Ambiguity and Film Criticism Hoi Lun Law, 2021-02-02 This book defends an account of ambiguity which illuminates the aesthetic possibilities of film and the nature of film criticism Ambiguity typically describes the condition of multiple meanings But we can find multiple meanings in what appears unambiguous to us So what makes ambiguity ambiguous This study argues that a sense of uncertainty is vital to the concept Ambiguity is what presses us to inquire into our puzzlement over a movie to persistently ask why is it as it is Notably this account of the concept is also an account of its criticism It recognises that a satisfying assessment of what is ambiguous involves both our reason and doubt that is reason and doubt can work together in our practice of reading This book then considers ambiguity as a form of reasonable doubt one that invites us to reflect on our critical efforts rethinking the operation of film criticism World Cinema W. John Hill, Pamela Church Gibson, Richard Dyer, E. Ann Kaplan, Paul Willemsen, 2000 The contributors supply skilful overviews of the major critical approaches Sight and Sound May 1998 international coverage ranges from pre 1930s Europe to contemporary Bollywood musicals first class range of contributors from North America Europe Australia and Asia many chapters specially commissioned emphasis throughout on critical concepts methods and debates learning aids include chapter summaries critiques of individual films and further reading This text is an ideal course companion for undergraduate students studying film media studies cultural studies and literary theory It is especially relevant to 2nd and 3rd year students taking options in World cinema European cinema and the impact of changing technologies

Twenty-One Landmark European Films 1939-1999 Bert Cardullo, 2015-04-01 The essays in this insightful film analysis text show cover twenty one of the best European films made between the coming of World War II and the end of the twentieth century showing what makes each of them outstanding These essays are clear and readable that is sophisticated and meaty yet not overly technical or jargon heavy They will make perfect introductions to their respective films as well as important contributions to the field of film studies in general Written with university students in mind these essays cover some of the central films treated and central issues raised in today's cinema courses and provide students with practical models to help them improve their own writing and analytical skills A list of questions for discussion is included to trigger further thinking among film buffs and to help educators prepare for class The book is aimed at students teachers and cinephiles with an interest in European cinema in

particular and cinema studies in general as well as at those educated readers with an interest in the practice of film analysis and criticism The only competition comes from Stanley Kauffmann's relatively brief *Ten Great Films* 136 pp 2012 The current work offers twenty one illustrated essays Kauffmann's book contains no images and focuses on Europe The countries represented are France Italy England Hungary Belgium Sweden Scotland Denmark Russia Spain Germany Scotland and Finland Twenty One Landmark European Films 1939 1999 overlaps with Kauffmann's book only in the case of *L'avventura* though the two approach this film from vastly different angles Moreover the book provides a complete critical apparatus notes bibliographies credits and filmographies whereas Kauffmann's has none This book could be one of the primary texts for courses in film analysis to accompany a work like Timothy Corrigan's *A Short Guide to Writing about Film* 8th edition 2011 It would also be a suitable supplementary or secondary text in such courses as Introduction to Film or Film Appreciation Western European Cinema History of Film or Global Cinema and Film Directors or Film Style and Imagination

Defining Cult Movies Mark Jancovich, 2003-11-08 This collection concentrates on the analysis of cult movies how they are defined who defines them and the cultural politics of these definitions The definition of the cult movie relies on a sense of its distinction from the mainstream or ordinary This also raises issues about the perception of it as an oppositional form of cinema and of its strained relationships to processes of institutionalization and classification In other words cult movie fandom has often presented itself as being in opposition to the academy commercial film industries and the media more generally but has been far more dependent on these forms than it has usually been willing to admit The international roster of essayists range over the full and entertaining gamut of cult films from Dario Argento Spanish horror and Peter Jackson's New Zealand gore-fests to sexploitation kung fu and sci fi flicks
