Janzen, 2024-11-26 This volume analyzes the iconography of bound foreigners on New Kingdom monuments and artifacts to better understand Egyptian perspectives on foreigners and their treatment of prisoners of war Depictions of foreign captives in humiliating or torturous poses are ubiquitous in Egyptian iconography and reflect the celebratory nature of royal ideology in this case by degrading enemies Egyptologists have scrutinized these scenes for details regarding various military matters but existing scholarly literature offers few studies focused on enemy captives and the sheer physical brutality of the depictions of their bindings Janzen examines the bound foreigner motif in New Kingdom sources demonstrating that these prisoners of war played vital roles in Egyptian ideology and religion Their depictions in bizarre or torturous poses served to reinforce ideological underpinnings of pharaoh's right to rule perpetually ritualizing their defeat and or punishment through the presence of this iconography on ceremonial objects used primarily by the king and on temple walls and monuments The subjugation of foreigners also constituted an important economic function as incorporating prisoners of war into the Egyptian workforce was crucial for economic prosperity and growth in New Kingdom Egypt The volume also explores cross cultural and anthropological parallels placing Egyptian treatment of foreign prisoners in its ancient context The book provides a fascinating study of the subject suitable for scholars and students of Egyptology and ancient history particularly that of New Kingdom Egypt as well as those working on power warfare and violence in the ancient world more broadly *Egypt, Ethiopia, and the Greek Novel* Robert Cioffi, 2024 In this richly detailed study Robert Cioffi explores the significance of the Nile River Valley as the

geographic centre of the ancient Greek novel during the genre's heyday in the Roman empire He shows how the region is repeatedly portrayed in these fictions as a dual site of ethnographic representation and of resistance to imperial power

The Religious Nile Terje Oestigaard, 2018-07-30 The Nile is arguably the most famous river in the world For millennia the search for its source defeated emperors and explorers Yet the search for its source also contained a religious quest a search for the origin of its divine and life giving waters Terje Oestigaard reveals how the beliefs associated with the river have played a key role in the cultural development and make up of the societies and civilizations associated with it Drawing upon his personal experience and fieldwork in Africa including details of rites and ceremonies now fast disappearing the author brings out in rich detail the religious and spiritual meanings attached to the life giving waters by those whose lives are so bound to the river Part religious quest part exploration narrative the author shows how this mighty river is a powerful source for a greater understanding of human nature society and religion

The Mythology of Kingship in Neo-Assyrian Art Mehmet-Ali Ataç, 2010-02-08 In this book Mehmet Ali Ata argues that the palace reliefs of the Neo Assyrian Empire hold a meaning deeper than simple imperial propaganda

Archaeology of Empire in Achaemenid Egypt Colburn Henry P. Colburn, 2019-09-11 A study of the material culture of Egypt during the period of Achaemenid Persian rule c 526 404 BCE Provides a clear overview of the archaeological evidence for Achaemenid Egypt including temples tombs irrigation works statues stelae seals and coins Demonstrates how different types of evidence both textual and archaeological including material of uncertain provenance can be used to address a single historical question Offers critical discussion of the dating criteria used by archaeologists for Egyptian Late Period material Elucidates strategies used by the Persians to establish and maintain control of Egypt Examines how these strategies may have affected the lives of people living in Egypt during the 27th Dynasty Creates a new explanatory model for the introduction of coinage to ancient Egypt Previous studies have characterised Achaemenid rule of Egypt either as ephemeral and weak or oppressive and harsh These characterisations however are based on the perceived lack of evidence for this period filtered through ancient and modern preconceptions about the Persians Henry Colburn challenges these views by assembling and analyzing the archaeological remains from this period including temples tombs irrigation works statues stelae sealings drinking vessels and coins By looking at the decisions made about material culture by Egyptians Persians and

others it becomes possible to see both how the Persians integrated Egypt into their empire and the full range of experiences people had as a result The Use of Documents in Pharaonic Egypt Christopher Eyre, 2013-10-31 This volume reconstructs the history of documentary practice in pharaonic Egypt from the early Old Kingdom to the major administrative changes imposed by the colonizing regimes of the Graeco Roman period Relating administrative and legal practice to the physical practicalities of the media used for writing and through the close reading of primary textual sources it examines how different types of documents private and official were created and used It explores the ways in which the writing of documents was embedded deeply in the interactions between customary social practices which were essentially oral and in the penetration of outside hierarchies into local government Eyre argues that the potential of the written document as evidence or proof was never fully exploited in the pharaonic period even though writing was a powerful symbol and display of hierarchical authority He presents the government as a system rooted in personal prestige and patronage structures lacking the effective departmental hierarchies and archive systems that would represent a true bureaucratic system
