

Religion and the Meaning of Life

- Religion seeks to answer important questions such as why we exist, why people suffer and die, and what happens when we die.
- Religion seeks to explain suffering, death, and injustice in the realm of the sacred.
- Things that people do not set apart as sacred are referred to as profane—the everyday, secular or “worldly” aspects of life.

The Meaning Of Religion:

The Meaning of Religion F. Kristensen, 2013-12-11 *The Meaning and End of Religion* Wilfred Cantwell Smith, 1991
Wilfred Cantwell Smith maintained in this vastly important work that Westerners have misperceived religious life by making religion into one thing. He shows the inadequacy of religion to capture the living endlessly variable ways and traditions in which religious faith presents itself in the world.

The Meaning of Religion for Man John Herman Randall, 1968 **The "Meaning" of Religion** Scott L. Adams, 2023-08-08 An Introduction to the Psychology of Religion Robert H. Thouless, 1972-01-06
The third edition of this successful book which applies the science of psychology to problems of religion. Dr. Thouless explores such questions as why do people believe? Why are their beliefs often held with irrational strength? How are changes in belief systems related to mental health? What are reasonable attitudes towards alternative belief systems? This edition includes samples of the experimental and statistical studies of religious problems including the author's own study of the strength of religious beliefs. This edition also pays more attention to the problems of non-Christian religious systems with special consideration given to the problems of mutual toleration. Finally, Dr. Thouless considers whether it is reasonable for modern man to adhere to any religious belief system. This is an excellent textbook for students of the social sciences, particularly psychology and theology, and will also interest the general reader who has an intellectual curiosity about religion.

The Insider/Outsider Problem in the Study of Religion Russell T. McCutcheon, 1999-01-07
Thirty classic and contemporary readings from such writers as Kant, Hume, Schleiermacher, and Otto to Ninian Smart, Mircea Eliade, Karen McCarthy Brown, and Wendy Doniger.

The Study of Religion in an Age of Global Dialogue Leonard J. Swidler, Paul Mojzes, 2000
Religion is the most fundamental comprehensive of all human activities; it tries to make sense out of not simply one or another aspect of human life but of all aspects of human experience. At the core of every civilization lies its religion, which both reflects and shapes it. Thus, if we wish to understand human life in general and our specific culture and history, we need to understand religion. What is religion? Religion is an explanation of the ultimate meaning of life and how to live accordingly based on a notion of the Transcendent. Normally, it contains the four C's: Creed, Code, Cult, Community structure. CREED refers to the cognitive aspect of a religion; it is everything that goes into the explanation of the ultimate meaning of life. CODE OF BEHAVIOR or ethics includes all the rules and customs of action that somehow follow from one aspect or another of the Creed. CULT means all the ritual activities that relate the follower to one aspect or another of the Transcendent, either directly or indirectly, prayer being an example of the former and certain formal behavior toward representatives of the Transcendent, such as priests, of the latter. COMMUNITY STRUCTURE refers to the relationships among the followers; this can vary widely from a very egalitarian relationship, as among Quakers, through a republican structure, as Presbyterians have, to a monarchical one, as with some Hasidic Jews, or with their Rebbe, THE TRANSCENDENT. As the roots of the word indicate, it means that which goes beyond the everyday, the ordinary, the surface.

experience of reality it can mean spirits gods a Personal God An Impersonal God Emptiness etc This volume looks at the ways we humans have developed to study religion However a new age in human consciousness is now dawning The Age of Global Dialogue a radically new consciousness which fundamentally shifts the ways we understand everything in life including religion This global dialogical way of understanding life does not lead to one global religion but it does lead toward a consciously acknowledged common set of ethical principles a Global Ethic The book looks at these two movements the Age of Global Dialogue and inchoative Global Ethic in order to help readers understand what is going on around them So they might make informed intelligent decisions about the meaning of life and how to live it Author note Leonard Swidler is Professor of Religion at Temple University Paul Mojzesis Academic Dean and Professor of Religious Studies at Rosemount College

The Psychology of Religion George Albert Coe, 1916 The Pragmatics of Defining Religion Platvoet, Arie Molendijk, 2018-11-13 This volume promotes a pragmatic anti essentialist and anti hegemonic approach to the problem of the definition of religion It argues that definitions of religion are context bound strategies for pursuing a variety of purposes extra academic as well as academic Religions being immensely varied complex and multi functional phenomena they need to be studied by several academic disciplines from many different perspectives It is therefore legitimate and useful that many definitions of religions are developed The volume has contributions from scholars in Philosophy of Religion the Comparative Study of Religions Anthropology of Religion Sociology of Religion and Psychology of Religion It has chapters on the polemics of defining religion in modern contexts the history of the concept of religion and the methodology of its definition it includes several definition proposals **The Meaning and End of Religion** Wilfred Cantwell Smith, 1963
