on British Screens since 1960 is a detailed historical and critical overview of espionage in British film and television in the important period since 1960 From that date the British spy screen was transformed under the influence of the tremendous success of James Bond in the cinema the spy thriller and of the new style spy writing of John le Carr and Len Deighton the espionage story In the 1960s there developed a popular cycle of spy thrillers in the cinema and on television The new study looks in detail at the cycle which in previous work has been largely neglected in favour of the James Bond films The study also brings new attention to espionage on British television and popular secret agent series such as *Spy Trap* *Quiller* and *The Sandbaggers* It also gives attention to the more realistic representation of spying in the film and television adaptations of le Carr and Deighton and other dramas with a more serious intent In addition there is wholly original attention given to nostalgic spy fictions on screen adaptations of classic stories of espionage which were popular in the late 1970s and through

the 1980s and to historical spy fiction dramas which treated real cases of espionage and their characters most notably the notorious Cambridge Spies Detailed attention is also given to the secret state thriller a cycle of paranoid screen dramas in the 1980s which portrayed the intelligence services in a conspiratorial light best understood as a reaction to excessive official secrecy and anxieties about an unregulated security service The study is brought up to date with an examination of screen espionage in Britain since the end of the Cold War The approach is empirical and historical The study examines the production and reception literary and historical contexts of the films and dramas It is the first detailed overview of the British spy screen in its crucial period since the 1960s and provides fresh attention to spy films series and serials never previously considered

**The Hour of the Donkey** Anthony Price, 2012-09-06 By the CWA Gold Dagger award winning author of *Other Paths to Glory* 24 May 1940 Why did Hitler stop the Panzers and allow the British army to escape to Dunkirk? Anthony Price provides an answer in this brilliant compulsively readable thriller of two young officers pitchforked into the chaos of war. The German advance strands them behind enemy lines where they witness an extraordinary scene: a high ranking British officer consorting with Nazis. The possible explanations are shattering not only for them but for the fate of the whole British Expeditionary Force.

*Spies and Holy Wars* Reeva Spector Simon, 2010-11-15 Illuminating a powerful intersection between popular culture and global politics *Spies and Holy Wars* draws on a sampling of more than eight hundred British and American thrillers that are propelled by the theme of jihad: an Islamic holy war or crusade against the West. Published over the past century, the books in this expansive study encompass spy novels and crime fiction illustrating new connections between these genres and Western imperialism. Demonstrating the social implications of the popularity of such books, Reeva Spector Simon covers how the Middle Eastern villain evolved from being the malleable victim before World War II to the international techno savvy figure in today's crime novels. She explores the impact of James Bond pulp fiction and comic books and also analyzes the ways in which world events shaped the genre particularly in recent years. Worldwide terrorism and economic domination prevail as the most common sources of narrative tension in these works while military tech novels restored the prestige of the American hero in the wake of post Vietnam skepticism. Moving beyond stereotypes, Simon examines the relationships between publishing trends, political trends and popular culture at large, giving voice to the previously unexamined truths that emerge from these provocative page turners.
