The Smoking Gun Eve K. Sandstrom,2002 The Smoking Gun Gerry Spence,2008 **The American Political Scandal** David R. Dewberry,2015-08-13 In this holistic examination of political scandal in the United States David Dewberry argues convincingly that such scandals follow a consistent narrative centered largely on media coverage and politician performance rather than the actual corruption or ethics violation committed In making this argument he also provides an analytical framework for understanding the patterns underlying scandals regardless of their unique political contexts Dewberry dissects four major examples Teapot Dome Watergate Iran Contra and Clinton Lewinsky and explores the roles of various constituencies involved in creating reacting to and mediating the scandal What is the true role of journalism within the context of scandal What persuasive techniques do politicians employ to develop and perpetuate scandals What motives and values bring scandals to a close In addition to the core cases Dewberry incorporates briefer examples from contemporary and ongoing controversies including Anthony Weiner s sexting scandal money and sex in Congress how cover ups have gone digital and Chris Christie s Bridgegate The result is a fascinating and thoughtful look at the relationships among political discourse free speech and democracy **AN INVENTED LIFE The Smoking Gun** Alan Amron,2021-12-24 An

Smoking Gun Jeremy Agnew,2010 Interpreting Figurative Meaning Raymond W. Gibbs, Jr,Herbert L. Colston,2012-04-16

Interpreting Figurative Meaning critically evaluates the recent empirical work from psycholinguistics and neuroscience examining the successes and difficulties associated with interpreting figurative language There is now a huge often contradictory literature on how people understand figures of speech Gibbs and Colston argue that there may not be a single theory or model that adequately explains both the processes and products of figurative meaning experience Experimental research may ultimately be unable to simply adjudicate between current models in psychology linguistics and philosophy of how figurative meaning is interpreted Alternatively the authors advance a broad theoretical framework motivated by ideas from dynamical systems theory that describes the multiple interacting influences which shape people s experiences of figurative meaning in discourse This book details past research

and theory offers a critical assessment of this work and sets the stage for a new vision of figurative experience in human life

The Quality of the Archaeological Record Charles Perreault, 2019-09-16 Paleobiology struggled for decades to influence our understanding of evolution and the history of life because it was stymied by a focus on microevolution and an incredibly patchy fossil record But in the 1970s the field took a radical turn as paleobiologists began to investigate processes that could only be recognized in the fossil record across larger scales of time and space That turn led to a new wave of macroevolutionary investigations novel insights into the evolution of species and a growing prominence for the field among the biological sciences In *The Quality of the Archaeological Record* Charles Perreault shows that archaeology not only faces a parallel problem but may also find a model in the rise of paleobiology for a shift in the science and theory of the field To get there he proposes a more macroscale approach to making sense of the archaeological record an approach that reveals patterns and processes not visible within the span of a human lifetime but rather across an observation window thousands of years long and thousands of kilometers wide Just as with the fossil record the archaeological record has the scope necessary to detect macroscale cultural phenomena because it can provide samples that are large enough to cancel out the noise generated by micro scale events By recalibrating their research to the quality of the archaeological record and developing a true macroarchaeology program Perreault argues archaeologists can finally unleash the full contributive value of their discipline End Times Alexander Cockburn, Jeffrey St. Clair, 2007 Muckrakers pronounce corporate journalism dead Read
