The Military On English Waterways 1798-1844:

The Military on English Waterways 1798-1844 Hugh J. Compton, Antony M. Carr-Gomm, 1991 **The Royal Military Canal** Paul Vine, 2010-03-15 The history of the waterway and military road from Shorncliffe in Kent to Cliff End in Sussex **British Canals** Joseph Boughey, Charles Hadfield, 2012-05-30 The first edition of British Canals was published in 1950 and was much admired as a pioneering work in transport history Joseph Boughey with the advice of Charles Hadfield has previously revised and updated the perennially popular material to reflect more recent changes For this ninth edition Joseph Boughey discusses the many new discoveries and advances in the world of canals around Britain inevitably focussing on the twentieth century to a far greater extent than in any previous edition of this book while still within the context of Hadfield's original work No More Napoleons Andrew Lambert, 2025-06-24 How for just over a century Britain ensured it would not face another Napoleon Bonaparte manipulating European powers while building a global maritime empire At the conclusion of the Napoleonic Wars a fragile peace emerged in Europe The continent's borders were redrawn and the French Empire once a significant threat to British security was for now cut down to size But after decades of ceaseless conflict Britain's economy was beset by a crippling debt How could this small insular seapower state secure order across the Channel Andrew Lambert argues for a dynamic new understanding of the nineteenth century showing how British policymakers shaped a stable European system that it could balance from offshore Through judicious deployment of naval power against continental forces and the defence strategy of statesmen such as the Duke of Wellington Britain ensured that no single European state could rise to pose a threat rebuilt its economy and established naval and trade dominance across the globe This is the remarkable story of how Britain kept a whole continent in check until the final collapse of this delicately balanced order at the outset of World War One Journal of the Society for Army Historical Research Society for Army Historical Research (London, England), 1993 *Royal Historical Society Annual Bibliography of British and Irish History* Barbara English, John Joseph Norman Palmer, Katharine F. Beedham, 1994 The volumes in this series are the most complete and up to date bibliographies of their kind and indispensable tools for historians *Bibliography of Nautical Books* Alan Obin, 2000-02 This is the 15th annual edition of the Bibliography of Nautical Books a reference guide to over 14 000 nautical publications It deals specifically with the year 2000 **The British National Bibliography** Arthur James Wells, 1993 *London's Lost Route to Portsmouth* Paul A. L. Vine, 2005 The Portsmouth and Arundel Canal was an extraordinary speculation and an ignominious failure Planned to complete the inland navigation between London and Portsmouth Harbour the waterway was part barge canal part ship canal and part open water when it opened in 1823 The navigation company suffered from poor management and lack of financial control Contractors accounts were left unpaid resulting in their refusal to carry out repairs From the Thames to Portsmouth was 115 miles and involved the passage of 52 locks Only when there was sufficient water available could the voyage be made in less than five days London merchants frustrated by the need to pay tolls to six

different Navigations continued to prefer the coastal route Nevertheless between 1824 and 1838 barges carried many tons of bullion from Portsmouth to the Bank of England The Chichester Ship Canal alone proved successful and although it closed in the early 20th century there are plans to re open that section to Chichester Harbour for pleasure craft This new book will receive a warm welcome from canal and waterway students everywhere and from local historians in Sussex and Hampshire
