

The notebook cover features a vibrant, futuristic illustration. At the top, a horizontal band contains the word 'MILLENNIUM' in a stylized, blocky font. Below this, the year '2000' is rendered in large, glowing blue-outlined digits. To the right of the '2000', there is a circular porthole-like window showing a green, forested landscape with a small building. The background is a mix of orange, yellow, and blue, suggesting a sunset or sunrise. In the top left corner, there is a small illustration of a person's head. In the top right corner, there is a small illustration of a star and a planet. At the bottom right, there is a small grid of numbers and letters, possibly a calendar or a code. A large red rectangular area is visible at the bottom left, partially obscuring the spiral binding.

The Millennium Agenda:

Millennium Development Goals Sakiko Fukuda-Parr, 2017-07-14 Heralded as a success that mobilized support for development the Millennium Development Goals MDGs ushered in an era of setting development agendas by setting global goals This book critically evaluates the MDG experience from the capabilities and human rights perspectives and questions the use of quantitative targets as an instrument of global governance It provides an account of their origins trajectory and influence in shaping the policy agenda and ideas about international development during the first 15 years of the 21st century The chapters explore whether the goals are adequate as benchmarks for the transformative vision of the Millennium Declaration how the goals came to be formulated the way they were drawing on interviews with key actors who were involved in the process how the goals exercised influence through framing to shape policy agendas on the part of both developing countries and the international community the political economy that drove the formulation of the goals and their consequences on the agendas of the South and the North the effects of quantification and indicators on ideas and action and the lessons to be drawn for using numeric goals to promote global priorities Representing a significant body of work on the MDGs in its multiple dimensions compiled here for the first time as a single collection that tells the whole definitive story this book provides a comprehensive resource It will be of great interest to students researchers and policymakers in the fields of development human rights international political economy and governance by numeric indicators **Millennium**

Development Goals Sakiko Fukuda-Parr, 2009 Millennium Development Goals MDG constitute one of the most important global institutions today because of their origins their ambitions and their effective role in shaping international development efforts In developing this argument Sakiko Fukuda Parr analyzes whether the goals are adequate as benchmarks for the Millennium Declaration and the UN conference commitments how the goals came to be formulated the way they were identifying key actors and their motivations the support they received and the obstacles they faced the nature of the criticisms levelled how the goals affected policy change on the part of both developing countries and the international community how the goals affected policy change on the part of donors and the international development community whether the goals have had an impact on accelerating poverty reduction drawing on the multitude of reports prepared at global national and sub national levels *The Millennium Development Goals* Fantu Cheru, Colin Bradford Jr., 2013-07-18

This volume provides an up to date and detailed tour d horizon of the exciting diversity of new proposals and mechanisms currently being discussed in order to raise the necessary financial resources to make the achievement of the Millennium Development Goals a reality by 2015 If the MDGs to halve global poverty and significantly improve the conditions of life of the world s poor are to be met on schedule putting in place the requisite funding is an essential component The economists in this volume from WIDER UNDP and other leading institutions have contributed their analyses as part of the Helsinki Process on Globalisation and Democracy a high level multi stakeholder initiative to develop new approaches to global problem solving

a global economic agenda and human security Key resource flows examined include ODA foreign direct investment remittances by migrants commodity export prices and new ideas to secure sustainable debt relief including SDRs debt cancellation revaluation of IMF gold reserves debt arbitration and other proposals The statistically rich analyses are presented in the context of the complicated trends in global inequality the incidence of poverty and the impacts of globalisation The editors conclude with a thought provoking set of ideas about the political requirements for effective global economic governance aimed at achieving the MDGs that the world community set itself at the start of the new millennium The empirical data in this volume and survey of key new ideas for resource mobilisation will be invaluable to all those concerned with global economic governance including scholars diplomats NGO lobbyists and students studying development economics
