Textual Relations In Quran Relevance Coherence And Structure:

Textual Relations in the Qur'an Salwa M. El-Awa, 2006-06-19 Representing a new development in the study of Qur'anic text this book tackles the issue of Qur'anic text structure by fusing the fields of linguistics and Qur'anic studies The Qur'an contains many long suras covering diverse topics but with no apparent common context within which such variety can be explained This book proposes a new explanation of Qur'anic text structure arguing that the long suras have structure that are explicable within a framework for the mechanisms of human verbal communication Through a systematic step by step analysis of the cognitive process involved in verbal communication and comprehension of text this work provides interesting and useful insights into methods of analysis mechanisms and dynamics of the Qur'anic text structure The unique application of a sophisticated linguistic theory to the Qur'an introduces an entirely new way of reading the Qur'an and with detailed analysis of two Qur'anic passages the book presents a solid working out of the theory that will be accessible to both linguists and scholars of the Qur'an

Textual Relations in the Qur'an Salwa M. El-Awa, 2006

The Qur'an and its Biblical Subtext Gabriel Said Reynolds, 2010-06-10 This book challenges the dominant scholarly notion that the Qur'an must be interpreted through the medieval commentaries shaped by the biography of the prophet Muhammad arguing instead that the text is best read in light of Christian and Jewish scripture The Qur'an in its use of allusions depends on the Biblical knowledge of its audience However medieval Muslim commentators working in a context of religious rivalry developed stories that separate Qur'an and Bible which this book brings back together In a series of studies involving the devil Adam Abraham Jonah Mary and Muhammad among others Reynolds shows how modern translators of the Qur'an have followed medieval Muslim commentary and demonstrates how an appreciation of the Qur'an's Biblical subtext uncovers the richness of the Qur'an's discourse Presenting unique interpretations of 13 different sections of the Qur'an based on studies of earlier Jewish and Christian literature the author substantially re-evaluates Muslim exegetical literature Thus The Qur'an and Its Biblical Subtext a work based on a profound regard for the Qur'an's literary structure and rhetorical strategy poses a substantial challenge to the standard scholarship of Qur'anic Studies With an approach that bridges early Christian history and Islamic origins the book will appeal not only to students of the Qur'an but of the Bible religious studies and Islamic history

Troubling Topics, Sacred Texts Roberta Sterman Sabbath, 2021-10-04 Abrahamic scriptures serve as cultural pharmakon prescribing what can act as both poison and remedy This collection shows that their sometimes veiled but eternally powerful polemics can both destroy and build exclude and include and serve as the ultimate justification for cruelty or compassion Here scholars not only excavate these works for their formative and continuing cultural impact on communities identities and belief systems they select some of the most troubling topics that global communities continue to navigate Their analysis of both texts and their reception help explain how these texts promote norms and build collective identities Rejecting the notion of the sacred realm as separate from the mundane realm and beyond critical challenge this collection argues both implicitly

and sometimes transparently for the presence of the sacred within everyday life and open to challenge The very rituals prayers and traditions that are deemed sacred interweave into our cultural systems in infinite ways Together these authors explore the dynamic nature of everyday life and the often brutal power of these texts over everyday meaning **Conciliation in the Qur'an** Shafi Fazaluddin,2022-02-07 Conciliation in the Qur'an addresses an existing imbalanced focus in Islamic Studies on conflict in the Qur'an and moves beyond a restrictive approach to reconciliation as a mediation process in fragmented social contexts The book offers a critical analysis of conciliation as a holistic concept in the Qur'an providing linguistic and structural insight based on the renowned pre modern Arabic exegesis of Al R z d 1209 and the under studied contemporary Urdu exegesis of I l d 1997 This ambitious thematic study of the entire Qur'an includes an innovative examination of the central ethical notion of i s n gracious conduct and a challenging discussion of notorious passages relating to conflict The author offers solutions to unresolved issues such as the significance of the notion of i l order the relationship between conciliation and justice and the structural and thematic significance of Q 48 S rat Al Fat and Q 49 S rat Al ujur t Conciliation in the Qur'an offers a compelling argument for the prevalence of conciliation in the Islamic scripture and will be an essential read for practitioners in Islamic studies community integration conflict resolution interfaith dialogue and social justice **Maqasid Al-shariah as Philosophy of Islamic Law** Jasser Auda,2008-01-01 In this path breaking study Jasser Auda presents a systems approach to the philosophy and juridical theory of Islamic law based on its purposes intents and higher objectives maqasid For Islamic rulings to fulfill their original purposes of justice freedom rights common good and tolerance in today's context Auda presents maqasid as the heart and the very philosophy of Islamic law He also introduces a novel method for analysis and critique one that utilizes relevant features from systems theory such as wholeness multidimensionality openness and especially purposefulness of systems This book will benefit all those interested in the relationship between Islam and a wide variety of subjects such as philosophy of law morality human rights interfaith commonality civil society integration development feminism modernism postmodernism systems theory and culture **Sufi Commentaries on the Qur'an in Classical Islam** Kristin Sands,2006-07-13 Meeting the ever increasing interest in Islam and Sufism this book is the first comprehensive study of Sufi Qur'anic commentaries and includes translations of many writings previously unavailable in English It examines the shared hermeneutical assumptions of Sufi writers and the diversity in style of Sufi commentaries Some of the assumptions analyzed are the Qur'an is a multi layered and ambiguous text open to endless interpretation the knowledge of deeper meanings of the Qur'an is attainable by means other than transmitted interpretations and rational thought the self is dynamic moving through states and stations which result in different interpretations at different times The styles of Sufi commentaries are explored which range from philosophical musings to popular preaching to literary narrative and poetry Other commentaries from the classical period are also investigated to provide context in understanding Sufi approaches and exegetical styles **Islam and its Past** Carol Bakhos,Michael

Cook,2017-06-02 Islam and its Past J hiliyya Late Antiquity and the Qur'an brings together scholars from various disciplines and fields to consider Islamic revelation with particular focus on the Qur'an The collection provides a wide ranging survey of the development and current state of Qur'anic studies in the Western academy It shows how interest in the field has recently grown how the ways in which it is cultivated have changed how it has ramified and how difficult it now is for any one scholar to keep abreast of it Chapters explore the milieu in which the Meccan component of the Qur'an made its appearance The general question is what we can say about that milieu by combining a careful reading of the relevant parts of the Qur'an with what we know about the religious trends of Late Antiquity in Arabia and elsewhere More specifically the issue is what we can learn in this way about the manner in which the polytheists of the Qur'an related to the Jewish and Christian traditions were they Godfearers in the sense familiar from the study of ancient Judaism It looks at the Qur'an as a text of Late Antiquity not just considering those features of it that could be seen as normal in that context but also identifying what is innovative about it against the Late Antique background Here the focus is on the believers rather than the polytheists The volume also engages in different ways with notions of monotheism in pre Islamic Arabia This collection provides a broad survey of what has been happening in the field and concrete illustrations of some of the more innovative lines of research that have recently been pursued

Exegetical Crossroads Georges Tamer, Regina Grundmann, Assaad Elias Kattan, Karl Pinggéra, 2017-12-18

The art of interpreting Holy Scriptures flourished throughout the culturally heterogeneous pre modern Orient among Jews Christians and Muslims Different ways of interpretation developed within each religion not without considering the others How were the interactions and how productive were they for the further development of these traditions Have there been blurred spaces of scholarly activity that transcended sectarian borders What was the role played by mutual influences in profiling the own tradition against the others These and other related questions are critically treated in the present volume

Women and Gender in the Qur'an Celene Ibrahim, 2020 Stories related to gendered social relations permeate the Qur'an and nearly three hundred verses involve specific women or girls These stories weave together theology and ethics to reinforce central Qur'anic ideas regarding submission to God and moral accountability Women and Gender in the Qur'an outlines how women and girls old young barren fertile chaste profligate reproachable and saintly enter Qur'anic sacred history and advance the Qur'an's overarching didactic aims
