She wrote it to exorcise the experience of her first passionate love affair with the New Yorker May Bookstaver, the friend and lover of the Bostonian Mabel Haynes, a fellow student of Gertrude Stein's at Johns Hopkins Medical School between 1898 and 1902. The impact of the complicated affair on Stein's writing has attracted considerable attention, but the subsequent lives of her two intimate friends have not been covered so far in any detailed way. Gwendolyn Leick is the granddaughter of Mabel Haynes, who moved to Austria-Hungary in 1905. She began writing this book after the chance discovery of her grandmother's part in Gertrude Stein's life some six years ago in order to do justice to these remarkable women. The method of writing lays out the things, the notions and ideas, the people, friends, relatives, lovers, husbands in the form of associative entries woven around Gertrude Stein's texts as much as on private letters, photographs and other found objects. It is an encyclopaedic enterprise rather than a chronologically ordered biographical account. The character and the lives of the three protagonists and the times they lived in emerge through the kaleidoscope of the accumulated vignettes **Pot in Pans** Robyn Griggs Lawrence, 2019-05-08 *Pot in Pans: A History of Eating Weed* is a comprehensive history of cannabis as a unique culinary ingredient from ancient India and Persia to today's explosive new market. Cannabis, the hottest new global food trend, has been providing humans with nutrition, medicine and solace against all odds since the earliest cavepeople discovered its powers. In colorful detail, the book explores the debate over the cannabis plant's taxonomy and nomenclature, then follows as it co-evolves with humans throughout history, beloved by the masses, reviled by the elite and shrouded in conflict and secrecy. The story is held together by the thread of the Islamic confection *majoun*, created to manipulate a band of twelfth-century *fedayeen*, a legend that later inspired Western intellectuals and literati to discover and enjoy hashish and *majoun*. It's the story of how a U.S. drug czar got cannabis prohibited around the world and how some cultures worked around that. It's the story of how a recipe for *majoun* made its way into the hands of Alice B. Toklas, an expat in Paris, and then into the pages of a cookbook published in New York and London, leading to a major mix-up in a major motion picture that morphed *majoun* into the pot brownie and turned the pot brownie into a Western icon forevermore. From the rowdy band of artists, rebels and intellectuals who partook of *majoun*'s charms and to an activist who made the pot brownie a symbol of compassion, it's the story of how cannabis cookery and hash eating survived through decades of global prohibition and the birth of a skies-the-limit cannabis-infused food industry. Along

the way Robyn Griggs Lawrence explores the medicinal qualities of cannabis and its resurgence as a both a recreational drug and a respite from various illnesses and ailments With recipes and stories throughout this work is sure to entertain and inform readers about the history of cannabis as an edible ingredient in a variety of foods *Eating Identities* Wenying Xu,2018-03-31 The French epicure and gastronome Brillat Savarin declared Tell me what you eat and I will tell you who you are Wenying Xu infuses this notion with cultural political energy by extending it to an ethnic group known for its cuisines Asian Americans She begins with the general argument that eating is a means of becoming not simply in the sense of nourishment but more importantly of what we choose to eat what we can afford to eat what we secretly crave but are ashamed to eat in front of others and how we eat Food as the most significant medium of traffic between the inside and outside of our bodies organizes signifies and legitimates our sense of self and distinguishes us from others who practice different foodways Narrowing her scope Xu reveals how cooking eating and food fashion Asian American identities in terms of race ethnicity gender class diaspora and sexuality She provides lucid and informed interpretations of seven Asian American writers John Okada Joy Kogawa Frank Chin Li Young Lee David Wong Louie Mei Ng and Monique Truong and places these identity issues in the fascinating spaces of food hunger consumption appetite desire and orality Asian American literature abounds in culinary metaphors and references but few scholars have made sense of them in a meaningful way Most literary critics perceive alimentary references as narrative strategies or part of the background Xu takes food as the central site of cultural and political struggles waged in the seemingly private domain of desire in the lives of Asian Americans *Eating Identities* is the first book to link food to a wide range of Asian American concerns such as race and sexuality Unlike most sociological studies which center on empirical analyses of the relationship between food and society it focuses on how food practices influence psychological and ontological formations and thus contributes significantly to the growing field of food studies For students of literature this tantalizing work offers an illuminating lesson on how to read the multivalent meanings of food and eating in literary texts

Vester, 2015-10-02 *A Taste of Power* is an investigation of the crucial role culinary texts and practices played in the making of cultural identities and social hierarchies since the founding of the United States Nutritional advice and representations of food and eating including cookbooks literature magazines newspapers still life paintings television shows films and the internet have helped throughout American history to circulate normative claims about citizenship gender performance sexuality class privilege race and ethnicity while promising an increase in cultural capital and social mobility to those who comply with the prescribed norms The study examines culinary writing and practices as forces for the production of social order and at the same time as points of cultural resistance against hegemonic norms especially in shaping dominant ideas of nationalism gender and sexuality suggesting that eating right is a gateway to becoming an American a good citizen an ideal man or a perfect mother Cookbooks as a low prestige literary form became the largely unheralded vehicles for women to participate in nation building before they had access to the vote or public office for middle class authors to assert their class privileges for men to claim superiority over women even in the kitchen and for Lesbian authors to reinscribe themselves into the heteronormative economy of culinary culture The book engages in close reading of a wide variety of sources and genres to uncover the intersections of food politics and privilege in American culture Provided by publisher **Modernism and**
