The second source of power that influences individuals and organizations behaviors is known as Personal Power. There are three sources under this power that are apparent in most organizations that are well managed. Rational persuasion is the power to control behavior by being able to show the desirable out comes through reasonable and acceptable means within an organization. With the diverse personalities within an organization it is essential to have management that is levelheaded and rational. The final basis of control within personal power is referent power. It is controlling an individual's behavior within an organization by allowing them to identify with the source of power that is over them.
