

# MEANINGFUL ACCOUNTABILITY

Accountability is a willingness to accept responsibility when harm happens. Unlike punishment, it cannot be done to another person. To be accountable you must:

**1**

## ACKNOWLEDGE THAT YOU CAUSED HARM

Whatever your intentions were, acknowledge you caused some kind of harm to another person or relationship.

**2**

## ACKNOWLEDGE THAT YOU HAD AGENCY

You are not claiming fault, or malicious intent, only accepting that your decisions led directly or indirectly to the harm.

**3**

## UNDERSTAND THE IMPACT

Be open to hearing others' experiences. In order to take steps toward repair, you need to understand the harm.

**4**

## TAKE STEPS TO REPAIR THE HARM

An apology alone often does not address all of the needs of those who have been harmed. Instead, demonstrate accountability through reparative actions.

**5**

## NOTICE PATTERNS THAT LED TO THE HARM

By considering how the harm came to happen in the first place, you can change your relationship to these patterns.

## **The Accountability Of Conduct:**

**The Accountability of Conduct** G. R. Semin, A. S. R. Manstead, 1983      Documents on the Law of UN Peace Operations Bruce Oswald, Helen Durham, Adrian Bates, 2019 Providing students and those working in the field with a comprehensive overview of the law regulating peace operations this volume sets out the different legal instruments and sources that govern the planning management and conduct of these missions      **Conduct and Accountability** United States. President's Blue Ribbon Commission on Defense Management, 1986      **The Accountability of Civil Servants** Great Britain: Parliament: House of Lords: Select Committee on the Constitution, 2012-11-20 This report expresses concern that proposals in the Government's Civil Service Reform Plan such as allowing ministers to select departmental permanent secretaries from a shortlist and directly to appoint civil servants on fixed term contracts could risk undermining the impartiality of the civil service threaten the principle that appointments are based on merit and make it harder for officials to give honest advice to ministers Ministers remain constitutionally responsible for everything their departments and their civil servants do Ministers should not seek to distance themselves from the actions of civil servants or of special advisers The Committee also addresses the relationship between parliamentary select committees and the civil service The report concludes that select committees should have greater access to advice given to ministers by civil servants and that select committees should be able to call former civil servants to give evidence on projects which they used to work on Other recommendations in the report include that Parliament should in future be given the chance to scrutinise revised editions of the Osmotherly rules which provide guidance to civil servants on dealing with select committees the Osmotherly rules however should not be regarded as anything more than guidance for civil servants when select committees call for specific civil servants to give evidence the Government should normally agree to the request it should be normal practice for a single senior civil servant to oversee major Government projects from start to finish in order to ensure better accountability of such projects      **The Accountability of Armed Groups Under Human Rights Law** Katharine Fortin, 2017 Today the majority of the armed conflicts around the world are fought between States and armed groups rather than between States This changed conflict landscape creates an imperative to clarify the obligations of armed groups under international law While it is generally accepted that armed groups are bound by international humanitarian law the question of whether they are also bound by human rights law is controversial This book brings significant new understanding to the question of whether and when armed groups might be bound by human rights law Its conclusions will benefit international law academics legal practitioners and political scientists and anthropologists working on issues related to rebel governance and civil wars This book addresses the debate on this topic by employing a theoretical historical and comparative analysis that spans international humanitarian law international criminal law and international human rights law Embedding these different perspectives in public international law this book brings several key points of clarification to the legal framework Firstly the

book draws upon social science literature on armed conflict to present a new viewpoint on the role that human rights law plays vis a vis international humanitarian law in non international armed conflicts Secondly the book sheds light on the circumstances in which armed groups acquire obligations under human rights law It brings illumination to these topics by combining historical and comparative research on belligerency insurgency and international humanitarian law with a theoretical analysis of legal personality under international law In the final part of the book the author tests the four most utilised theories of how armed groups are bound by human rights law examining whether armed groups can be bound by virtue of i treaty law ii control of territory iii international criminal law and iv customary international law In the book s conclusions the author presents final remarks that are designed to provide concrete guidance on how the issue of armed groups and human rights law can be dealt with more thoroughly in practice

**Accountability of Peace Support Operations** M.C. Zwanenburg, 2005-05-01 Quis custodiet ipsos custodies In other words who guards the guardians At a time when the mandate of many peace support operations includes halting violations of international humanitarian law by third parties there is still a lack of clarity concerning accountability of peace support operations themselves This book addresses that accountability focusing on peace support operations under the command and control of the United Nations and the North Atlantic Treaty Organization It is concerned with the accountability of international organizations as well as troops contributing and member states but not of individuals Drawing on existing and emerging doctrines of international law including the law of state responsibility the law of responsibility of international organizations international institutional law and international humanitarian law and on the basis of state practice this book makes a strong plea for improving mechanisms to implement the accountability of peace support operations under international humanitarian law The Paul Reuter Prize 2006 was awarded to Marten Zwanenburg for this book

**Investigating the Conduct of Ministers** Great Britain. Parliament. House of Commons. Public Administration Select Committee, 2008 The post of Prime Minister s Independent Adviser on Ministerial Interests was created in March 2006 and extended by the incoming Prime Minister in July 2007 Part of the new Independent Adviser s role is to investigate allegations that the Ministerial Code has been breached This Report considers the suitability of the new mechanism for investigating alleged breaches of the Code The creation of an investigatory capacity is welcomed as an important step However the Committee identifies limitations on the Independent Adviser s powers which cast doubt over the effective ability of any holder of the post to secure public confidence The Independent Adviser should be free to instigate investigations rather than as at present being dependent on being invited to do so by the Prime Minister The Prime Minister should also undertake that findings of investigations into the conduct of ministers will routinely be published Constitutional watchdogs such as this new investigator need to be demonstrably independent of those they regulate The post of Independent Adviser meets none of the criteria associated with independence The holder of the post Sir Philip Mawer has been appointed by the Prime Minister on a non specific term of

office which can be terminated by the Prime Minister at any time and on any grounds He has no staff of his own no office and no budget but relies on the Cabinet Office for all these things There has been no open advertisement process and no parliamentary involvement in the appointment Until these defects are remedied the Committee has difficulty accepting the suggestion that the new investigator can meaningfully be considered to be independent      Reassessing the Articles on the Responsibility of International Organizations Antal Berkes,Richard Collins,Rossana Deplano,2024-10-03 This title contains one or more Open Access chapters This book critically examines the reception and application of the 2011 Articles on the Responsibility of International Organizations ARIO assessing their effectiveness and limitations Adopting a panoptic approach it explores the theory underlying the concept of responsibility for internationally wrongful acts in ARIO through both doctrinal analysis and practical case studies      **Intelligent Governance** Gilles Paquet,Christopher Wilson,2016-06-12 Striking the right fit between resources processes and outcomes in complex environments where different groups have something to contribute towards joint outcomes even though they partake in joint operations in the pursuit of their own objectives This is what intelligent governance is all about It is the practical application of an evolving worldview that is a less conflictive more intelligent more cooperative and a wiser mode of human coordination This short book proposes some guideposts for intelligent governance It does not put forward a rigid blueprint or a recipe that could mechanically and blindly be followed but a prototype for a process of inquiry seeking to help organizations find a way forward through innovation and value adding some general indications about the most toxic pitfalls likely to materialize mental prisons lack of mindfulness etc and comments about the most promising opportunities or initiatives likely to nudge the coordinating inquiries into successful directions      *Ethics and the art of conduct for nurses* Edward Francis Garesché,1929      The OSCE Code of Conduct on Politico-Military Aspects of Security Victor-Yves Ghebali,2005-01-01 A regime for the democratic control of armed forces exists in the OSCE area which stretches from Vancouver to Vladivostok through a Code of Conduct on Politico Military Aspects of Security 1994 This instrument which links civil military relations to human rights and international humanitarian law has no counterpart in other security organizations Intruding into an area of state power hitherto considered a sanctum sanctorum it commits the OSCE member states to a regular exchange of information on the status of the democratic control of their armed forces as well as on such issues as the fight against terrorism and the stationing of troops on foreign soil The book represents an urgently needed reference work on both the contents and the impact of the Code drawing on as yet unpublished materials it offers a paragraph by paragraph commentary on the Code as well as an in depth assessment of implementation trends in the OSCE region      **Financial Conduct Authority** Great Britain: Parliament: House of Commons: Treasury Committee,2012-01-13 This Treasury Committee report into the Financial Conduct Authority FCA contains a number of recommendations for the Government s consideration ahead of the drafting and publication of the Financial Services Bill early in 2012 Among the recommendations are a that the Government should legislate to give the FCA

a primary objective to promote effective competition for the benefit of the consumer in line with the thinking of the Independent Commission on Banking and the Office of Fair Trading b the Government must put competition at the heart of the new regulatory framework c that the FCA develops far more reliable estimates in collaboration with the industry of its own cost effectiveness d that the Government differentiates between retail and wholesale consumers e that both the FCA and the financial services industry make better efforts to communicate with each other f that the current legislative proposals be revised to ensure that the FCA is properly accountable to Parliament and that tools are available to enable the required level of explanation from the regulator
