The Theatre of D.H. Lawrence James Moran,2015-11-19 This is the first major book length study for four decades to examine the plays written by D H Lawrence and the first ever book to give an in depth analysis of Lawrence s interaction with the theatre industry during the early twentieth century It connects and examines his performance texts and explores his reaction to a wide range of theatre from the sensation dramas of working class Eastwood to the ritual performances of the Pueblo people in order to explain Lawrence s contribution to modern drama F R Leavis influentially labelled the writer D H Lawrence Novelist But this book foregrounds Lawrence s career as a playwright exploring unfamiliar contexts and manuscripts and drawing particular attention to his three most successful works The Widowing of Mrs Holroyd The Daughter in Law and A Collier s Friday Night It examines how Lawrence s novels are suffused with theatrical thinking revealing how Lawrence s fictions from his first published work to the last story that he wrote before his death continually take inspiration from the playhouse The book also argues that although Lawrence has sometimes been dismissed as a restrictively naturalistic stage writer his overall oeuvre shows a consistent concern with theatrical experiment and manifests affinities with the dramatic thinking of modernist figures including Brecht Artaud and Joyce In a final section the book includes contributions from influential theatre makers who have taken their own cue from Lawrence s work and who have created original work that consciously follows Lawrence in making working class life central to the public forum of the theatre stage
