The Generic Speaker:

The Generic Speaker Gail Shadwell, Brigitte T. Breitenbucher, Aaron Vessup, 1985-01-01 **Sound Systems: Design and Optimization** Bob McCarthy, 2016-02-26 Sound Systems Design and Optimization provides an accessible and unique perspective on the behavior of sound systems in the practical world The third edition reflects current trends in the audio field thereby providing readers with the newest methodologies and techniques In this greatly expanded new edition you ll find clearer explanations a more streamlined organization increased coverage of current technologies and comprehensive case studies of the author s award winning work in the field As the only book devoted exclusively to modern tools and techniques in this emerging field Sound Systems Design and Optimization provides the specialized guidance needed to perfect your design skills This book helps you Improve your design and optimization decisions by understanding how audiences perceive reinforced sound Use modern analyzers and prediction programs to select speaker placement equalization delay and level settings based on how loudspeakers interact in the space Define speaker array configurations and design strategies that maximize the potential for spatial uniformity Gain a comprehensive understanding of the tools and techniques required to generate a design that will create a successful transmission reception model **Bridges Between Psychology and Linguistics** Donna Jo Napoli, Judy Anne Kegl, Judy Kegl, 2013-03-07 Written as a tribute to Lila Gleitman an influential pioneer in first language acquisition and reading studies this significant book clearly establishes the relationships between psychology and linguistics It begins with a thorough examination of issues in developmental psychology continues with questions on perception and cognition studies the realm of psycholinguistics and concludes with an exploration of theoretical linguistics **Expressing the Self** Minyao Huang, Katarzyna Jaszczołt, 2018 This book addresses different linguistic and philosophical aspects of referring to the self in a wide range of languages from different language families including Amharic English French Japanese Korean Mandarin Newari Sino Tibetan Polish Tariana Arawak and Thai In the domain of speaking about oneself languages use a myriad of expressions that cut across grammatical and semantic categories as well as a wide variety of constructions Languages of Southeast and East Asia famously employ a great number of terms for first person reference to signal honorification The number and mixed properties of these terms make them debatable candidates for pronounhood with many grammar driven classifications opting to classify them with nouns Some languages make use of egophors or logophors and many exhibit an interaction between expressing the self and expressing evidentiality qua the epistemic status of information held from the ego perspective The volume s focus on expressing the self however is not directly motivated by an interest in the grammar or lexicon but instead stems from philosophical discussions on the special status of thoughts about oneself known as de se thoughts It is this interdisciplinary understanding of expressing the self that underlies this volume comprising philosophy of mind at one end of the spectrum and cross cultural pragmatics of self expression at the other This unprecedented juxtaposition results in a novel method of approaching de se and de se

expressions in which research methods from linguistics and philosophy inform each other The importance of this interdisciplinary perspective on expressing the self cannot be overemphasized Crucially the volume also demonstrates that linguistic research on first person reference makes a valuable contribution to research on the self tout court by exploring the ways in which the self is expressed and thereby adding to the insights gained through philosophy psychology and cognitive science
