Small Communal Experiments And Why They Fail:

Small Communal Experiments and Why They Fail Peter Kropotkin, 2001-12-01 Is there not work enough in each land for every one who wishes to work for the modification of the atrocious conditions of the present time Is there not at hand enough opportunities for exercising the spirit of Solidarity which inspires the Communist **Anthropology, Ecology, and Anarchism** Brian Morris, 2015-01-01 Over the course of a long career Brian Morris has created an impressive body of engaging and insightful writings from social anthropology and ethnography to politics history and philosophy that have made these subjects accessible to the layperson without sacrificing analytical rigor But until now the essays collected here originally published in obscure journals and political magazines have been largely unavailable to the broad readership to which they are so naturally suited The opposite of arcane specialized writing Morris s work takes an interdisciplinary approach that moves seamlessly among topics offering up coherent and practical connections between his various scholarly interests and his deeply held commitment to anarchist politics and thought Approached in this way anthropology and ecology are largely untapped veins whose relevance for anarchism and other traditions of social thought have only recently begun to be explored and debated But there is a long history of anarchist writers drawing upon works in those related fields Morris s essays both explore past connections and suggest ways that broad currents of anarchist thought will have new and ever emerging relevance for anthropology and many other ways of understanding social relationships His writings avoid the constraints of dogma and reach across an impressive array of topics to give readers a lucid orientation within these traditions and point to new ways to confront common challenges **Kropotkin** Brian Morris, 2018-06-01 The nineteenth century witnessed the growth of anarchist literature which advocated a society based on voluntary cooperation without government authority Although his classical writings on mutual aid and the philosophy of anarchism are still published today Peter Kropotkin remains a neglected figure A talented geographer and a revolutionary socialist Kropotkin was one of the most important theoreticians of the anarchist movement In Kropotkin The Politics of Community Brian Morris reaffirms with an attitude of critical sympathy the contemporary relevance of Kropotkin as a political and moral philosopher and as a pioneering social ecologist Well researched and wide ranging this volume not only presents an important contribution to the history of anarchism both as a political tradition and as a social movement but also offers insightful reflections on contemporary debates in political theory and ecological thought After a short biographical note the book analyzes in four parts Kropotkin s writings on anarchist communism agrarian socialism and integral education modern science and evolutionary theory the French Revolution and the modern state and possessive individualism terror and war Standing as a comprehensive and engaging introduction to anarchism social ecology and the philosophy of evolutionary holism Kropotkin is written in a straightforward manner that will appeal to those interested in social anarchism and in alternatives to neoliberal doctrines Visions of Freedom Morris Brian Morris, 2019-10-15 Every ten years notoriously eclectic thinker Brian Morris

takes a year of sabbatical and launches out into another field about which he knows nothing In the 1980s it was botany in the 1990s zoology in the 2000s entomology The quintessential polymath Morris has written on his incredible breadth of interests in wide ranging essays with subjects ranging from boxing to deep ecology to new age gurus Collected here for the first time Visions of Freedom brings together all of Morris's concise yet diverse essays on politics history and ecology written since 1989 It includes book reviews letters and articles in the engaging and accessible style for which Morris is known The thinkers he deals with are as diverse as Thomas Paine to C L R James from Karl Marx to Krishnamurti from Max Weber to Naomi Klein He also delves into the canon of classic anarchist thinkers like Kropotkin Bakunin Reclus Proudhon and Flores Magnon Taking a stance against the obscurantism of contemporary academic discourse Morris's writings demonstrate an interdisciplinary approach that moves seamlessly between topics developing practical connections between scholarly debates and the pressing social ecological and political issues of our times

Organizations as Complex Systems Maurice Yolles, 2006-09-01 Managing the Complex is an ambitious title and it would be an audacious one if we were not to begin with a frank admission to date few to none of us have a skill set which includes managing the complex We try various things we write about others and we wonder about still others When a tool perspective or technique comes along which seems to evoke success we emulate it probe it and recoil at the all too often admission that it was situation and context which afforded success its opportunity and not some quality intrinsic to the tool perspective or technique Indeed if the study of complexity has done anything for managers and for those who espouse managerial theory it is in providing a scientific foundation for the notion that context matters Those who preach abstract ideas have then to reconcile themselves to the notion that situation and embodiment matters Those who believe in strong causality and determinism are left to wrestle with the role of chance uncertainty and chaos Those who prefer to argue that men move history are confronted with the role of environment and affordances while those who argue the reverse are left to contend with charisma irrationality of crowds and the strange qualities we know as emotions A series on complex systems has less ambitious goals to contend with than this Such a series can deal with classifications and categories and speak of noise as if it were not the central focus of the problem Managing the complex is about managing noise or perhaps we should say it is about dealing with accepting making room for and learning from noise The articles in this volume and in volumes to come will each be considered as noise by some and as gems by others but we hope that practicing managers and academics alike will find plenty of fuel to drive their personal explorations into understanding and perhaps even managing the complex

Anomalistic History Denman Collins, 2011-02 A re-examination of historical interpretations

Ethics In An Age Of Pervasive Technology Melvin Kranzberg, 2019-04-05 Grappling with the moral dimensions of the ways in which technology is applied in today's world some of the keenest minds of our time raise and attempt to answer four major questions Do our current problems represent a new element in human affairs or are they merely a continuation of past problems altered

somewhat by the pervasiveness of technology **Mental Health Research Institute Staff Publications** University of Michigan. Mental Health Research Institute, 1973 *Introduction to Sustainable Development - Volume I* David V. J. Bell, Yuk-kuen Annie Cheung, 2009-06-16 Introduction to Sustainable Development is a component of Encyclopedia of Development and Economic Sciences in the global Encyclopedia of Life Support Systems EOLSS which is an integrated compendium of twenty one Encyclopedias The Theme on Introduction to Sustainable Development implies processes of fundamental change in our social systems and institutions The thrust of this change entails addressing the new global awareness that the earth is finite and all of the planet's life support systems including social and economic systems are globally interconnected and interdependent This volume is aimed at the following five major target audiences University and College students Educators Professional practitioners Research personnel and Policy analysts managers and decision makers and NGOs

Topografías Invisibles. Estrategias críticas entre Arte y Geografía Teresa Blanch, 2016-02-08 Este libro reflexiona acerca de las nuevas consideraciones geográficas desarrolladas recientemente por las prácticas artísticas frente a las múltiples problemáticas territoriales invisibilizadas por la economía del poder capitalista En l se da voz a artistas geógrafos arquitectos e historiadores procedentes de distintos puntos de Europa que explican y analizan el creciente marco de experiencias iniciadas en la escena artística contemporánea Todos coinciden en señalar la importancia de lo que se oculta tras la geopolítica actual y también la necesidad de abrir nuevas perspectivas al hecho histórico utilitario y simbólico que define los lugares El conjunto de estudios que aquí se recopilan pone de manifiesto cómo el arte desde sus posiciones practicadas en contextos urbanos y naturales se ha implicado en la reinterpretación transgresiva e incluso transformación de los usos y las imágenes del territorio Estos nuevos enfoques artísticos sin duda generan nuevos conocimientos en torno al paisaje social cultural y físico de nuestra era global

Social Change and Human Behavior George V. Coelho, Eli Abraham Rubinstein, Elinor Stillman, 1972 Edited papers of the NIMH staff seminars on social change and human behavior *The Utopian Alternative* Carl J. Guarneri, 2018-07-05 The utopian socialism of Charles Fourier spread throughout Europe in the mid nineteenth century but it was in the United States that it generated the most intense excitement In this rich and engaging narrative Carl J Guarneri traces the American Fourierist movement from its roots in the religious social and economic upheavals of the 1830s through its bold communal experiments of the 1840s to its lingering twilight after the Civil War

Political Ideologies Leon P. Baradat, John A. Phillips, 2019-11-25 Comprehensive yet accessible this classic text now in its thirteenth edition follows the evolution of political thought over 300 years Organized chronologically this text examines each ideology within a political historical economic and social context In addition to a thorough updating of examples and data here's what you'll find in the new edition Analyses of President Trump's rollback of Obamacare trade war with China and changes to immigration taxation and environmental policy Conservative justifications for supply side economics and liberal rationale for drug legalization and trigger word bans Brexit's effects on the Scottish independence movement

Resurgence of feminist protest including the Me Too movement alongside anarchist protest following Trump's election including groups like Black Bloc and Antifa China's rising environmental and social problems including unrest among its heavily controlled Uighur population Cuba's transfer of power from the Castros to President Díaz Canel and their fraught rapprochement with the U.S. Russia's disinformation campaigns and alternating brinksmanship and détente between Trump and North Korea's Chairman Kim Jong-un The ascent of the Alt-right in the U.S. and white supremacist influence on parties in the U.S. and Europe The continuing salience of Islamism the teetering Iran deal and ongoing degeneration of the Arab Spring to the Islamist Winter

Rethinking Democracy for Post-Utopian Worlds Jorge León Casero, Julia Urabayen, 2024-06-06

This book is both a conceptualization and detailed analysis of the current crisis in which modern utopian categories of political institutions find themselves as well as a reflection and clarification of the new dangers and opportunities facing post-utopian politics in the making. Met with those who believe that no more utopian political projects are possible, the post-utopian movement maintains a non-fantastic or illusory character of being able to apply new great discourses and radically democratic historical narratives while respecting both the autonomy and emancipation of individuals as plurality and the socio-cultural differences of communities. With this purpose in mind, the book is divided into five thematically differentiated sections: the new utopian categories beyond modern epistemes, the possibility of liberal utopian democracies without neoliberalism, the opportunities of socialist empowerments and insurgencies, the necessity of thinking in the space between two ages, and the urgency to create eco-political post-utopias.

The American Experiment James MacGregor

Burns, 2013-05-21 The Pulitzer Prize-winning author's stunning trilogy of American history spanning the birth of the Constitution to the final days of the Cold War. In these three volumes, Pulitzer Prize and National Book Award winner James MacGregor Burns chronicles with depth and narrative panache the most significant cultural, economic, and political events of American history. In *The Vineyard of Liberty*, he combines the color and texture of early American life with meticulous scholarship. Focusing on the tensions leading up to the Civil War, Burns brilliantly shows how Americans became divided over the meaning of Liberty. In *The Workshop of Democracy*, Burns explores more than a half-century of dramatic growth and transformation of the American landscape through the addition of dozens of new states, the shattering tragedy of the First World War, the explosion of industry, and in the end, the emergence of the United States as a new global power. And in *The Crosswinds of Freedom*, Burns offers an articulate and incisive examination of the U.S. during its rise to become the world's sole superpower through the Great Depression, the Second World War, the Cold War, and the rapid pace of technological change that gave rise to the American Century.

The Communal Idea in the 21st Century, 2012-09-28 The idea of a better society as associated with the communal idea is investigated from both theoretical perspectives and through contemporary experiences around the world. This idea leaves nobody indifferent. Whatever the hardship that its concretization implies, however, once it does materialize, it cannot as such avoid new challenges, tensions, and unexpected claims. This means at

varying degrees negations of and removals from the utopian inspiration Humans are able to create unprecedented conditions of life under most ambitious inspirations but are unable to safeguard their achievements from change alterations and contradictions In this however another aspect of the utopian realizations is that they ultimately leave room for new utopist thinking and enrolment As far indeed the utopian inspiration draws its vitality from potent civilizational codes its renewal from ashes is as unavoidable as its self betrayal through materialization Contributors included Eliezer Ben Rafael Rami Degany Amitai Etzioni Maria F lling Albers Yiftah Goldman Ruth Kark Yossi Katz John Lehr Graham Meltzer Bill Metcalf Timothy Miller Yaacov Oved Michal Palgi Donald E Pitzer Shulamit Reinharz Lyman Tower Sargent Gy rgy Sz ll Menachem Topel Katherine Trebeck and Chris Warhurst

Robert Owen, Prophet of the Poor Sidney Pollard, John Salt, 1971 Why has Robert Owen continued to occupy the attention of historians in the twentieth century What changing significance has been seen in his work What was his relationship with the great social and political movements of his age To what extent was the Owenite message of importance outside Great Britain These and other questions are taken up in this study

Utopia and Utopianism in the Contemporary Chinese Context David Der-wei Wang, Angela Ki Che Leung, Zhang Yinde, 2020-04-05 Utopia and Utopianism in the Contemporary Chinese Context Texts Ideas Spaces decisively demonstrates the extent to which utopianism has shaped political thought cultural imaginaries and social engagement after it was introduced into the Chinese context in the nineteenth century In fact pursuit of utopia has often led to action such as the Chinese Revolution and the Umbrella Movement and contested consequences Covering a time span that goes from the late Qing to our days the authors show that few ideas have been as influencing as utopia which has compellingly shaped the imaginaries that underpin China s historical change Utopianism contributed to the formation of the Chinese state itself shaping the thought of key figures of the late Qing and early Republican eras such as Kang Youwei and Sun Yat sen and outlived the labyrinthine debates of the second half of the twentieth century both under Mao s rule and during the post socialist era Even in the current times of dystopian narratives a period in which utopia seems to be less influential than in the past its manifestations persistently provide lifelines against fatalism or cynicism This collection shows how profoundly utopian ideas have nurtured both the thought of crucial figures during these historical times the new generation of mainland Chinese and Sinophone intellectuals and the hopes of twenty first century Hong Kong activists Wang Leung and Zhang s collection is a timely contribution to utopian studies built on consistent coherent boundary crossing approaches Interdisciplinary in its very sense the essays bring intellectual history literary studies philosophy and political theories together in dialogue Of particular note are the essays that situate Hong Kong in a literary tradition that connects China Hong Kong and the beyond Mingwei Song Wellesley College Utopia and Utopianism in the Contemporary Chinese Context is an impressive intellectual undertaking The essays are highly engaging and offer powerful multi faceted approaches to utopianism in contemporary Chinese thought and practice Stimulating and informative the book as a whole addresses the

dynamic interplay between the utopian and dystopian thereby inspiring clarity in political thought and action in the present moment Robin Visser University of North Carolina at Chapel Hill Carl Sagan's Cosmic Connection Carl Sagan, 2000-08-31
