It doesn't matter if their business is large or small, old economy or new. In a faster, electronic and more direct economy, every manager needs help. And here it is: The 10 Second Internet Manager offers quick, no-nonsense tips, tactics and strategies for succeeding fast in the Internet age from Mark Breier, an online expert willing to share the practical lessons he learned as an executive on the front lines of the e-commerce wars. The 10 Second Internet Manager will show you how to improve productivity and accelerate growth. You'll learn how to use e-mail to keep everyone connected and when to get up from your desk and go. Have a talk: how to use the Internet to get a quick customer response to your product, your plan or even your business model; how to build teams now and how to make sure they're moving forward instead of just around and how to make effective meetings produce results that contribute to your bottom line. Best of all, Breier offers proven methods for finding, hiring and keeping the best and fastest employees, the ones who can make or break a manager's efforts. And for all those folks who are jumping into the deep end of the pool, launching their own dot-com ventures, Breier even offers advice on the care and feeding of venture capitalists and the joys of 24/7 exhaustion. The One Minute Manager changed the world by showing managers how to get the most out of a minute. But in an Internet speed economy, who has a minute to spare?
