## **The Mighty Eighth In Wwii A Memoir:**

*The Mighty Eighth in WWII: A Memoir* J. Kemp McLaughlin USAFR (Ret.), One of the great bomber pilots of World War II recalls his various missions over the European theater from bombing heavy water installations in Norway to the raid that nearly wiped out German ball bearing production

**The Mighty Eighth in WWII** J. Kemp McLaughlin, 2014-04-23 On an early morning in the fall of 1942 Kemp McLaughlin's group set out for a raid on a French target Immediately after dropping its bombs McLaughlin's plane was hit A huge fire burned a four foot hole in his wing his waist gunner bailed out his radio operator was wounded the plane lost all oxygen and his pilot put on a parachute and sat on the escape hatch waiting for the plane to explode And this was only McLaughlin's first sortie McLaughlin went on to pilot the mission command plane on the second raid against Schweinfurt the largest air raid in history which resulted in the destruction of 70 percent of German ball bearing production capability McLaughlin also participated in the bombing of heavy water installations in Norway The Mighty Eighth in WWII also includes the stories of downed pilots in France and Holland who traveled under the cover of night through the countryside evading the Nazis who had seen their planes go down As a group leader McLaughlin was responsible for the planning and execution of air raids forced to follow the directives of senior and sometimes less informed officers His position as one of the managers of the massive sky trains allows him to provide unique insight into the work of maintenance and armament crews preflight briefings and off duty activities of the airmen No other memoir of World War II reveals so much about both the actual bombing runs against Nazi Germany and the management of personnel and material that made those airborne armadas possible

The Mighty Eighth in WWII J. Kemp McLaughlin, 2014-04-23 Told by a been there done that combat commander McLaughlin gives us precise accounts of such air battles as the devastating bombing of Schweinfurt Gen Philip P Ardery author of Bomber Pilot A Memoir of World War II On an early morning in the fall of 1942 McLaughlin's group set out for a raid on a French target Immediately after dropping its bombs McLaughlin's plane was hit A huge fire burned a four foot hole in his wing his waist gunner bailed out his radio operator was wounded the plane lost all oxygen and his pilot put on a parachute and sat on the escape hatch waiting for the plane to explode And this was only McLaughlin's first sortie He went on to pilot the mission command plane on the second raid against Schweinfurt the largest air raid in history which resulted in the destruction of 70 percent of German ball bearing production capability McLaughlin also participated in the bombing of heavy water installations in Norway As a group leader McLaughlin was responsible for the planning and execution of air raids forced to follow the directives of senior and sometimes less informed officers His position as one of the managers of the massive sky trains allows him to provide unique insight into the work of maintenance and armament crews preflight briefings and off duty activities of the airmen No other memoir of World War II reveals so much about both the actual bombing runs against Nazi Germany and the management of personnel and material that made those airborne armadas possible Well written fast paced and filled with anecdotes Bowling Green Daily News He laces tense

battle scenes with humorous anecdotes about the famous people we met along the way Charleston Gazette      *The Western European and Mediterranean Theaters in World War II* Donal Sexton, 2011-10-06 *The Western European and Mediterranean Theaters in World War II* is a concise comprehensive guide for students teachers and history buffs of the Second World War With an emphasis on the American forces in these theaters each entry is accompanied by a brief annotation that will allow researchers to navigate through the vast amount of literature on the campaigns fought in these regions with ease Focusing on all aspects surrounding the U S involvement in the Western European and Mediterranean theaters including politics religion biography strategy intelligence and operations this bibliography will be a welcome addition to the collection of any academic or research library Routledge Research Guides to American Military Studies provide concise annotated bibliographies to the major areas and events in American military history With the inclusion of brief critical annotations after each entry the student and researcher can easily assess the utility of each bibliographic source and evaluate the abundance of resources available with ease and efficiency Comprehensive concise and current Routledge Research Guides to American Military Studies are an essential research tool for any historian      **The US Eighth Air Force in World War II** William J. Daugherty, 2024-04-15 When America entered World War II in 1941 it was first left to the Army Air Forces to take the fight to Germany In January 1942 the US Eighth Air Force was created and ordered to England even though it was without men equipment or airplanes This is the story of Brigadier General Ira C Eaker s two years with VIII Bomber Command and later as commander of the Eighth as he worked to grow it into a force capable of striking German targets from above twenty thousand feet Initially promised one hundred airplanes and the men to fly them he soon discovered his bombers were often diverted to the North Africa and Pacific theaters Along the way Eaker faced other critical issues including atrocious weather heavy casualties and the absence of escort fighters Meanwhile the head of the Army Air Forces General Hap Arnold clashed with and criticized Eaker for not flying more missions with more airplanes Ultimately as the air war unfolded the war of words behind the scenes continued until the generals reached a point of irreconcilable differences and Arnold relieved Eaker of command In spite of this the Mighty Eighth Air Force continued to pummel the Germans Not once not even in the two absolute worst air battles of the war the Schweinfurt missions of 1943 each of which cost one of every four bombers and six hundred plus men for each mission did the Eighth ever turn back before reaching their target Not until after the first two years was there a fighter that could escort the heavy bombers the B 17s and B 24s even partway into Germany much less to targets near the Vienna border and return The story of the first two years of the Mighty Eighth Air Force in many senses presents an even stronger case for heroism dedication and simple self sacrifice than that depicting events in the final seventeen months      **United States Air Force and Its Antecedents** James T. Controvich, Martin Gordon, 2004-06-24 This expanded and revised edition of the bibliography originally compiled for the United States Air Force Historical Research Agency is the most comprehensive listing of unofficial published histories of the United States Air Force and its antecedents

It covers the air force from its genesis as the US Army Signal Corps Aviation Section to the present. These titles are a rich source of information for anyone interested in the history of combat and peacetime operations of the Air Force. Researchers and libraries will find the organization of titles easy to use. Entries include private sponsored or unofficial histories often written by the unit historian, personal narratives, purely photographic or pictorial histories, route of battle maps, published or printed rosters, officially produced titles. This is an indispensable resource for military aviation historians, libraries with strong collections in military and air force history, and unit history collectors. It is also of special interest to genealogists as many unit histories contain rosters and photos of personnel. Odyssey of a Bombardier John J. Hurt, Steven E. Sidebotham, 2014-09-26

Odyssey of a Bombardier is the illustrated Prisoner of War log that depicts the experiences of bombardier Richard M. Mason in German prison camps after his B-17 Flying Fortress was shot down by the Germans in France in 1944, the final year of World War II. The log follows Mason from the day his plane crashed until his liberation in April 1945 and his return home to the United States. Included are such topics as medical treatment and rehabilitation for wounded prisoners of the Germans, life in Stalag Luft III, a difficult long march in an arctic winter to another camp, the travails of prisoners in the overcrowded, filthy camp at Moosburg, critical food shortages, and the arrival of General George Patton with the liberating forces. Mason was an amateur artist and illustrated his journal with moving depictions of prison life and comradeship. This book shows U.S. airmen demonstrating grace and courage under pressure and meeting every challenge that their imprisonment presented. The Enemy Objectives Unit In World War II: Major Brian P. Ballew, 2014-08-15. In June of 1942, Eighth Air Force deployed to the UK and began preparation for a bombing campaign. However, during the initial planning efforts, it became apparent the staff lacked the expertise needed to analyze and recommend bombing targets. Colonel Richard Hughes, the Chief Planner for American Air Forces in Europe, recognized this deficiency and requested a team to assist with target selection. The Enemy Objectives Unit (EOU), a team of civilian economists, began arriving in London in September 1942 to support the Eighth Air Force. While formally assigned to the US Embassy in London for practical purposes, the team worked for Colonel Hughes. Using their economic expertise, EOU members studied the German industrial complex to identify vulnerabilities and then recommend to planners and senior leaders those industries the US Strategic Air Forces in Europe should target. Taking an effects-based approach, the team sought to maximize the efficiency and effectiveness of US airpower to produce the greatest effects on Germany's war economy. The EOU's target selection methodology required intelligence data on enemy targets, an awareness of United States Army Air Forces bombing capabilities, and most importantly, an understanding of military and political aims. To ensure selected targets aligned with military and political aims, the EOU regularly collaborated with air planning staffs and senior leaders. Three case studies highlight the interaction and collaboration that occurred between the EOU and Army Air Forces planners and leaders: prioritizing targets for Operation POINTBLANK, development of an Oil Plan following Big Week in Feb 1944, and the recommendation to strike bridges versus marshaling yards prior to Operation

OVERLORD Each of these case studies demonstrates that the integration and cooperation between the EOU and air force leaders and planning staffs ensured that targets selected for aerial bombardment supported political and military objectives

*Big Week* Bill Yenne, 2014-02-04 In just six days the United States Strategic Air Forces changed the course of military offense in World War II During those six days they launched the largest bombing campaign of the war dropping roughly ten thousand tons of bombs in a rain of destruction that would take the skies back from the Nazis The Allies knew that if they were to invade Hitler's Fortress Europe they would have to wrest air superiority from the mighty Luftwaffe The plan of the United States Strategic Air Forces was extremely risky During the week of February 20 1944 and joined by the RAF Bomber Command the USAAF Eighth and Fifteenth Air Force bombers took on this vital mission They ran the gauntlet of the most heavily defended air space in the world to deal a death blow to Germany's aircraft industry and made them pay with the planes already in the air In the coming months this Big Week would prove a deciding factor in the war Both sides were dealt losses but whereas the Allies could recover damage to the Luftwaffe was irreparable Thus Big Week became one of the most important episodes of World War II and coincidentally one of the most overlooked until now **Masters of the Air MTI**

Donald L. Miller, 2024-01-23 A history recounting the events and experiences of the World War II bomber pilots of the U S Eighth Air Force the armed forces group that conducted daytime bombing of Germany in advance of the Allied soldiers arrival on the ground
