The Age Of Ideology:

The Age of Ideology John Schwarzmantel, 1998-03 Assesses the major ideologies of modern times including liberalism socialism and conservatism and traces their relationships with one another with the ambiguous ideology of nationalism and to the emergence of modern societies democratic politics and Enlightenment ideas Overviews key themes **The Age of Ideology** John J. Schwarzmantel, 1998 The ideologies of Liberalism Socialism and Conservatism have dominated political argument since the American and French revolutions The Age of Ideology traces their emergence their relationship to Modernity and the Enlightenment and their current crisis in the face of the collapse of Communism rapid technological change the new rise of nationalism and fundamentalism and the philosophical challenge of postmodernism John Schwarzmantel defends the continued relevance of the left right spectrum and the necessity of political ideology for democratic government and the idea of the good society **The age of ideology- political thought, 1750 to the present** Frederick M. Watkins, 1964 **Russell Kirk and the Age of Ideology** W. Wesley McDonald, 2004 Russell Kirk author of The Conservative Mind and A Program for Conservatives has been regarded as one of the foremost figures of the post World War II revival in conservative thought While numerous commentators on contemporary political thought have acknowledged his considerable influence on the substance and direction of American conservatism no analysis of his social and political writing has dealt extensively with the philosophical foundations of his work In this provocative study W Wesley McDonald examines those foundations and demonstrates their impact on the conservative intellectual movement that emerged in the 1950s and 1960s Kirk played a pivotal role in drawing conservatism away from the laissez faire principles of libertarianism and toward those of a traditional community grounded in a renewed appreciation of man's social and spiritual nature and the moral prerequisites of genuine liberty In a humane social order a community of spirit is fostered in which generations are bound together According to Kirk this link is achieved through moral and social norms that transcend the particularities of time and place and because they form the basis of genuine civilized existence can only be neglected at great peril These norms reflected in religious dogmas traditions humane letters social habit and custom and prescriptive institutions create the sources of the true community that is the final end of politics Although this study does not challenge Kirk's debts to a predominantly Catholic and Anglo Catholic tradition of natural law its focus is on his appeal to historical experience as the test of sound institutions This aspect of his thought was essential to Kirk's understanding of moral cultural and aesthetic norms and can be seen in his responses to American humanists Paul Elmer More and Irving Babbitt and to English and American romantic literature Russell Kirk and the Age of Ideology is particularly relevant because of the growing interest in Kirk's legacy and the current debate over the meaning of conservatism McDonald addresses both of those developments in the context of examining Kirk's thought attempting to correct some of the inadequacies contained in earlier studies that assess Kirk as a political thinker This book will serve as a significant contribution to the commentary on this fascinating

figure *The Age of Ideology* Henry David Aiken,1957 **The Age of Ideology** Henry D. Aiken,1970-02-01 **The Age of Ideology** Henry D. Aiken,1963 **Architecture in the Age of Pornography** Nadir Lahiji,2021-09-30 Architecture and its pedagogy in the academy is dominated by the technology of image production that veils the naked power behind its operation It conforms to the principles of cultural logic of the society of the spectacle consistent with neoliberal capitalism The problem with this dominant pedagogy is that it violates the fundamental ethical imperative putting architecture in direct contradiction with the common good In addition it has let architecture enter the brothel of pornographic capitalism which turns every object into an object of obscene gratification of the senses In this book Nadir Lahiji adopts Alain Badiou s thesis from The Pornographic Age to demonstrate that contemporary architecture is in absolute complicity with the pornographic present The traits that Badiou identifies in this age are manifestly visible in architectural surfaces which are subordinated to the same regime of images Similarly to Badiou s political indictments of the society which has given rise to the pornographic present the book condemns the architecture that has lent its service to the same society with a license to consummate its transgression to better cater to the imperative of the regime of images Transposing the conceptual categories in Badiou s analysis to the critique of architecture s pornographic turn in contemporary society the book constructs a conceptual framework by which to demonstrate the specific manifestations of pornography in building The book is aimed at architecture students at higher graduate and post graduate levels **The End of Ideology and American Social Thought, 1930-1960** Job L. Dittberner,1925 Paul Ricoeur in the Age of Hermeneutical Reason Roger W. H. Savage,2015-12-16 Poetics Praxis and Critique Paul Ricoeur in the Age of Hermeneutical Reason addresses contemporary problems of justice the recognition of disabled persons the role of imagination in political judgment the need for religious hospitality and carnal hermeneutics The essays in this volume are a testament to the power of hermeneutical reason Following Paul Ricoeur s style of philosophizing they explore innovative solutions to pressing issues of our time Individually these essays advance new perspectives on the anthropological presuppositions behind the requirement of justice the role played by convictions and beliefs in pluralistic contexts and the place of a post critical religious faith Together they demonstrate the value of a hermeneutical mode of reasoning in an age in which conflicts tensions and violence abound Their thoughtful engagement with current challenges attests to this volume s conviction that we with others have the ability to intervene in the course of the world to the benefit of all *The Age of Global Dialogue* Leonard J. Swidler,2016-11-08 Thinking beyond the absolutes Christians and other religious persons increasingly find deabsolutized in our modern thought world Swidler reflects on the ways we humans think about the world and its meaning now that increasingly we notice that there are other ways of understanding the world than the way we grew up in In this new situation we need to develop a common language we can use together both to appreciate our neighbors and enrich ourselves what the author calls Ecumenical Esperanto because it should serve as a common language without replacing any of the living languages of our religious and ideological traditions

Of course such thinking anew about the world and its meaning must necessarily mean thinking anew about all of our religious beliefs but this time in dialogue

Mexico in the Age of Proposals, 1821-1853 William M. Fowler, 1998-11-19 This book is a study of the political development of the many factions that surfaced in Mexico from the achievement of independence in 1821 to General Antonio Lopez de Santa Anna's last government in 1853. Paying particular attention to the writings of the main thinkers of the period and the ways in which they inspired or were betrayed by their respective factions, this volume concentrates on the evolution of the different factions: traditionalists, moderates, radicals, and santanistas who sustained their beliefs at one point or another. It follows a chronological approach and puts significant emphasis on the way the hopes of the 1820s degenerated into the despair of the 1840s and how these in turn affected the evolution of the different factions' political proposals. Political proposals and ideologies were important in independent Mexico; it was an age of proposals. Various constitutional projects were proposed, discussed, attempted, or dismissed. This study offers a comprehensive analysis of how the generalized liberal principles of early republican Mexico became fractured into numerous conflicting political proposals and movements. In response to the ever-changing political landscape of the new nation, the emergent Mexican political class was prevented from achieving the ever-elusive constitutional order: unity, progress, and stability, all dreamed of experiencing when General Agustín de Iturbide marched into Mexico City on September 27, 1821. Appendices with a glossary, chronologies, and descriptions of major personalities are included.

The Age of the Poets Alain Badiou, 2014-11-04 The Age of the Poets revisits the age-old problem of the relation between literature and philosophy, arguing against both Plato and Heidegger's famous arguments. Philosophy neither has to ban the poets from the republic nor abdicate its own powers to the sole benefit of poetry or art. Instead, it must declare the end of what Badiou names the age of the poets, which stretches from Hölderlin to Celan. Drawing on ideas from his first publication on the subject, *The Autonomy of the Aesthetic Process*, Badiou offers an illuminating set of readings of contemporary French prose writers, giving us fascinating insights into the theory of the novel while also accounting for the specific position of literature between science and ideology.

The Age of Sex Crime Jane Caputi, 1987 The sexualized serial murder of women by men is the subject of this provocative book. Jane Caputi argues that the sensationalized murders by men, such as Jack the Ripper, Son of Sam, Hillside Strangler, and the Yorkshire Ripper, represent a contemporary genre of sexually political crimes. The awful deeds function as a form of patriarchal terrorism, disappearing women at a rate of some four thousand annually in the United States alone. Caputi asks us not only to name the phenomenon of sexually political murder but to recognize sex crime in all of its various interconnecting manifestations.
