Content Management George Pullman,Gu Baotung,2017-03-02 This collection of articles is the first attempt by academics and professional writers to delve into the world of content management systems The knowledge economy s greatest asset and primary problem is information management finding it validating it re purposing it keeping it current and keeping it safe In the last few years content management software has become as common as word processing software was five years ago But unlike word processors which are designed for single authorization and local storage content management systems are designed to accommodate large scale information production with many authors providing many different pieces of information kept in a web accessible database any piece of which might find its way into electronic documents that the author doesn t even know exist These software systems are complex to say the least and their impact on the field of writing will be immense

Place Tim Cresswell,2014-12-03 Thoroughly revised and updated this text introduces students of human geography and allied disciplines to the fundamental concept of place combining discussion about everyday uses of the term with the complex theoretical debates that have grown up around it A thoroughly revised and updated edition of this highly successful short introduction to place Features a new chapter on the use of place in non geographical arenas such as in ecological theory art theory and practice philosophy and social theory Combines discussion about everyday uses of the term place with the more complex theoretical debates that have grown up around it Uses familiar stories drawn from the news popular culture and everyday life as a way to explain abstract ideas and debates Traces the development of the concept from the 1950s through its subsequent appropriation by cultural geographers and the linking of place to politics

Places of Redemption Mary McClintock Fulkerson,2010-08-19 The primary aim of this book is to explore the contradiction between widely shared beliefs in the USA about racial inclusiveness and equal opportunity for all and the fact that most churches are racially homogeneous and do not include people with disabilities To address the problem Mary McClintock Fulkerson explores the practices of an interracial church United Methodist that includes people with disabilities The analysis focuses on those activities which create opportunities for people to experience those who are different as equal in ways that diminish both obliviousness to the other and fear of the other In contrast with theology s typical focus on the beliefs of Christians this project offers a theory of practices and place

that foregrounds the instinctual reactions and communications that shape all groups The effect is to broaden the academic field of theology through the benefits of ethnographic research and postmodern place theory *Vernacular Architecture and Regional Design* Kingston Heath,2009-06-04 A series of international case studies demonstrates the place of vernacular architecture in the design process for a wide selection of contemporary architects work Offers a clear analysis of the vernacular building tradition placing architecture in its social context Introduces a new socially and environmentally inspired approach to sustainable design **Sites Unseen** Dianne Harris,D. Fairchild Ruggles,2007-05-27 Sites Unseen challenges conventions for viewing and interpreting the landscape using visual theory to move beyond traditional practices of describing and classifying objects to explore notions of audience and context While other fields such as art history and geography have engaged poststructuralist theory to consider vision and representation the application of such inquiry to the natural or built environment has lagged behind This book by treating landscape as a spatial psychological and sensory encounter aims to bridge this gap opening a new dialogue for discussing the landscape outside the boundaries of current art criticism and theory As the contributors reveal the landscape is a widely adaptable medium that can be employed literally or metaphorically to convey personal or institutional ideologies Walls gates churchyards and arches become framing devices for a staged aesthetic experience or to suit a sociopolitical agenda The optic stimulation of signs symbols bodies and objects combines with physical acts of climbing and walking and sensory acts of touching smelling and hearing to evoke an overall vision of landscape Sites Unseen considers a variety of different perspectives including ancient Roman visions of landscape the framing techniques of a Moghul palace and a contemporary case study of Christo s The Gates as examples of human attempts to shape our sensory cognitive and emotional experiences in the landscape The Global Spanish Empire Christine Beaulieu,John G. Douglass,2020-05-05 The Spanish Empire was a complex web of places and peoples Through an expansive range of essays that look at Africa the Americas Asia the Caribbean and the Pacific this volume brings a broad range of regions into conversation The contributors focus on nuanced comparative exploration of the processes and practices of creating maintaining and transforming cultural place making within pluralistic Spanish colonial communities The Global Spanish Empire argues that patterned variability is necessary in reconstructing Indigenous cultural persistence in colonial settings The volume s eleven case studies include regions often neglected in the archaeology of Spanish colonialism The time span under investigation is extensive as well transcending the entirety of the Spanish Empire from early impacts in West Africa to Texas during the 1800s The contributors examine the making of a social place within a social or physical landscape They discuss the appearance of hybrid material culture the incorporation of foreign goods into local material traditions the continuation of local traditions and archaeological evidence of opportunistic social climbing In some cases these changes in material culture are ways to maintain aspects of traditional culture rather than signifiers of new cultural practices The Global Spanish Empire tackles broad questions about Indigenous cultural persistence pluralism and place making using a global

comparative perspective grounded in the shared experience of Spanish colonialism Contributors Stephen Acabado Grace Barretto Tesoro James M Bayman Christine D Beaule Christopher R DeCorse Boyd M Dixon John G Douglass William R Fowler Martin Gibbs Corinne L Hofman Hannah G Hoover Stacie M King Kevin Lane Laura Matthew Sandra Mont n Sub as Natalia Moragas Segura Michelle M Pigott Christopher B Rodning David Roe Roberto Valc rcel Rojas Steve A Tomka Jorge Ulloa Hung Juliet Wiersema
