Inarticulate Society Tom Shachtman,2007-09-11 Thomas Schachtman author of Skyscraper Dreams approaches the muddy intolerant world of political conversation through the belief that Americans have lost the ability to respond and argue differing points of view without coming swiftly to blows Considering the rising tide of political violence in America and the hateful and intolerant speech that appears to incite it Thomas Schachtman argues that political debates are in danger of moving from the Senate chamber to the streets taking the social stability needed for a working democracy with it Blaming this decline on the jargon used by specialists in the professions and academia in order to distinguish superiority over common citizens Schachtman proposes a concrete multifaceted program for rehabilitating eloquence through the constructive use of media in combination with political and educational reform

Intoxication and Society Jonathan Herring,Ciaran Regan,Darin Weinberg,Philip Withington,2012-12-21 Intoxicants substances that alter a person s mental and physiological state are a continuing obsession In their effect on the mind and body intoxicants go to the heart of what it means to be human In the tensions between free and uninhibited consumption on the one hand and the pressures of social regulation and personal responsibility on the other they also illuminate the daily paradoxes and sheer complexity of living in modern Western societies Yet this complexity and the rich history that underpins it is often lost in the current debates over public policy Intoxication and Society sets out to supplement the contemporary discourse surrounding intoxication with a more nuanced appreciation of the history and nature of what is very much a multidimensional problem It does so by employing an interdisciplinary framework that includes contributions from leading academics in law sociology anthropology history literature neuroscience and social psychology The result is a subtle historical and contemporary rereading of the social construction of intoxication that will provide a secure basis for analysis as society continues to respond to the problematic pleasures of intoxication
