Preventing Disease Richard B. Goldbloom,Robert S. Lawrence,2012-12-06 *Preventing Disease* the offspring of an extraordinary collaboration between the U S and Canadian Preventive Services Task Forces presents a meticulous and objective review of the published evidence on preventive measures Examining such diverse and relevant topics as screening for endometrial cancer exercise counselling for healthy adults and the evidence for a causal relation between dietary lipids and coronary heart disease this volume reflects the editors shared conviction that recommendations for preventive action should rarely exceed what is well justified by the evidence In the current period characterized as the Second Public Health Revolution the authors hard nosed approach leads them to ask the tough questions Are preventive measures cost saving Does preventive screening actually lead to treatment in clinical practice Does the treatment do more good than harm To what extent does our desire to eliminate causes of serious disability ill health and premature death cloud our objectivity All concerned about preventive medicine community health and primary care will find valuable stimulation for thought and action in this book the contributions have gone beyond the rhetoric Project MATCH Monograph Series ,1992 Pain

Management Richard S. Weiner,2001-12-20 This authoritative reference the Sixth Edition of an internationally acclaimed bestseller offers the most up to date information available on multidisciplinary pain diagnosis treatment and management *Pain Management A Practical Guide for Clinicians* is a compilation of literature written by members of The American Academy of Pain Management the largest multidisciplinary society of pain management professionals in North America and the largest physician based pain society in the United States This unique reference covers both traditional and alternative approaches and discusses the pain of children as well as adult and geriatric patients It includes approximately 60 new chapters and each chapter is written to allow the reader to read independently topics of interest and thus may be viewed as a

self contained study module The collection of chapters allows an authoritative self study on many of the pressing issues faced by pain practitioners Regardless of your specialty or medical training or whether you are in a large hospital or a small clinic if you work with patients in need of pain management this complete reference is for you
