The Medieval Chronicle Proceedings Reprint 1999:

The Medieval Chronicle III Erik Kooper, 2004 In the summer of 2002 the third international conference on the medieval chronicle was held again in the vicinity of Utrecht the Netherlands There are several reasons why the chronicle is particularly suited as the topic of an international conference In the first place there is its ubiquity all over Europe and throughout the Middle Ages chronicles were written both in Latin and in the vernacular and not only in Europe but also in the countries neighbouring on it like those of the Arabic world Secondly all chronicles raise such questions as by whom for whom or for what purpose were they written how do they reconstruct the past what determined the choice of verse or prose or what kind of literary influences are discernable in them Finally many chronicles have been beautifully illuminated and the relation between text and image leads to a wholly different set of questions This third volume of conference papers again aims to provide a representative survey of the on going research in the field of chronicle studies illustrated by examples from specific chronicles from a wide variety of countries periods and cultural backgrounds *Reimagining History in*

Anglo-Norman Prose Chronicles John Spence, 2013 The medieval Anglo Norman prose chronicles are fascinating hybrids of history legends and romance Their prime subject is the history of England but they also shed much light on other networks of influence such as those between families and religious houses This book studies the essential characteristics of the genre for the first time situating Anglo Norman prose chronicles within the multilingual cultures of late medieval England It considers the chronicles treatment of the legendary history of Britain legends about English heroes accounts of the Norman Conquest and histories of *The Medieval Chronicle VI* Erik Kooper, 2009 Annotation Contents Contributors Preface Sophia Menache Written and Oral Testimonies in Medieval Chronicles Matthew Paris and Giovanni Villani Roger Scott Byzantine Chronicles Alan Deyermond Written by the Victorians Technique and Ideology in Official Historiography in Verse in Late Medieval Spain

Clerks, Wives and Historians Winfried Rudolf, Thomas Honegger, Andrew James Johnston, 2008 This volume comprises selected papers of SEM VI to VIII Studientage Englisches Mittelalter held at Jena Bochum and Zurich between 2004 and 2007 It presents a representative cross section of topics in the field of English medieval studies in Germany and Switzerland The spectrum ranges from philological textual criticism cultural studies centring around the history of ideas questions of historical writing alliteration and the depiction of the monstrous in early modern literature to philological and linguistic approaches focussing on morphology and grammar **French Romance of the Later Middle Ages** Rosalind

Brown-Grant, 2008-11-13 Whilst French romances of the twelfth and thirteenth centuries have long enjoyed a privileged place in the literary history of France romances from the later middle ages have been largely neglected by modern scholars despite their central role in the chivalric culture of the day In particular although this genre has been seen as providing a forum within which ideas about masculine and feminine roles were debated and prescribed little work has been done on the gender ideology of texts from the fourteenth and fifteenth centuries This study seeks to fill this gap in the scholarship by analysing

how the views of gender found in earlier romances were reassessed and reshaped in the texts produced in the moralising intellectual environment of the later medieval period In order to explore these topics this book discusses fifteen historico realist prose romances written in the century from 1390 many of which were commissioned at the court of Burgundy It addresses key issues in recent studies of gender in medieval culture including the construction of chivalric masculinity the representation of adolescent desire and the social and sexual roles of husbands and wives In addition to offering close readings of these texts it shows how the romances of the period were informed by ideas about gender which circulated in contemporary works such as manuals of chivalry moral treatises and marriage sermons It thus aims not only to provide the first in depth study of this little known area of French literary history but also to question the critical consensus on the role of gender in medieval romance that has arisen from an exclusive focus on earlier works in the genre

The Revolt of Owain Glyndwr in Medieval English Chronicles Alicia Marchant,2014 Studies the representations of the revolt in English chronicles from 1400 up to 1580 It focuses on the narrative strategies employed offers a new reading of the texts as literary constructs and explores the information they present Back cover

Religious Origins of Nations? R. B. ter Haar Romeny,2010 This volume presents the results of the Leiden project on the identity formation of the Syrian Orthodox Christians which developed from a religious association into an ethnic community A number of specialists react to the findings and discuss the cases of the East Syrians Armenians Copts and Ethiopians

The Kaiserchronik Alastair Matthews,2012-07-26 A narratological analysis of the Kaiserchronik or chronicle of the emperors which provides an account of the Roman and Holy Roman emperors from the foundation of Rome to the eve of the Second Crusade

Roger II and the creation of the Kingdom of Sicily ,2014-01-01 This student friendly volume brings together English translations of the main narrative sources and a small number of other relevant documents for the reign of Roger II the founder of the kingdom of Sicily The kingdom created by King Roger was the most centralised and administratively advanced of the time but its genesis was fraught with difficulty as the king sought to extend his power from the island of Sicily and Calabria into other parts of the south Italian mainland This struggle that lasted from 1127 until 1140 is graphically revealed by the two main texts in this book A number of other texts illuminate key aspects of the reign the relationship with the papacy the German invasion of 1137 that came close to toppling the king s rule the expansion of Sicilian power into the Abruzzi in 1140 and the law and administration of the kingdom often seen as a model for the growth of effective government in the twelfth century Despite the great intrinsic interest of the reign of King Roger these texts have never appeared in English translation before This will be an invaluable resource for students and scholars of medieval Europe
