The American Custom Car Pat Ganahl,2001 Among the hardest core of American automotive enthusiasts there always exists a desire to press styling and performance a step beyond the showroom floor to truly craft an automobile of one's own This photographic and cultural history examines the evolution of American custom cars from the 1930s to present covering touchstone trends influential builders Barris Roth Coddington et al custom shows enthusiast magazines and regional styles An expensive collection of rare period photography and exclusive modern shots help illustrate how Detroit informed the styling of customs and vice versa the explosion of the custom car scene after World War II and the factors that led to the custom's near death in the 1960s and its resurgence in the 80s But most of all this chronicle is a showcase of the great cars and people who influenced the movement through the years *The British National Bibliography* Arthur James Wells,2002
