The Academic Scribblers American Economists In Collision

John Foster

The Academic Scribblers American Economists In Collision:

The Academic Scribblers William Breit, Roger L. Ransom, 1982 The Conservative Intellectual Movement in America Since 1945 George H. Nash, 2014-04-08 First published in 1976 and revised in 1996 George H Nash's celebrated history of the postwar conservative intellectual movement has become the unquestioned standard in the field This new edition published in commemoration of the volume's thirtieth anniversary includes a new preface by Nash and will continue to instruct anyone interested in how today's conservative movement was born *On the History of Economic Thought* A. W. Bob Coats, 2005-08-08 Following an introduction to the key ideas of Coats this work focuses on two themes the difference between British and American economics both in content and in the practice of the profession and the interrelationships between economic ideas events or conditions and policy issues **Leon H. Keyserling** Donald K. Pickens, 2009-09-03 Leon H Keyserling A Progressive Economist is the insightful biography of the life and thought of the influential liberal reformer Leon H Keyserling By examining Keyserling's life in the context of integrative liberalism the biography aims to explore the origins of the concept of integrative liberalism and Keyserling's profound and provocative contribution to it The book follows the political reformer's life from the beginning of his career as a member of Democratic Senator Robert Wagner's staff at the same time showing how the Progressive Movement before World War I was the ideological and institutional origin for integrative liberalism The Great Depression and subsequent New Deal to which Keyserling was a significant contributor allowed integrative liberalism to develop until the movement started losing vitality in the 1960's and came to an end during the Reagan Presidency In the meantime the book presents Keyserling as a major sculptor of Truman's economic policies after which he left the government and began effectively debating public policy on his own Tracing Keyserling's interactions with each presidency the biography shows that Keyserling's policies and politics were expressive of integrated liberalism an often overlooked philosophy of reform in the second half of the twentieth century The ideological cornerstone of integrative liberalism was a full employment public policy expressed as economic growth and developed directly from United States history The fear driving the policy was that there would be wide swings in the business cycle resulting in underemployment and economic stagnation This sentiment and fear has an impact even now in the twenty first century making Leon H Keyserling a timely and profitable study for graduate and undergraduate students of history economics political science and public administration **The Academic Scribblers** William Breit, Roger L. Ransom, 2014-07-14 The Academic Scribblers offers a thoughtful and highly literate summary of modern economic thought It presents the story of economics through the lives of twelve major modern economists beginning with Alfred Marshall and concluding with Paul Samuelson and Milton Friedman In a very real sense this book picks up where Robert Heilbroner's classic *The Worldly Philosophers* leaves off Whereas Heilbroner begins with Smith and ends with Joseph Schumpeter Breit and Ransom bring the story of modern American and British economic theory up to the 1980s The Academic Scribblers is an elegant summary of modern economic

policy debate and an enticement into a happy engagement with the dismal science of economics Originally published in 1998 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The Confederate States of America: What Might Have Been Roger L. Ransom, 2006-10-17 Provocative and compelling a wild ride through Civil War history Library Journal What if Lee had avoided defeat at Gettysburg What if a military stalemate had developed coupled with growing antiwar sentiment What if Lincoln had been defeated in the 1864 election and Great Britain had recognized the Confederacy What would have been the careers of an independent Confederate States of America and a defeated United States No historian has thought through such what if questions as seriously as Roger Ransom says the Washington Post Book World A master of historical analysis Roger L Ransom follows the consequences of the what if scenario over an extended period of time exploring such issues as the fate of slavery in a CSA how the economies of the USA and the CSA would have developed and how their foreign policies would have differed The result is a fascinating historical vision that is a source of insight into the critical events of the Civil War period as they actually happened

The American Experiment James MacGregor Burns, 2013-05-21 The Pulitzer Prize winning author's stunning trilogy of American history spanning the birth of the Constitution to the final days of the Cold War In these three volumes Pulitzer Prize and National Book Award winner James MacGregor Burns chronicles with depth and narrative panache the most significant cultural economic and political events of American history In *The Vineyard of Liberty* he combines the color and texture of early American life with meticulous scholarship Focusing on the tensions leading up to the Civil War Burns brilliantly shows how Americans became divided over the meaning of Liberty In *The Workshop of Democracy* Burns explores more than a half century of dramatic growth and transformation of the American landscape through the addition of dozens of new states the shattering tragedy of the First World War the explosion of industry and in the end the emergence of the United States as a new global power And in *The Crosswinds of Freedom* Burns offers an articulate and incisive examination of the US during its rise to become the world's sole superpower through the Great Depression the Second World War the Cold War and the rapid pace of technological change that gave rise to the American Century

Milton Friedman William Ruger, 2013-08-01 Milton Friedman 1912-2006 was one of the most important 20th century advocates of libertarian and conservative ideas in academia and amongst the wider public He made a critical contribution to the development of the free market and monetarist economics that challenged the dominant interventionist and Keynesian paradigm throughout the developed world His books popular writings and television programmes were crucial to the public understanding of the role of the market in the promotion of human freedom and well

being This outstanding sets out Friedman s intellectual contribution to economic methodology and our understanding of a host of economic phenomena including the relationship between consumption and income the workings of flexible exchange rates and the relationship between inflation and the supply of money in the economy Dr Ruger also sets out Friedman s contribution to political theory discussing Friedman s work on the relationship between economic and political freedom the social responsibilities of business and the proper relationship between the individual and the state particularly in the context of conscription drug prohibition and discrimination

Evolutionary Macroeconomics (Routledge Revivals) John Foster,2013-02-01 First published in 1987 Evolutionary Macroeconomics offers an evolutionary approach to macroeconomics as an alternative to contemporary new classical and Keynesian macroeconomics In order to develop such an approach an alternative view of the micro foundations of macroeconomics is presented The book begins with a commentary on the state of macroeconomics and an evaluation of attempts to redevelop its underlying vision of economic behaviour Particular attention is paid to the treatment of expectations and anticipations The second part of the book presents a behavioural framework which is compatible with an evolutionary perspective on economic behaviour The third part of the book discusses the implications of adopting an evolutionary approach to macroeconomic theory empirical methods and policy design culminating in a specific policy proposal to cure stagflation

The Social Sciences Since the Second World War Daniel Bell, Organizing his work thematically to explore important ideas and trends that have influenced the social sciences since World War II Bell charts the rise and fall of major developments in the field and presents a comprehensive survey of the progress of the social sciences over this thirty five year period

The New Millennium: Challenges and Strategies for a Globalizing World Sai Felicia Krishna-Hensel,2017-11-22 This title was first published in 2000 An important look at the complexity of the challenges faced by the international system at the beginning of the new millennium The shape of the New World Order is being driven largely by forces unleashed through factors such as economic globalization and technological development The book emphasizes the importance of interdisciplinary analysis in order to understand the extent and diversity of the factors which condition the dynamics of this transformation Essential reading for students of human rights security finance and technology

The Confederate States of America Roger L. Ransom,2005 What if Lee had avoided defeat at Gettysburg In the right hands the what if question can give us unusual access to the fascinations of history

Building Chicago Economics Robert Van Horn,Philip Mirowski,Thomas A. Stapleford,2011-10-17 Over the past forty years economists associated with the University of Chicago have won more than one third of the Nobel prizes awarded in their discipline and have been major influences on American public policy Building Chicago Economics presents the first collective attempt by social science historians to chart the rise and development of the Chicago School during the decades that followed the Second World War Drawing on new research in published and archival sources contributors examine the people institutions and ideas that established the foundations for the success of Chicago economics and thereby positioned it as a powerful and controversial

force in American political and intellectual life Economic Thought Since Keynes Michel Beaud, Gilles Dostaler, 2005-09-27
Economic Thought Since Keynes provides a concise overview of changing economic thought in the latter part of the twentieth century Offering a concise biography of 150 influential economists since Keynes it is an invaluable reference tool

Science and Ceremony William Breit, William Patton Culbertson, 2014-06-23 Clarence Edwin Ayres was the leading American institutionalist economist in the post World War II era His innovative theories concerning the causes and significance of technological change provided the philosophical framework for that school of economics called institutionalism In his recognition that the critical economic issues of the future would be the realization of the full economic potential of industrial society and the development of the third world he was at least twenty years ahead of his time In addition Ayres s influence as an economics teacher at the University of Texas at Austin went well beyond the discipline of economics to students of anthropology psychology philosophy education and even music and art This book constitutes the first major appraisal of the work and influence of C E Ayres The essays are written from a transatlantic as well as a national viewpoint and do not evince anyone ideological bias As John Kenneth Galbraith says in his Foreword the essays are not meant as a monument to Ayres instead they critique what he thought and did showing his range of interests his diligence his originality of mind and method Contributions to the volume are Clarence Edwin Ayres An Intellectual s Portrait by editors William Breit and William Patton Culbertson Jr Clarence Ayres s Place in the History of American Economics An Interim Assessment by A W Coats C E Ayres on the Industrial Revolution by R M Hartwell Clarence Ayres and the Roots of Economic Progress by S Herbert Frankel Technology and the Price System by W W Rostow Limits to Growth Biospheric or Institutional by Joseph J Spengler Science s Feet of Clay by Gordon Tullock Ayres s Views on Moral Relativism by Alfred F Chalk Methods and Morals in Economics The Ayres Knight Discussion by James M Buchanan Clarence Ayres s Economics and Sociology by Talcott Parsons and Clarence E Ayres as a University Teacher by Marion J Levy Jr **University Bulletin** University of California (System), 1970 Catalog of Copyright Entries.
