The Alchemy Of Race And Rights:

The Alchemy of Race and Rights Patricia J. Williams, 1991 Diary of a law professor **The Alchemy of Race and Rights** Patricia J. Williams, 1993 **The Alchemy of Race and Rights** Patricia J. Williams, 1991 **The Routledge Companion to Intersectionalities** Jennifer C. Nash, Samantha Pinto, 2023-02-28 The Routledge Companion to Intersectionalities is a dynamic reference source to the key contemporary analytic in feminist thought intersectionality. Comprising over 50 chapters by a diverse international and interdisciplinary team of contributors the Companion is divided into nine parts: Retracing intersectional genealogies; Intersectional methods and interdisciplinarity; Intersectionality's travels; Intersectional borderwork; Trans intersectionalities; Disability and intersectional embodiment; Intersectional science and data studies; Popular culture at the intersections; Rethinking intersectional justice. This accessibly written collection is essential reading for students, teachers and researchers working in women's and gender studies, sexuality studies, African American studies, sociology, politics and other related subjects from across the humanities and social sciences. **Race, Rights, and Justice** J. Angelo Corlett, 2009-03-03 Race Rights and Justice explores questions of the nature of law and constitutional interpretation, international law and global justice and the nature, function and importance of rights each from a perspective that takes seriously the realities of race and racism. After a critical assessment of various contemporary theories of law is provided, a new theory of legal interpretation is set forth and defended. The respective words of Immanuel Kant and H. L. A. Hart on the possibility and desirability of international law are carefully explicated. Following this, Race Rights and Justice defends John Rawls' Law of Peoples from the cosmopolitan liberal critique of it. The nature and importance of rights, both individual and collective, are clarified while correcting some political philosophies that have propagated confused rhetoric about rights. And the collective right to humanitarian intervention is investigated philosophically in terms of the recent problems in Colombia with surprisingly original results. While the methodology of this book is thoroughly analytical, philosophically speaking, some of the conclusions drawn are substantially original, infusing the facts of race and racism into mainstream matters of philosophy of law. In this collection of essays, J. Angelo Corlett continues his important work of bringing the perspective of indigenous peoples and more generally of race into mainstream philosophical debates about justice and rights. Corlett's book also has very valuable insights into the nature of international law that will greatly enrich our contemporary debates. Larry May, Washington University in St. Louis, USA. Angelo Corlett is a prolific writer whose work is invariably stimulating, provocative and insightful. Race Rights and Justice is an important addition to the oeuvre. Corlett is not afraid to tackle big problems and big names. See for example his scathing criticisms of Bork and Scalia on constitutional interpretation. Burleigh T. Wilkins, University of California, Santa Barbara, USA. **The Madwoman's Reason** Nancy J. Holland, 2010-11 Most people want to be able to make valid moral judgments and to respect the ethical values of other cultural groups. Taking Jean Giraudoux's play THE MADWOMAN OF CHAILLOT as a starting point, philosopher Nancy

Holland draws on the work of Heidegger and Derrida in an effort to find a middle way in ethics between relativism and foundationalism

Race, Law and Hypercriminality Sarah Corbett-Batson, 2025-08-08 This book considers how neoliberal criminal law constructs racialised hypercriminals In a world of fake news and virtual reality where social media posts seem more real than the materiality of racial capitalism this book develops the idea of hypercriminality as a means of explaining how racial disproportionalities in the criminal legal system persist despite discourses of a post racial meritocracy Drawing on critical race theory the work of Judith Butler and Jean Baudrillard's conception of the hyperreal the book considers how neoliberal legal discourse constructs and reproduces hyperreal racialised legal subjects The simulated violent figure of the racialised gang member rioter drug dealer or sexual predator is made to appear real through legal and evidential concepts such as dangerousness or bad character The belief that this simulation is real is deployed to justify the carceral state and masks the structural and racialised violence of capitalism itself Revealing the hypercriminality of racialised legal subjects the book thus offers a timely critical legal intervention that aims to advance the urgent project of decarceration abolition and transformative justice The book will appeal to scholars and students working in the areas of criminal law and evidence criminology criminal justice socio legal studies and critical race theory

New Right Discourse on Race and Sexuality Anna Marie Smith, 1994-11-10 The first book in the Cultural Margins series is a 1994 study of racism and homophobia in British politics which demonstrates the demonisation of blacks lesbians and gays in New Right discourse Anna Marie Smith develops theoretical insights from literary and cultural critics including Nietzsche Foucault Derrida Hall and Gilroy to produce detailed readings of two key moments in New Right discourse the speeches of Enoch Powell on black immigration 1968 72 and the legislative campaign of the late 1980s to prohibit the promotion of homosexuality Her analysis challenges the silence on racism and homophobia in previous studies of Thatcherism and the New Right and shows how demonisation of lesbians and gays depends on previous demonisations of black immigrant and criminal figures Overall this book offers a devastating critique of racism and homophobia in late twentieth century Britain

Sex, Race, and Merit Faye J. Crosby, Cheryl VanDeVeer, 2000 Traces the history of this divisive national issue as reflected in the writings of key opinion makers and in public documents

Critical Rhetorics of Race Kent A. Ono, 2011-07-11 According to many pundits and cultural commentators the U S is enjoying a post racial age thanks in part to Barack Obama's rise to the presidency This high gloss of optimism fails however to recognize that racism remains ever present and alive spread by channels of media and circulated even in colloquial speech in ways that can be difficult to analyze In this groundbreaking collection edited by Michael G Lacy and Kent A Ono scholars seek to examine this complicated and contradictory terrain while moving the field of communication in a more intellectually productive direction An outstanding group of contributors from a range of academic backgrounds challenges traditional definitions and applications of rhetoric From the troubling media representations of black looters after Hurricane Katrina and rhetoric in news coverage about the Columbine and Virginia Tech massacres to cinematic

representations of race in Crash Blood Diamond and Quentin Tarantino's films these essays reveal complex intersections and constructions of racialized bodies and discourses critiquing race in innovative and exciting ways Critical Rhetorics of Race seeks not only to understand and navigate a world fraught with racism but to change it one word at a time Race and Ethnicity Amy Elizabeth Ansell, 2013 Situating the study of race and ethnicity within its historical and intellectual context this much needed guide exposes students to the broad diversity of scholarship within the field It provides a clear and succinct explanation of more than 70 key terms their conceptual evolution over time and the differing ways in which the concepts are deployed or remain pertinent in current debates Concepts covered include apartheid colonialism constructivism critical race theory eugenics hybridity Islamophobia new modern racism reparations transnationalism Fully cross referenced and with suggestions for further reading Race and Ethnicity The Key Concepts is an ideal resource for undergraduate and postgraduate students of race ethnicity and nationalism It will also be of great interest for those studying sociology anthropology politics and cultural studies Care for the Mental and Spiritual Health of Black Men Nicholas Grier, 2019-11-01 Black men need hope to survive and ultimately flourish As mental health is a critical but often neglected issue especially among Black men Care for the Mental and Spiritual Health of Black Men examines that sensitive topic in conjunction with reflections on race gender sexuality and class to offer a hopeful and constructive framework for care and counseling particularly for Black men These are not separate from spiritual health and growth as well but both are integral to holistic dynamic wellbeing In this the author provides a careful and critical analysis of spiritual hope and healing as ingredient to individual and communal flourishing As such this volume will be a vital resource for health practitioners spiritual caregivers and providers in community care who serve to bolster the mental wellbeing of Black men *Governing Hate and Race in the United States and South Africa* Patrick Lynn Rivers, 2008-08-20 In this book Patrick Lynn Rivers asserts that states govern racist hate by governing racial constructs Rivers maintains that state practices used to govern hate and race in both the United States and South Africa do not make citizens safer even as the United States markets itself as a melting pot of cultures and South Africa touts its status as the new multicultural city on a hill In effect the regulatory practices of the neoliberal state aid in the redirection of responsibility for the eradication of racist hate away from the nation and toward the hated leaving unaddressed the systemic causes of hate In line with emerging scholarship on hate but also taking advantage of the perspective that comparative analysis makes possible Rivers advocates a particular brand of progressive activism for a socially engaged state and citizenry where race is central and racism is not anomalous

Women's Legal Strategies in Canada Radha Jhappan, 2002-01-01 Have Canadian women gained from their pursuit of legal remedies to social political economic and cultural inequalities Is law a fruitful avenue for such struggles Using liberal feminist postmodern critical race and queer theory these essays confront the anti rights critiques of the legal Left regarding the use of law in general and the Charter in particular Several chapters explicitly examine the strategic limits and

possibilities of the substantive equality rights approaches pursued by LEAF The Women's Legal Education and Action Fund Others focus on legal strategies mobilized in discreet areas of law and public policy by foreign domestic workers and racialized women lesbians women seeking reproductive freedom women in the childcare movement and anti violence advocates Recognizing the diversity of women across class citizenship race and ethnicity sexual identity culture and disability this collection evaluates the efficacy of the wide range of legal and political strategies women have employed particularly in this post Charter era Women's Legal Strategies in Canada is the most comprehensive account of these important issues and will surely become the standard work in the field

Race, Romanticism, and the Atlantic Paul Youngquist, 2016-05-23 In highlighting the crucial contributions of diasporic people to British cultural production this important collection defamiliarizes prevailing descriptions of Romanticism as the expression of a national character or culture The contributors approach the period from the perspective of the Atlantic maritime economy making a strong case for viewing British Romanticism as the effect of myriad economic and cultural exchanges occurring throughout a circum Atlantic world driven by an insatiable hunger for sugar and slaves Typically taken for granted the material contributions of slaves sailors and servants shaped Romanticism both in spite of and because of the severe conditions they experienced throughout the Atlantic world The essays range from Sierra Leone to Jamaica to Nova Scotia to the metropole examining not only the desperate circumstances of diasporic peoples but also the extraordinary force of their creativity and resistance Of particular importance is the emergence of race as a category of identity class and containment *Race Romanticism and the Atlantic* explores that process both economically and theoretically showing how race ensures the persistence of servitude after abolition At the same time the collection never loses sight of the extraordinary contributions diasporic peoples made to British culture during the Romantic era

Race, Place, and the Law, 1836-1948 David Delaney, 2010-06-28 Black and white Americans have occupied separate spaces since the days of the big house and the quarters But the segregation and racialization of American society was not a natural phenomenon that just happened The decisions enacted into laws that kept the races apart and restricted blacks to less desirable places sprang from legal reasoning which argued that segregated spaces were right reasonable and preferable to other arrangements In this book David Delaney explores the historical intersections of race place and the law Drawing on court cases spanning more than a century he examines the moves and countermoves of attorneys and judges who participated in the geopolitics of slavery and emancipation in the development of Jim Crow segregation which effectively created apartheid laws in many cities and in debates over the doctrine of changed conditions which challenged the legality of restrictive covenants and private contracts designed to exclude people of color from white neighborhoods This historical investigation yields new insights into the patterns of segregation that persist in American society today

Radical Critiques of the Law Stephen M. Griffin, Robert C. L. Moffat, 1997 The past two decades have seen an outpouring of work in legal theory that is self consciously critical of aspects of American law and the

institutions of the liberal state In this lively volume eminent scholars in philosophy law and political science respond to this recent scholarship by exploring what constitutes a radical critique of the law examining such theories as critical legal studies feminist theory and theories of difference and critical race theory The authors consider whether the critiques advanced in recent legal theory can truly be called radical and what form a radical critique of American law should take Writing at the cutting edge of the critique of critical legal theory they offer insights first on critical legal scholarship then on feminist political and legal theory A third group of contributions questions the radicalness of these approaches in light of their failure to challenge fundamental aspects of liberalism while a final section focuses on current issues of legal reform through critical views on criminal punishment including observations on rape and hate speech Each major essay describes the underlying principles in the development of a radical legal theory and addresses unresolved questions relating to it while accompanying commentaries present conflicting views The resulting dialogue explores wide ranging issues like equity value relativism adversarial and empathic legal advocacy communitarianism and the social contract impartiality and contingency natural law and corrective justice A common thread for many of the articles is a focus on the social dimension of society and law which finds the individualism of prevailing liberal theories too limiting *Radical Critiques of the Law* is particularly unique in presenting critical and feminist approaches in one volume along with skeptical commentary about just how radical some critiques really are Proposing alternative critiques that embody considerably greater promise of being truly radical it offers provocative reading for both philosophers and legal scholars by showing that many claims to radicalism are highly problematic at best

Race, Nature, and the Politics of Difference Donald S. Moore, Jake Kosek, Anand Pandian, 2003-05-20 A collection of essays that show the interdependence of concepts of race and nature

Race, Crime, and the Law Randall Kennedy, 2012-02-22 An admirable courageous and meticulously fair and honest book New York Times Book Review in which one of our most important and perceptive writers on race The Washington Post takes on a highly complex issue in a way that no one has before This book should be a standard for all law students Boston Globe In this groundbreaking powerfully reasoned lucid work that is certain to provoke controversy Harvard law professor Randall Kennedy takes on a highly complex issue in a way that no one has before Kennedy uncovers the long standing failure of the justice system to protect blacks from criminals probing allegations that blacks are victimized on a widespread basis by racially discriminatory prosecutions and punishments but he also engages the debate over the wisdom and legality of using racial criteria in jury selection He analyzes the responses of the legal system to accusations that appeals to racial prejudice have rendered trials unfair and examines the idea that under certain circumstances members of one race are statistically more likely to be involved in crime than members of another
