The Age Of Equipose A Study Of The Mid Victorian Generation Unwin Universitys 74:

Victorian Sensation James A. Secord, 2024-05-31 Fiction or philosophy profound knowledge or shocking heresy When *Vestiges of the Natural History of Creation* was published anonymously in 1844 it sparked one of the greatest sensations of the Victorian era More than a hundred thousand readers were spellbound by its startling vision an account of the world that extended from the formation of the solar system to the spiritual destiny of humanity As gripping as a popular novel *Vestiges* combined all the current scientific theories in fields ranging from astronomy and geology to psychology and economics The book was banned it was damned it was hailed as the gospel for a new age This is where our own public controversies about evolution began In a pioneering cultural history James A Secord uses the story of *Vestiges* to create a panoramic portrait of life in the early industrial era from the perspective of its readers We join apprentices in a factory town as they debate the consequences of an evolutionary ancestry We listen as Prince Albert reads aloud to Queen Victoria from a book that preachers denounced as blasphemy vomited from the mouth of Satan And we watch as Charles Darwin turns its pages in the flea ridden British Museum library fearful for the fate of his own unpublished theory of evolution Using secret letters Secord reveals how *Vestiges* was written and how the anonymity of its author was maintained for forty years He also takes us behind the scenes to a bustling world of publishers printers and booksellers to show how the furor over the book reflected the emerging industrial economy of print Beautifully written and based on painstaking research *Victorian Sensation* offers a new approach to literary history the history of reading and the history of science Profusely illustrated and full of fascinating stories it is the most comprehensive account of the making and reception of a book other than the Bible ever attempted Winner of the 2002 Pfizer Award from the History of Science Society **Library of Congress Catalog** Library of Congress, 1970 A cumulative list of works represented by Library of Congress printed cards **The Circus and Victorian Society** Brenda Assael, 2005 This conflict informs us not only of the complicated role that the circus played in Victorian society but provides a unique view into a collective psyche fraught by contradiction and anxiety *Library of Congress Catalogs* Library of Congress, 1970 Margaret Oliphant's Carlingford Series Birgit Kämper, 2001 Nineteenth century observers of social and religious life in England felt that religion class and gender were frameworks that previous generations had taken for granted but that were becoming more and more problematic as the century progressed An analysis of Margaret Oliphant's *Chronicles of Carlingford* in the context of contemporary fiction and nonfiction demonstrates the extent to which these novels contributed to the contemporary debate Oliphant offers a comprehensive and uncommonly balanced picture of the most visible parties in English religious life in the 1860s and 70s and draws attention to the arbitrariness and power of social signifying practices She questions traditional gender roles by portraying talented and self confident female characters whose superficial conformity to societal conventions can hardly disguise their determination to take control both of their own lives and of the lives of others **Vampires, Mummies, and Liberals** David Glover, 1996

Glover's efforts reveal a writer who was more wide ranging and politically engaged than his current reputation suggests. An Irish Protestant and nationalist Stoker nonetheless drew his political inspiration from English liberalism at a time of impending crisis and the tradition's contradictions and uncertainties haunt his work. At the heart of Stoker's writing, Glover exposes a preoccupation with those sciences and pseudosciences from physiognomy and phrenology to eugenics and sexology that seemed to cast doubt on the liberal faith in progress. He argues that *Dracula* should be read as a text torn between the stances of the colonizer and colonized, unable to accept or reject the racialized images of backwardness that dogged debates about Irish nationhood.

Fictions of Knowledge Y. Batsaki, S. Mukherji, J. Schramm, 2011-11-15

Locating literature at the intersection of distinct areas of thinking on the nature, scope and methods of knowledge, philosophy, theology, science and the law, this book engages with literary texts across periods and genres to address questions of probability, problems of evidence, the uses of experiment and the poetics and ethics of doubt.

Industrialisation and Society Eric Hopkins, 2013-01-11

Industrialisation and Society provides an essential introduction to the effects of industrialisation on British society from Queen Victoria's reign to the birth of the welfare state in the 1940s. This book deals with the remarkable social consequences of the industrial revolution as Britain changed into an urban society based on industry. As the first nation to undergo an industrial revolution, Britain was also the first to deal with the unprecedented social problems of rapid urbanisation combined with an unparalleled growth in population. *Industrialisation and Society* looks at contemporary ways in which the government and ordinary people tried to cope with these new pressures and studies their reactions to the unforeseen consequences of the steam revolution. In particular, this indispensable book considers the Victorian inheritance, Edwardian England and the Liberal reforms, the two world wars, the Welfare State.

Empire as the Triumph of Theory Edward Beasley, 2005

A key addition to our understanding of the Victorian era, British Empire, this book looks at the founders of the Colonial Society and the ideas that led them down the path to imperialism.
