L. P. Jacks, 2014-03 This Is A New Release Of The Original 1910 Edition      *The Alchemy of Thought* Lawrence Pearsall Jacks, 1927      *The Alchemy of Thought* L. P. Jacks, 2017-07-14 In another book from L P Jacks *The Universe as Philosopher* philosophy was defined as the self confession of Reality and the question arose How then can there be such radical differences between philosophies But from the other side it can be argued with equal cogency that the philosopher creates his world since to interpret experience is to control it This is certainly an extreme contradiction but in its very extremeness lies the hope of its solution and along with it of the proposed question The opposite conclusions are not only intelligible but necessary for the very reason that they lie within the unity of a universal Self consciousness No system of philosophy has any meaning out of relation to the systems from which it differs What for example would become of Pragmatism if there were no Idealism to reject Philosophy is an organic whole the logical prius of all the philosophies and that system comes nearest to absolute truth which shows the largest capacity for taking up the others into itself by means of the principle which is the living spring of them all If we conceive of God as the immanent life of all thought it involves the admission that not only is a plurality of self expressions compatible with the unity and self consciousness of the whole but it is an inherent logical necessity if we are to speak of God in any of the terms that are applicable to Spirit *The Philosophical Review* Vol 17      **The Alchemy of Thought** SASHA. *Decoding the Mind of God* Margret Ann Kelly,2011-07-06 In *Decoding the Mind of God* author O M Kelly delves into the unconscious mind and discovers the secrets of the collective consciousness showing how we can realize the potential of the human mind through belief in ourselves The Laws of the universe are identical to the collective consciousness they reveal an answer to every question we are capable of asking We constantly receive these answers through the vibrations of the energy fields through our being all without us knowing how to realign our intelligence with our unconscious mind The truth remains hidden to us Surprising as it may seem the key to understanding ourselves lies in a mathematical language which is the make

up of the unconscious mind Kelly explores this language through the texts and myths of myriad cultures and belief systems notwithstanding the truth of the science behind the Egyptian Hieroglyphs and the stories collected in the Bible As we read this volume we realize that all of these stories are connected to our own story within Kellys perceptions of the order of higher consciousness are framed by stories from her experiences of personal discovery and over twenty years of researching lecturing and teaching all around the world Once these codes are unveiled we earn our freedom where we can release the fear in which humanity habitually traps itself creating our accidents diseases why we die right up to explaining extra terrestrial intelligence This book exposes the secret codes of the universal language that will help us achieve the divine unity with the universe and ourselves     The Alchemy of Thought, by L.P.
