

HERBERT MARCUSE

- Cultural aspirations were standard equipment in this rapidly rising stratum of German society.
- As he worked in his bookstore, the young Marcuse felt a profound dissatisfaction not only with the chaotic postwar status quo in Germany, but with the philosophical currents of the time, which failed to address the meaning of the events he had witnessed.

Luke, 1990-10-01 *Social Theory and Modernity* combines the analytical techniques of political theory and comparative politics as a method for conducting innovative inquiry and research in political science The focus of political theory for example results in new issues for historical and cross national comparative analysis whereas comparative analysis provides new parameters for analyzing the ideology of social institutions In presenting this method Luke elaborates upon Rousseau's discursive style and critical methods Marx's historical materialism Gramsci's theoretical tactics Marcuse's instrumental rationality Cabral's theories of critique and revolution Weber's interpretive method and Foucault's system of political and social analysis It concludes by offering an incisive analysis of the moral and ideological influence of behavior and the link between ideology and political economy especially in modern society *Social Theory and Modernity* is essential reading for professionals and students in the fields of political theory history comparative politics sociology anthropology social philosophy and cultural studies Luke's book is a tour de force He writes critical theory in the best sense applying the ideas of the Frankfurt School Gramsci and postmodernism to real social and political issues today *Social Theory and Modernity* avoids arid exegesis in favor of engaged and lucid analysis of the global problematics of late capitalism Not content simply to rehearse the masters of critical theory Luke refreshes and extends their ideas by developing his own important theoretical voice Luke is witty and pulls no punches This accessible book will appeal to readers in a wide range of social science disciplines notably including political science and sociology This book reinforces Luke's reputation as one of the two or three leading critical theorists working today Ben Agger SUNY University at Buffalo This collection of essays provides a rich reading for it collates a lot of innovative ideas in the present day Marxist theory Financial Express

Summary of Herbert Marcuse's One-Dimensional Man Everest Media, 2022-06-11T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 Douglas Kellner's book *One Dimensional Man* is a critical diagnosis of the present age and it was immediately recognized as such by the New Left It was written in the 1950s and early 1960s and it reflects the stifling conformity of the era 2 Marcuse developed a critical philosophical perspective from which he could criticize existing forms of thought behavior and social organization He believed that dialectical philosophy could promote critical thinking 3 Critical thinking derives its beliefs norms and values from existing thought and social practices while uncritical thinking simply accepts them Critical thought

seeks alternative modes of thought and behavior from which it creates a standpoint of critique 4 Marcuse was extremely eager to work on a book on dialectics with Horkheimer who felt himself to be too involved in his work as director of the Institute to be able to devote sufficient time and energy to the project They moved to California where they had an opportunity to devote themselves full time to philosophical studies The Marcusean Mind Eduardo Altheman C. Santos, Jina Fast, Nicole K. Mayberry, Sid Simpson, 2024-10-29 Herbert Marcuse 1898 1979 was a member of the Frankfurt School a leading figure of 1960s counterculture and a fundamental character for the New Left His ideas and theories inspired by a rich fusion of Marxian and Freudian thought exert a strong influence on contemporary thinking about activism emancipation and political resistance He was also a student of Martin Heidegger in the late 1920s and engaged deeply with philosophy throughout his career The Marcusean Mind is an outstanding survey and assessment of Marcuse's thought Beginning with a thorough introduction to Marcuse's life and work 39 chapters by an international and interdisciplinary team of contributors are organized into five clear parts Intellectual Ecosystems of Marcuse Reason and Sensibilities Futures and Utopias Contemporary Movements Counterrevolutions Neoliberalism and Fascism These sections each contain a short introduction after which Marcusean ideas are brought to bear on many key contemporary debates and issues across the humanities social sciences and science and technology Including a Foreword by Craig Calhoun and an Afterword by Douglas Kellner The Marcusean Mind is a superb resource for anyone interested in Marcuse's thought and its legacy It is valuable reading for students of contemporary political theory activism philosophy sociology media and cultural studies critical legal studies and race and gender studies **The Ruthless Critique of Everything Existing** Andrew Feenberg, 2023-02-28 How Marcuse helps us understand the ecological crisis of the 21st century For several years after 1968 Herbert Marcuse was one of the most famous philosophers in the world He became the face of Frankfurt School Critical Theory for a generation in turmoil His fame rested on two remarkable books *Eros and Civilization* and *One Dimensional Man* These two books represent the utopian hopes and dystopian fears of the time In the 1960s and 70s young people seeking a theoretical basis for their revolution found it in his work Marcuse not only supported their struggles against imperialism and race and gender discrimination he foresaw the far reaching implications of the destruction of the natural environment Marcuse's Marxism was influenced by Husserl and Heidegger Hegel and Freud These eclectic sources grounded an original critique of advanced capitalism focused on the social construction of subjectivity and technology Marcuse contrasted the one dimensionality of conformist experience with the new sensibility of the New Left The movement challenged a society that delivered the goods but devastated the planet with its destructive science and technology A socialist revolution would fail if it did not transform these instruments into means of liberation both of nature and human beings This aspiration is alive today in the radical struggle over climate change Marcuse offers theoretical resources for understanding that struggle *Marcuse's Challenge to Education* Douglas Kellner, Tyson Lewis, Clayton Pierce, Daniel K. Cho, 2009-01-16 Marcuse's Challenge to Education a

collection of unpublished lecture notes by the thinker himself as well as essays by scholars who have explicated his theories examines Herbert Marcuse's ground breaking critique of education as well as his own pedagogical alternatives Edited by Douglas Kellner this compilation provides an overview of the various themes of Marcuse's challenges to traditional education and connections with ideas of other radical thinkers ranging from Bloch and Freire to Freud and Lacan

Counterrevolution and Repression in the Politics of Education Sean Noah Walsh, 2013-12-12 Counterrevolution and Repression in the Politics of Education revisits the ideas of Herbert Marcuse in order to examine how his observations on counterrevolution are applicable to present conditions in politics particularly those pertaining to the politics of education While Marcuse's influence in the academy has noticeably waned since its zenith in the late 1960s his observations seem more relevant than ever especially in the current context of economic crises ideological polarization and a heightened disaffection with capitalism In particular this book focuses on how counterrevolution functions within the field of ideology manipulating the acquisition representation and exercise of reason in order to diminish the faculties of dissent and render utopian projects as the paramount political obscenity While we are most familiar with counterrevolution in its guise of bloodstained battlefields and ditches filled with the bodies of dissidents Marcuse alerts us to the decidedly ideological character of counterrevolution in late capitalism In advanced industrial society counterrevolution functions by converting the needs of the working class turning a potentially revolutionary segment of society into clients and supporters of the very system that oppresses them Furthermore the counterrevolution in the advanced industrial society is purely preemptive there is no revolution to be undone or turned back Starting from the foundation provided by Marcuse this book demonstrates how the tactics of counterrevolution have been applied in the present for the purpose of undermining criticism and dissent and how counterrevolution has intervened within the politics of reason In the last several years alone we have witnessed attempts by state powers to reorganize college and university curricula a heightened denigration of intellectuals and academics within political discourse pervasive encroachment of consumerism in the collegiate experience and the rapid expansion of online teaching By using Marcuse's ideas this book demonstrates that rather than unconnected and isolated these phenomena are unified by the counterrevolutionary strategy of limiting and obstructing the acquisition of reason for the final aim of narrowing the possibilities for dissent
