web may 12 2006 here we report recent progress in quantum information processing with point defects in diamond qubits are defined as single spin states electron or nuclear this allows exploration of long coherence times up to seconds for nuclear spins at

quantum information processing with diamond sciencedirect - Sep 22 2023

web quantum information processing with diamond looks at the principles of quantum information science diamond materials and their applications part one provides an introduction to quantum information processing using diamond as well as its principles and fabrication techniques

quantum information processing with diamond principles and - Oct 11 2022

web jun 3 2014 quantum information processing with diamond looks at the principles of quantum information science diamond materials and their applications part one provides an introduction to quantum information processing using diamond as well as its principles and fabrication techniques

quantum information processing an overview sciencedirect - Jul 08 2022

web quantum information processing qip uses superposition states of photons or atoms to process store and transmit data in ways impossible to reach with classical systems rare earth doped crystals have recently emerged as promising systems for these applications mainly because they exhibit very narrow optical transitions at low temperature

quantum information processing with diamond principles and - Jun 19 2023

web 1 principles of quantum information processing qip using diamond 3 p e barclay university of calgary canada 1 1 introduction 3 1 2 the role of diamond impurities in quantum information processing qip 3 1 3 types of diamond color center 4 1 4 key properties of nitrogen vacancy nv centers 6 1 5 techniques for creating nv centers 8

promising directions in diamond technologies for quantum information - Feb 15 2023

web jan 1 2014 this final chapter summarizes some of the emerging topics in the usage of diamond for quantum information processing practical applications include biosensing and bioimaging using colour centres in diamond as well as pathways towards integrated quantum photonics using diamond as a platform
