## **Subject Inversion In Romance And The Theory Of Universal Grammar:**

**Subject Inversion in Romance and the Theory of Universal Grammar** Aafke Hulk Professor of French Linguistics University of Amsterdam, Jean-Yves Pollock Professor of English Linguistics Universite de Picardie a Amiens, 2001-08-27 The Romance Languages document remarkable variations in subject word order in different constructions and have various restrictions in their occurrence No consensus has emerged on what the parameters are for such variations This volume does not attempt to create a consensus but tries to represent and bring into dialogue the different sides of the debate **The Wiley Blackwell Companion to Syntax, 8 Volume Set** Martin Everaert, Henk Van Riemsdijk, 2017-12-26 An invaluable reference tool for students and researchers in theoretical linguistics The Wiley Blackwell Companion to Syntax Second Edition has been updated to incorporate the last 10 years of syntactic research and expanded to include a wider array of important case studies in the syntax of a broad array of languages A revised and expanded edition of this invaluable reference tool for students and researchers in linguistics now incorporating the last 10 years of syntactic research Contains over 120 chapters that explain analyze and contextualize important empirical studies within syntax over the last 50 years Charts the development and historiography of syntactic theory with coverage of the most important subdomains of syntax Brings together cutting edge contributions from a global group of linguists under the editorship of two esteemed syntacticians Provides an essential and unparalleled collection of research within the field of syntax available both online and across 8 print volumes This work is also available as an online resource at [www.companiontosyntax.com](http://www.companiontosyntax.com) **The Handbook of Portuguese Linguistics** W. Leo Wetzels, Sergio Menuzzi, João Costa, 2016-04-07 The Handbook of Portuguese Linguistics presents a comprehensive overview of research within the Brazilian and European variants of the Portuguese language It includes chapters focusing on the key areas of linguistic study including phonetics phonology morphology syntax semantics pragmatics linguistic change language variation and contact and acquisition Essential reference work for scholars of Portuguese linguistics and Romance languages Chapters written by an international team of research specialists highlight both the consensus and the controversies within the various subfields of Portuguese linguistics Examines Portuguese linguistics in relation to syntax phonology morphology semantics pragmatics acquisition and sociolinguistics Written in an accessible overview style and designed for advanced students and current scholars in the field alike Essential reference work for scholars of Portuguese linguistics and Romance languages *Discourse-Related Features and Functional Projections* Silvio Cruschina, 2011 In this volume Silvio Cruschina uses a comparative analysis to determine the syntax of the functional projections associated with discourse related features and to account for the marked word orders found in Romance particularly in the fronting phenomena Several language specific analyses of discourse related phenomena have been proposed in the literature including studies on the notions of topic and focus in Romance but the lack of a uniform definition of these notions together with different assumptions in relation to the triggering features has led to the perception that the

Romance languages show many distinct and heterogeneous properties with respect to dislocation and fronting constructions. This volume is intended to complement the existing literature by integrating recent work on the topic and by emphasizing original and unifying reflections that combine and coordinate diverse elements. Cruschina's investigations clarify fundamental notions such as topic focus and contrast drawing on new data from Sicilian, Sardinian and other Romance varieties.

**Syntactic Change in French** Sam Wolfe, 2021. This book provides the most comprehensive and detailed formal account to date of the evolution of French syntax. It covers syntactic variation and change across all periods of French and in standard and non-standard varieties and explores phenomena such as subject positions and null subjects, verb movement, object placement and negation. *Selected Proceedings of the 9th Hispanic Linguistics Symposium* Nuria Sagarra, Almeida Jacqueline Toribio, 2006. This volume contains 30 papers selected from two conferences which were held jointly at the Pennsylvania State University in 2005: the 9th Hispanic Linguistics Symposium and the 8th Conference on the Acquisition of Spanish and Portuguese as First and Second Languages. The papers are organized into sections on theoretical syntax, phonetics and phonology, second language acquisition and teaching, acquisition of syntax and sociolinguistics. **English Linguistics**, 2008. **The Decline of Interrogative Pronominal Inversion in the History of French** Dawn Allison Strickland, 2006. This dissertation is an investigation of the decline of pronominal inversion as a question formation structure in dramatic texts ranging from Old French (twelfth century) to Modern French (twentieth century). It has three goals: a) to document the decline of interrogative pronominal inversion in written French over time; b) to determine the contexts that favor and disfavor the use of pronominal inversion in direct questions; and c) to propose an account of the underlying causes of this decline within the theoretical framework of Principles and Parameters/Minimalism. **Journal of Linguistics**, 2014.

*Comparative Romance Linguistics Newsletter*, 2005. *Word Order and Information Structure in Makhuwa-Enahara* Jenneke Van der Wal, 2009. This thesis investigates the grammar of Makhuwa-Enahara, a Bantu language spoken in the north of Mozambique. The information structure is an influential factor in this language, determining the word order and the use of special conjugations known as conjoint and disjoint verb forms. The thesis consists of two parts. The first part is a grammatical description of the language covering the basic properties in the phonology, prosody and morphology of the nominal and verbal domain as well as an overview of the conjugational system. The chapter also examines some syntactic issues such as relativisation and non-verbal predication. The second part is concerned with the question how syntax and information structure interact in Makhuwa-Enahara. The elements in a sentence are positioned before or after the verb on the basis of their information structure. Elements in the preverbal domain are interpreted as more accessible, functioning as topics. The disjoint verb and elements in the postverbal domain form the comment. The element immediately following the conjoint verb form is interpreted not just as new information but as exclusive meaning: that the proposition holds for that referent and not for some other referents. These data can be accounted for if insights from syntax and information structure are combined. Two

such approaches are discussed a cartographic model and an interface model Two interface rules are proposed to account for the interpretation of word order and the conjoint and disjoint verb forms in Makhuwa Enahara *Architectures, Rules, and Preferences* Annie Else Zaenen, 2007 *Architectures Rules and Preferences* reflects the interests and honors the influence of Joan W Bresnan s two decades of foundational work on Lexical Functional Grammar This comprehensive volume includes contributions by leading linguists on language typology synchronic variation language change constituent structure function identification subject condition control complex predicates NP internal structure wh constructions syntactic features and lexical issues Featuring an impressive range of empirical and theoretical research this collection covers more than a dozen spoken languages as well as American Sign Language **Annual Workshop on Formal Approaches to Slavic Linguistics** Jodi Reich, Maria Babyonyshev, Darya Kavitskaya, 2009 MIT Working Papers in Linguistics ,2007 **Bare Nominals, Focus Structure, and Reference in Germanic, Romance and Semitic** Murad Salem, 2003 **A Phase-based Approach to Russian Free Word Order** Marina Dyakonova, 2009 The Syntax of Compound Tenses in Slavic Krzysztof Marek Migdalski, 2006 *Journal of Japanese Linguistics* ,2004 Linguistics ,2002 **Probus** ,2008
