of the four armies in Normandy to date. Every page contains information useful to professionals. Major Robert Bateman, *ARMOR*. Hart understands the complexity of his subject and skillfully pieces together the institutional development of the military forces with the political, economic, social, and cultural values of the societies that produced them. The result is an outstanding comparative study that blends the so-called new military history with traditional operational history. This is one of the most original and important studies of the war to appear recently. Choice. Hart demonstrates massive research and a clear, forthright style. He does not hesitate to analyze problems and to describe both successful solutions and failures. His book is a masterly presentation. David Eggenberger, *History Review of New Books*. The scholarship underlying this work is absolutely astonishing. Bruce Gudmundsson, *A seminal volume*. Dennis Showalter, *Clash of Arms* examines how the Western Allies learned on the battlefield to defeat the Nazi war machine. Beginning with an investigation of the interwar neglect that left the Allied militaries incapable of defeating Nazi aggression at the start of World War II, Hart examines the wartime paths

the Allies took toward improved military effectiveness He also explores the continuous German adaptation that prolonged the war and increased the price of eventual Allied victory Central to his comparative study is the complex interplay of personalities military culture and wartime realities that determined how accurately the combatants learned the lessons of war and how effectively they enhanced their battle capabilities

CONTENTS Foreword D Showalter Introduction
PREPARATION 1919 1944 The Interwar Period The U S 1941 1944 The Leviathan Awakens Britain 1939 1944 Toils and Troubles Canada 1939 1944 The Politics of Neglect Germany 1939 1944 Blitzkrieg Unleashed NORMANDY 1944 A Campaign Overview The U S Leviathan Triumphant Britain Montgomery s Best Batsmen Fail Canada Learning the Hard Way Germany Niedergang of the Westheer

CONCLUSION Germany at War David T. Zabecki, 2014-10-28 Written by experts for use by nonexperts this monumental work probes Germany s Genius for War and the unmistakable pattern of tactical and operational innovation and excellence evident throughout the nation s military history Despite having the best military forces in the world some of the most advanced weapons available and unparalleled tactical proficiency Germany still lost both World Wars This landmark four volume encyclopedia explores how and why that happened at the same time examining Germany as a military power from the start of the Thirty Years War in 1618 to the present day Coverage includes the Federal Republic of Germany its predecessor states and the kingdoms and principalities that combined to form Imperial Germany in 1871 The Seven Years War is discussed as are the Napoleonic Wars the Wars of German Unification including the Franco Prussian War World War I World War II and the Cold War In all more than 1 000 entries illuminate battles organizations leaders armies weapons and other aspects of war and military life The most comprehensive overview of German military history ever to appear in English this work will enable students and others interested in military history to better understand the sociopolitical history of Germany the complex role conflict has played in the nation throughout its history and why Germany continues to be an important player on the European continent

The Top Books of the Year Stormtroop Tactics Innovation In The German Army 1914 1918 The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous compelling novels captivating the hearts of readers worldwide. Lets delve into the realm of popular books, exploring the captivating narratives that have charmed audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This heartfelt tale of love, loss, and resilience has gripped readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can succeed. Stormtroop Tactics Innovation In The German Army 1914 1918 : Taylor Jenkins Reid's "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reid's compelling storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Stormtroop Tactics Innovation In The German Army 1914 1918 : Delia Owens "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens crafts a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and thrilling novel that will keep you speculating until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
