The Allies Triumph 50th Anniversary:

Israel Victory ,2024-06-18 A leading historian applies his deep understanding of the Middle East to the Palestinian Israeli conflict the most intractable emotive clash of the past century Daniel Pipes argues that this long struggle pits two unique and doomed mentalities that exist outside of normal politics against each other making it so difficult to comprehend One mentality consists of rejectionism or the Palestinians negation of Jews Judaism Zionism and Israel Rejectionism accounts for their enduring goal of genocide their refusal to take yes for an answer their unwillingness to seek improved living circumstances and their determination to defame the Jewish state The other mentality consists of conciliation or the Zionists attempt to win Palestinian acceptance not by defeating their enemy but by enriching and placating it Pipes argues against this anomalous Zionist approach advocating instead the traditional method of ending a war through victory Palestinians give up Israel wins In a brilliant essay that brings surprisingly fresh insights and original policy recommendations to a well worn topic Pipes draws lessons from past peace process failures delves into the universal nature of defeat and victory and offers practical advice on how Israel can win through minimal violence and maximal messaging Both sides need an Israel Victory to break with the static pull of outdated mentalities For Israel it means acceptance especially among Muslims and on the global Left For the Palestinians Israel Victory means liberation from a destructive obsession enabling them finally to build a polity economy society and culture worthy of their skills and ambitions Code of Federal Regulations ,1992 Special edition of the Federal Register containing a codification of documents of general applicability and future effect with ancillaries The Code of Federal Regulations of the United States of America ,1991 The Code of federal regulations is the codification of the general and permanent rules published in the Federal register by the executive departments and agencies of the federal government *Code of Federal Regulations* United States. The United States and NATO since 9/11 Ellen Hallams, 2009-12-04 The US decision not to work through NATO after 9 11 left many European members of the alliance feeling deflated This decision reflected not only the unilateralism of the Bush Administration but also the belief that US operational freedom and flexibility had been hampered during NATO's two Balkans interventions This book examines US attitudes to and perspectives on the transatlantic alliance with a particular focus on US NATO relations since 9 11 It demonstrates that following the decision to bypass NATO after 9 11 the Bush Administration's perceptions of the alliance shifted due to a belated recognition that NATO did indeed have much to offer the US Hallams explores NATO's contributions to post combat reconstruction and stabilisation operations in Afghanistan and Iraq and argues that the events of 9 11 galvanised NATO into undertaking an accelerated program of transformation that has done much to reinvigorate the alliance This book offers an optimistic assessment of the transatlantic alliance counter balanced by realistic reflections on the problems it faces Drawing on interviews with US and NATO officials it argues that NATO is far from irrelevant and that prospects for the alliance remain fundamentally positive it will be of interest to students and scholars of US Foreign Policy American politics international relations security studies and transatlantic studies
