The Literature of the Jewish People in the Period of the Second Temple and the Talmud, Volume 3: The Literature of the Sages Shmuel Safrai z"l, Ze'ev Safrai, Joshua J. Schwartz, Peter Tomson, 2006-01-01 This long awaited companion volume to The Literature of the Sages First Part Fortress Press 1987 brings to completion Section II of the renowned Compendia series The Literature of the Sages Second Part explores the literary creation of thousands of ancient Jewish teachers the often anonymous Sages of late antiquity and the Middle Ages Essays by premier scholars provide a careful and succinct analysis of the content and character of various documents their textual and literary forms with particular attention to the ongoing discovery and publication of new textual material Incorporating groundbreaking developments in research these essays give a comprehensive presentation published here for the first time This volume will prove an important reference work for all students of ancient Judaism the origins of Jewish tradition and the Jewish background of Christianity The literary creation of the ancient Jewish teachers or Sages also called rabbinic literature consists of the teachings of thousands of Sages many of them anonymous For a long period their teachings existed orally

which implied a great deal of flexibility in arrangement and form Only gradually as parts of this amorphous oral tradition became fixed was the literature written down a process that began in the third century C E and continued into the Middle Ages Thus the documents of rabbinic literature are the result of a remarkably long and complex process of creation and editing This long awaited companion volume to *The Literature of the Sages First Part* 1987 gives a careful and succinct analysis both of the content and specific nature of the various documents and of their textual and literary forms paying special attention to the continuing discovery and publication of new textual material Incorporating ground breaking developments in research these essays give a comprehensive presentation published here for the first time *The Literature of the Sages Second Part* is an important reference work for all students of ancient Judaism as well as for those interested in the origins of Jewish tradition and the Jewish background of Christianity

Characterization in Midrash and Medieval Jewish Bible Commentaries Sivan Nir, 2024-12-13 Sivan Nir meticulously examines the reimaginings of the biblical figures Balaam Jeremiah and Esther in a wide range of Jewish texts from second century rabbinic sources to medieval Jewish biblical commentaries Nir s unique approach analyzes the continuity or lack thereof that emerges when characterization is viewed in relation to and in contrast with its cross cultural context including the contemporary conventions found in Hellenistic rhetoric and novels Byzantine Christian literature Islamic adab and Mu tazila literature and more Such an approach reveals a transition from typological depictions to richer more lifelike portrayals a transformation shaped by rival notions of literature and history Nir translates the sources into accessible English for students and scholars of not only Jewish exegesis but also those in Christian theology Islamic studies and world literature

War and Peace in Jewish Tradition Yigal Levin, Amnon Shapira, 2012-03-15 The transition between the reality of war and a hope for peace has accompanied the Jewish people since biblical times However the ways in which both concepts are understood have changed many times over the ages and both have different implications for an independent nation in its own land than they do for a community of exiles living as a minority in foreign countries This book explores the concepts of war and peace throughout the history of Judaism Combining three branches of learning classical Jewish sources from the Bible to modern times related academic disciplines of Jewish studies humanities social and political sciences and public discussion of these issues on political military ideological and moral levels contributors from Israel and the USA open new vistas of investigation for the future as well as an awareness of the past Chapters touch on personal and collective morality in warfare survival though a long and often violent history and creation of some of the world s great cultural assets in literature philosophy and religion as well as in the fields of community life and social autonomy An important addition to the current literature on Jewish thought and philosophy this book will be of considerable interest to scholars working in the areas of Jewish Studies theology modern politics the Middle East and biblical studies
