Footprints in Parchment SANDRA SWEENEY SILVER, 2013-05-15 Footprints in Parchment: Rome Versus Christianity 30-313 AD masterfully tackles the question: How did a group of Christians with no homeland and no standing army defeat the juggernaut of ancient Rome? Using hundreds of first-hand accounts of events, Silver guides the reader through the rise and the reach of Imperial Rome to its eventual ruin and rescue by the infant Christian Church. Over a three hundred year period, Rome killed tens of thousands of Christians in an attempt to eradicate this new religion that it correctly intuited would bring Rome to its knees. Tertullian had said in the early 200s: "The blood of the martyrs is the seed of the church." Why did Rome kill all those people just because they believed in a Jewish carpenter from an obscure part of her Empire, and why did so many Christians willingly die? The martyrs died for the religious freedom to publicly say the words: "Christianus sum. I am a Christian." They won that right. Rome Versus Christianity leads the reader down the road of Rome's decline and Christianity's rise. There are many fascinating sights along the way.

War Elephants John M. Kistler, 2007-10-01 Elephants have fought in human armies for more than three thousand years. This is the largely forgotten tale of the credit they deserve and the sacrifices they endured

Freud's Trip to Orvieto Nicholas Fox Weber, 2017-05-09 An unusual meditation on sex, death, art, and Jewishness. Weber weaves in musings on his own sexual and religious experiences, creating a freewheeling psychoanalytic document whose approach would surely delight the doctor, even if its conclusions might surprise him. New Yorker: Freud's Trip to Orvieto is at once profound and wonderfully diverse, and as gripping as any detective story. Nicholas Fox Weber mixes psychoanalysis, art history, and the personal with an intricacy and spiritedness that Freud himself would have admired. John Banville, author of *The Sea* and *The Blue Guitar*: This is an ingenious and fascinating reading of Freud's response to Signorelli's frescoes at Orvieto. It is also a meditation on Jewish identity and on masculinity, memory, and the power of the image. It is filled with intelligence, wit, and clear-eyed analysis, not only of the paintings themselves but how we respond to them in all their startling sexuality and invigorating beauty. Colm Tóibín

n author of Brooklyn and Nora Webster After a visit to the cathedral at Orvieto in Italy Sigmund Freud deemed Luca Signorelli s frescoes the greatest artwork he d ever encountered yet a year later he couldn t recall the artist s name When the name came back to him the images he had so admired vanished from his mind s eye This is known as the Signorelli parapraxis in the annals of Freudian psychoanalysis and is a famous example from Freud s own life of his principle of repressed memory What was at the bottom of this There have been many theories on the subject but Nicholas Fox Weber is the first to study the actual Signorelli frescoes for clues What Weber finds in these extraordinary Renaissance paintings provides unexpected insight into this famously confounding incident in Freud s biography As he sounds the depths of Freud s feelings surrounding his masculinity and Jewish identity Weber is drawn back into his own past including his memories of an adolescent obsession with a much older woman Freud s Trip to Orvieto is an intellectual mystery with a very personal intimate dimension Through rich illustrations Weber evokes art s singular capacity to provoke destabilize and enchant us as it did Freud and awaken our deepest memories fears and desires Nicholas Fox Weber is the director of the Josef and Anni Albers Foundation and author of fourteen books including biographies of Balthus and Le Corbusier He has written for the New Yorker New York Times Los Angeles Times Wall Street Journal Le Monde ARTnews Town Country and Vogue among other publications
