neighbourhood Toronto's Parkdale Carolyn Whitzman tracks Parkdale's story across three eras its early decades as a politically independent suburb of the industrial city its half century of ostensible decline toward becoming a slum and a post industrial period of transformation into a revitalized urban village This book also shows how Parkdale's image influenced planning policy for the neighbourhood even when the prevailing image of Parkdale had little to do with the actual social conditions there Whitzman demonstrates that this misunderstanding of social conditions had discriminatory effects For example even while Parkdale's reputation as a gentrified area grew in the post sixties era the overall health and income of the neighbourhood's residents was in fact decreasing and the area attracted media coverage as a dumping ground for psychiatric outpatients Parkdale's changing image thus stood in stark contrast to its real social conditions Nevertheless this image became a self fulfilling prophecy as it contributed to increasingly skewed planning practices for Parkdale in the late twentieth century This rich and detailed history of a neighbourhood's actual conditions imaginary connotations and planning policies will appeal to scholars and students in urban studies planning and geography as well as to general readers interested in Toronto and Parkdale's urban history The Lure of the City Austin Williams, Alastair Donald, 2011-11-15 Cities by their very nature are a mass of contradictions They can be at once visually stunning culturally rich exploitative and unforgiving In The Lure of the City Austin Williams and Alastair Donald explore the potential of cities to meet the economic social and political challenges of the current age This book seeks to examine the dynamics of urban life showing that new opportunities can be maximized and social advances realized in existing and emerging urban centers The book explores both the planned and organic nature of urban developments and the impacts and aspirations of the people who live and work in them It argues convincingly that the metropolitan mindset is essential to the struggle for human liberation The short accessibly written essays are guaranteed to spark debate across the media and academia about the place of cities and urban life in our ever changing world **The American Schoolmaster**, 1928 How to Abolish the Slums Ernest Darwin Simon, 1929
