The Ambiguous Embrace:

The Ambiguous Embrace Charles Leslie Glenn, 2000 This is a time of far reaching change and debate in American education and social policy spurred in part by a rediscovery that civil society institutions are often better than government at meeting human needs As Charles Glenn shows in this book faith based schools and social agencies have been particularly effective especially in meeting the needs of the most vulnerable However many oppose providing public funds for religious institutions either on the grounds that it would threaten the constitutional separation of church and state or from concern it might dilute or secularize the distinctive character of the institutions themselves Glenn tackles these arguments head on He builds a uniquely comprehensive and persuasive case for faith based organizations playing a far more active role in American schools and social agencies And most importantly he shows that they could do so both while receiving public funds and while striking a workable balance between accountability and autonomy Glenn is ideally placed to make this argument A leading expert on international education policies he was for many years the director of urban education and civil rights for the Massachusetts Department of Education and also serves as an Associate Minister of inner city churches in Boston Glenn draws on all his varied experience here as he reviews the policies and practices of governments in the United States and Europe as they have worked with faith based schools and also with such social agencies as the Salvation Army and Teen Challenge He seeks to answer key theoretical and practical questions Why should government make greater use of faith based providers How could they do so without violating First Amendment limits What working relationships protect the goals and standards both of government and of the organizations that the government funds Glenn shows that with appropriate forms of accountability and a strong commitment to a distinctive vision of service faith based organizations can collaborate safely with government to their mutual benefit and that of those they serve This is a major contribution to one of the most important topics in political and social debate today

Amitav Ghosh's The Shadow Lines : A critical Anthology Sandip Ain,2011 **Declamation, Paternity, and Roman Identity** Erik Gunderson,2003-06-19 This book explores the much maligned and misunderstood genre of declamation Instead of a bastard rhetoric declamation should be seen as a venue within which the rhetoric of the legitimate self is constructed These fictions of the self are uncannily real and these stagey dramas are in fact rehearsals for the serious play of Roman identity Critics of declamation find themselves recapitulating the very logic of the genre they are refusing When declamation is read in the light of the contemporary theory of the subject a wholly different picture emerges this is a canny game played with and within the rhetoric of the self This book makes broad claims for what is often seen as a narrow topic An appendix includes a fresh translation and brief discussion of a sample of surviving examples of declamation *Researching Catholic Education* Sean Whittle,2018-01-25 This book presents a range of perspectives on the current state of Catholic education in the opening decades of the twenty first century All of the chapters have their origin in an International Conference on Catholic Education held at Heythrop College University of London in September 2016 The book brings together many leading scholars to present a survey of the latest research on Catholic education in areas such as the aims of Catholic education Catholic schools and Catholic identity leadership issues in Catholic schools and fresh thinking about the place of Religious Education RE in Catholic Education This book demonstrates how the field of Catholic Education Studies has firmly come of age Rather than being a subfield of educational or theological discourse it is now an established field of research and study As such the book invites readers to engage with much of the new thinking on Catholic education that has grown rapidly in recent years It offers a broad range of contemporary perspectives on research in Catholic Education and rich insights into current thinking about Catholic Education The Guide to Reflective Practice in Conflict Resolution Michael Lang,2024-08-22 This book is a commonsense guide to becoming a reflective practitioner written by a practitioner for practitioners This second edition is fully revised and updated incorporating extensive new material emphasizing hands on tools worksheets and guides along with practical advice for those interested in adopting reflective practice individually or in a group setting It also provides useful resources step by step instructions and more case studies and commentaries from practitioners Every person in a conflict resolution process sees the world differently and acts in a distinctive manner Yet by following well developed practice routines practitioners often fail to consider the unpredictability of human interactions and overlook behaviors that are inconsistent with their expectations To respond effectively to surprising and unpredictable events

Ephraim Radner, Hosean Wilderness, and the Church in the Post-Christendom West Amy J. Erickson, 2020-03-23 Ephraim Radner Hosean Wilderness and the Church in the Post Christendom West offers the first monograph length treatment of the compelling and perplexing contemporary Anglican theologian Ephraim Radner While unravelling his distinctive approach to biblical hermeneutics and ecclesiology it queries the state of today s secularized church through a theological interpretation of an equally enigmatic writer the prophet Hosea It concludes that an eschatological posture of waiting and a heuristic of poesis should dictate the church s shape for an era in which God is stripping the church of its foregoing institutional forms Literary Twinship from Shakespeare to the Age of Cloning Wieland Schwanebeck, 2020-01-06 Unlike previous efforts that have only addressed literary twinship as a footnote to the doppelganger motif this book makes a case for the complexity of literary twinship across the literary spectrum Shortlisted for the ESSE Book Award 2022 Literatures in the English Language it shows how twins have been instrumental to the formation

of comedies of mistaken identity the detective genre and dystopian science fiction The individual chapters trace the development of the category of twinship over time demonstrating how the twin was repeatedly re invented as a cultural and pathological type when other discursive fields constituted themselves and how its literary treatment served as the battleground for ideological disputes by setting the stage for debates regarding kinship and reproduction or by partaking in discussions of criminality eugenic greatness and monstrous births The book addresses nearly 100 primary texts including works of Mary Elizabeth Braddon Wilkie Collins Charles Dickens Arthur Conan Doyle Aldous Huxley Christopher Priest William Shakespeare and Zadie Smith

In the Embrace of God Ann O. Graff, 2005-01-26 Since Karl Rahner posited the importance of the nature of the human as the starting point for theological reflection the field of Christian anthropology has been one where very basic questions and much creative theologizing have been focused For example liberation theologians have had much to say about the presumptions inherent in classical definitions of human being and have pointed up the vital idea of social location as an integral part of human experience Theological anthropology has come to be of vital interest to Christian feminists as well As in other disciplines the study of what is human tends to either ignore gender or to favor one as normative In the quest to understand the totality of human experience it is necessary to view it from lived experience At the same time and deeply embedded in the Christian tradition is the recognition that human beings come from God are going to God and dwell in the embrace of God In the Embrace of God provides a well organized clearly focused volume of original essays by North American feminist theologians encompassing the major areas of theological anthropology In addressing the meaning of creation and end time fall and redemption sin and grace pain and suffering sexuality and ecology these contributors offer fresh insights and helpful new ways to approach the rich complexities of human experience
