**The Social History of the American Family** Marilyn J. Coleman, Lawrence H. Ganong, 2014-09-02 The American family has come a long way from the days of the idealized family portrayed in iconic television shows of the 1950s and 1960s The four volumes of *The Social History of the American Family* explore the vital role of the family as the fundamental social unit across the span of American history Experiences of family life shape so much of an individual's development and identity yet the patterns of family structure family life and family transition vary across time space and socioeconomic contexts Both the definition of who or what counts

as family and representations of the ideal family have changed over time Available in both digital and print formats this carefully balanced academic work chronicles the social cultural economic and political aspects of American families from the colonial period to the present Key themes include families and culture including mass media families and religion families and the economy families and social issues families and social stratification and conflict family structures including marriage and divorce gender roles parenting and children and mixed and non modal family forms and family law and policy Features Approximately 600 articles richly illustrated with historical photographs and color photos in the digital edition provide historical context for students A collection of primary source documents demonstrate themes across time The signed articles with cross references and Further Readings are accompanied by a Reader s Guide Chronology of American Families Resource Guide Glossary and thorough index The Social History of the American Family is an ideal reference for students and researchers who want to explore political and social debates about the importance of the family and its evolving constructions Key Themes Families and Culture Families and Experts Families and Religion Families and Social Change Families and Social Issues Problems Crises Families and Social Media Families and Social Stratification Social Class Families and Technology Families and the Economy Families in America Families in Mass Media Families Family Life Social Identities Family Advocates and Organizations Family Law and Family Policy Family Theories History of American Families     *The American Family* David Peterson del Mar,2011-11-07 Traces the movement from mutualism to individualism in the context of American family life Families survived or even flourished during colonization Revolution slavery immigration and economic upheaval In the past century prosperity created a culture devoted to pleasure and individual fulfilment     Universal Basic Income in Historical Perspective Peter Sloman,Daniel Zamora Vargas,Pedro Ramos Pinto,2021-11-19 This new edited collection brings together historians and social scientists to engage with the global history of Universal Basic Income UBI and offer historically rich perspectives on contemporary debates about the future of work In particular the book goes beyond a genealogy of a seemingly utopian idea to explore how the meaning and reception of basic income proposals has changed over time The study of UBI provides a prism through which we can understand how different intellectual traditions political agents and policy problems have opened up space for new thinking about work and welfare at critical moments Contributions range broadly across time and space from Milton Friedman and the debate over guaranteed income in the post war United States to the emergence of the European basic income movement in the 1980s and the politics of cash transfers in contemporary South Africa Taken together these chapters address comparative questions why do proposals for a guaranteed minimum income emerge at some times and recede into the background in others What kinds of problems is basic income designed to solve and how have policy proposals been shaped by changing attitudes to gender roles and the boundaries of social citizenship What role have transnational networks played in carrying UBI proposals between the global north and the global south and how does the politics of basic income vary between these contexts In short the book builds on a growing

body of scholarship on UBI and lays the groundwork for a much richer understanding of the history of this radical proposal Chapter 3 is available open access under a Creative Commons Attribution 4.0 International License via [link.springer.com](https://link.springer.com)

**Politics of Abortion and Birth Control in Historical Perspective** Donald T. Critchlow, 2010-11-01 While there is extensive literature on the social history, politics and legal aspects of birth control and abortion in the United States, the history of family planning as a policy remains to be fully recorded. This volume is intended to contribute to this history by examining birth control and abortion within a larger cultural policy and comparative framework. The essays contained in this volume represent a variety of perspectives and scholarly interests. In many instances, the authors differ with each other as well as with the editor on fundamental points of historical interpretation. They all, however, share a commitment to study the politics of population within a scholarly framework that emphasizes the importance of policy history for understanding past and contemporary problems.

Handbook of Marriage and the Family Marvin B. Sussman, Suzanne K. Steinmetz, Gary W. Peterson, 2013-06-29 To know where we are going as scholars educators and practitioners in the field of marriage and family life we first need to know where we have been A perusal of early texts on marriage and family life

provides some thought provoking insights into the accuracy of the saying what goes around comes around It is interesting to note who has been considered to be in a position to provide information on marriage and family life Included in the eclectic collection of texts we reviewed were ministers whose focus was on spirituality doctors who emphasized medical aspects of child and adult health and public health professionals and home economists concerned with fighting disease who emphasized cleanliness order fighting germs and eliminating rodents and insects There are also philosophers who drew from ancient texts when discussing family life and a count who assembled a group of German intellectual elites to address various topics An insightful essay of this type is by Marta Karlweis 1926 in which she notes There is no other fetish that society holds to so firmly as the conception woman with all its usual associations of infantilism and dependence The child requires protection is a minor and consequently a serf but above all it possesses no spiritual existence Neither doctorates or other distinctions nor the right to vote have as yet been able to dispel this sweet idea of the childishness of woman which man cherishes p

**The Cinematic Representation of the Chinese American Family** Qijun Han, 2016-03-08 There has been an increasing recognition of the fluidity and ambiguity of ethnic identities within the context of global mobility With that in mind how have films constructed the identity of ethnic Chinese in the United States This book addresses this issue through three sub questions First why is the family narrative so characteristic of films about Chinese Americans in transnational Chinese cinema In other words how and why are images of Chinese or Chinese Americans in transnational Chinese cinema different from those in Hollywood movies Second how does transnational Chinese cinema define and negotiate the aesthetic conventions of melodrama commonly used to depict Chinese American families In terms of establishing melodrama as an evolving mode of how does Chinese American

cinema historically connect with both Hollywood and Chinese cinema Third what have the narrative treatments of Chinese American families in transnational Chinese cinema contributed to the ongoing representation of Chinese culture and construction of ethnic Chinese identities in Western societies This book traverses fields such as cultural studies Chinese studies media studies American studies and film studies and engages with a select corpus of films from the 1990s to the 2000s directed by Chinese American Taiwanese and Hong Kong filmmakers and produced in the USA Taiwan Hong Kong and mainland China to analyze the role the American Chinese family plays in their work With sensitivity towards transnational bonds and historical processes a negotiation process of three sets of conflicting forces has subsequently emerged the traditional and the modern the national and the transnational and Chinese American identity crisis in favor of a Chinese identity or a true American identity Contrasting cultural beliefs undoubtedly create cross cultural and generational conflicts within the family yet also open the way to negotiation and compromise This research on the cinematic depiction of Chinese Americans reveals the historically significant transnational connection among Chinese American Chinese and American cultures On the one hand ethnic Chinese are represented by boundaries that establish and define the Chinese American community against other communities and yet on the other hand the representation of family life and structure of Chinese immigrants is multiple and fluid as culture itself is unstable and uncertain Therefore a process of fixation and a process of fluidity seem to take place at the same time
