*Personnel Information Bulletin* United States. Veterans Administration, 1967-03      *Citadel Values II* Robert E. Freer, 2010 From the author When Citadel Values went to press we began looking for an educational tool to capture the lessons and fortify our students in the greater world beyond the Lesesne Gate Also answering prompting calls for a longer book with more essays of comfort and wisdom we created a publication that has accomplished more than we sought This book is the result It reflects my thinking and writing during tumultuous economic times and of great stress on our body politic Stress is often the time of greatest growth I am hopeful as we traverse these bumps in the road that our American Ark will come out the better What I can assure you is that The Citadel will continue on its path of producing men and women of distinction and character to lead the next generation      **A Golden Day** H.J. **Coining for Capital** Jyotsna Kapur,2005-07-11 Since the 1980s a peculiar paradox has evolved in American film Hollywood s children have grown up and the adults are looking and behaving more and more like children In popular films such as Harry Potter Toy Story Pocahantas Home Alone and Jumanji it is the children who are clever savvy and self sufficient while the adults are often portrayed as bumbling and ineffective Is this transformation of children into little adults an invention of Hollywood or a product of changing cultural definitions more broadly In Coining for Capital Jyostna Kapur explores the evolution of the concept of childhood from its portrayal in the eighteenth century as a pure innocent and idyllic state the opposite of adulthood to its expression today as a mere variation of adulthood complete with characteristics of sophistication temptation and corruption Kapur argues that this change in definition is not a media effect but rather a structural feature of a deeply consumer driven society Providing a new and timely perspective on the current widespread alarm over the loss of childhood Coining for Capital concludes that our present moment is in fact one of hope and despair As children are fortunately shedding false definitions of proscribed innocence both in film and in life they must now also learn to navigate a deeply inequitable antagonistic and consumer driven society of which they are both a part and a target

**Perspectives on the Enlargement of the European Union** Cameron Ross,2021-09-06 In a historic decision at its Copenhagen Conference in June 1993 the European Union gave the green light to an eastward expansion Initially invitations to join the EU went out to just six countries of the former Soviet bloc Poland Hungary the Czech and Slovak republics Romania and Bulgaria However it was not long before there was a queue of other applicants from Eastern Europe pressing at the EU s gates There were real fears in some quarters that the economic reforms demanded for entry into the EU would bring about more shock than therapy in Eastern Europe and that a rapid move to the market would undermine support for democracy This volume of essays by a group of internationally recognised experts focuses on the eastward expansion of the European Union and the EU s relations with the applicant states The primary aim of the volume is to provide a historical and analytical account of the enlargement process and to provide readers with a scholarly road map to guide them through the intricacies of the rapidly changing enlargement terrain After region wide studies of the enlargement process there are case studies of eight countries Bulgaria Romania the Czech Republic Slovakia Croatia Serbia Poland and Estonia
