Lundy,2018-02-26 The relationship between religion and conflict has generated considerable academic and political debate Although the majority of religions and spiritual traditions are replete with wisdom that propagates a broader unity among human beings these same examples have been used to legitimize hatred and fear While some studies claim that religion facilitates peacebuilding reconciliation and healing others argue that religion exacerbates hostility instigates vengeance seeking behaviors and heightens conflict But religion does not act by itself human beings are responsible for acts of peace or conflict of division or reconciliation in the name of religion This book addresses these rather complex issues from the perspective of reconciliation or atonement to advance both the frontiers of knowledge and the global search for alternative paths to peace The contributions in the volume focus in three areas 1 Reconciling Religious Conflicts 2 Reconciling Conflict through Religion and 3 Religious Reconciliations In each of these sections scholars practitioners and religious leaders address specific examples that highlight the complex intersections of religious practices with global conflict and reconciliation efforts This informative and provocative book is relevant for students and faculty in peace and conflict studies religious studies humanities social sciences and provides insights useful to practitioners and professionals working in peacebuilding and international development seeking to promote effective resolution and reconciliation efforts
