The Administration Of Change In Africa:

New Public Management in Africa Benon C. Basheka, Lukamba-Muhiya. Tshombe, 2017-08-25 The administrative sciences have been dominated by a turn to managerial perspectives in the late 20th and early 21st centuries and in the spirit of this turn New Public Management or NPM promises to produce efficient responsible and client oriented public services The reforms carried out in the pursuit of New Public Management are often accompanied by great optimism and rapid enthusiastic steps toward implementation Even in highly developed industrial countries however these fundamental reforms often overlook the political and cultural contexts of the implementing country New Public Management in Africa Emerging Issues and Lessons provides much needed theoretical foundations for NPM reforms in the African context and reflects on the success of existing reforms in the development of several African states The individual contributions in this timely volume provide important analyses of academic discourse practical policy achievements and desiderata The book as a whole however provides a valuable impetus for public administration research in and on African states sharing findings on the results of reforms to date and adjustments required for these reforms to succeed For public administration researchers outside of Africa this book offers a review of New Public Management case studies that are unavailable or difficult to find elsewhere contributing much to the exchange between African and Western administration science research and demonstrating that African administrative research is well prepared to help resolve global challenges

The United States and the End of British Colonial Rule in Africa, 1941-1968 James P. Hubbard, 2014-01-10 At the end of World War II Britain possessed a vast African empire encompassing nearly 27 million square miles about 10 times larger than Britain itself But by 1965 only three small African territories remained under British control all of which would become independent before the end of 1968 This book examines the swift demise of Britain's African empire looking particularly at the role played by the United States in bringing the empire to an end It reveals how the United States was anti colonial without being actively pro independence concluding that the country's policies and actions combined with its postwar dominance directly and indirectly contributed to the political economic and social transformation of Africa

The Struggle for Social Change in Southern Africa Dickson A. Mungazi, 1989 This book shows the applicability of Thomas Kuhn's theory of the structure of scientific revolutions to the struggle for social change in southern Africa The components of this theory which seem applicable to the conflict and the struggle for fundamental social change in this troubled region of Africa are definition of paradigms their functions the elements of paradigm shifts and their effect the relationship between paradigm shift in natural and social science and the concept of anomaly This study utilizes the components of this theory to discuss why the problems of southern Africa seem to defy this solution

Changing Regimes and Educational Development in Cameroon B. Gwanfogbe, 2018-05-16 This book provides an in depth study of the nature and pattern of educational development in Cameroon from 1844 to the post independence period Drawing upon a wide range of sources including hitherto unused archival material and formal

interviews with people involved in Cameroons pre colonial colonial and postcolonial educational traditions the result is an elegantly written history enlivened by illustrative texts and archival pictures

Development and Economic Change in Namibia since 1900 Christopher Hope,2020-09-23 Why does Namibia s economy look the way it does today Was the reliance on raw materials for exports and on the service sector for employment an inevitability And for what reasons has the manufacturing sector the vehicle for economic development for many now high income countries throughout the 19th and 20th centuries seen its growth held back With these questions in mind this book offers an extensive analysis of industrial development and economic change in Namibia since 1900 exploring their causes trajectory vicissitudes context and politics Its focus is particularly on the motivations behind the economic decisions of the state arguing that power relations both internationally and domestically have held firm a status quo that has resisted efforts towards profound economic change This work is the first in depth economic study covering both the colonial and independence eras of Namibia s history and provides the first history of the country s manufacturing sector Examining the Administration's Proposal to Establish a Multilateral Clean Technology Fund United States. The American Predicament A.M. Thomas,2019-05-23 First published in 1997 this volume examines United States policy towards South Africa in the nineteen seventies spanning the period of the Nixon Ford and Carter administrations What sets it apart from similar works is that it analyses policy in the broader context of American ideals and responses to apartheid It examines whether actual policies were in conformity with these ideals and focuses attention on the American predicament over the issue of apartheid The New Scramble for Africa Pdraig R. Carmody,2017-01-03 Once marginalized in the world economy Africa today is a major global supplier of crucial raw materials like oil uranium and coltan China s part in this story has loomed particularly large in recent years and the American military footprint on the continent

has also expanded But a new scramble for resources markets and territory is now taking place in Africa involving not just state but non state actors including Islamic fundamentalist and other rebel groups The second edition of P draig Carmody s popular book explores the dynamics of the new scramble for African resources markets and territory and the impact of current investment and competition on people the environment and political and economic development on the continent Fully revised and updated throughout its chapters explore old and new economic power interests in Africa oil minerals timber biofuels land food and fisheries and the nature and impacts of Asian and South African investment in manufacturing and other sectors The New Scramble for Africa will be essential reading for students of African studies international relations and resource politics as well as anyone interested in current affairs

The New African Diaspora Isidore Okpewho,Nkiru Nzegwu,2009-08-26 The New York Times reports that since 1990 more Africans have voluntarily relocated to the United States and Canada than had been forcibly brought here before the slave trade ended in 1807 The key reason for these migrations has been the collapse of social political economic and educational structures in their home countries which has driven Africans to seek security and self realization in the West This lively and timely collection of essays takes a look at the new immigrant experience It traces the immigrants progress from expatriation to arrival and covers the successes as well as problems they have encountered as they establish their lives in a new country The contributors most immigrants themselves use their firsthand experiences to add clarity honesty and sensitivity to their discussions of the new African diaspora *AF Press Clips* ,1989-07
