**Peacebuilding in the African Union** Abou Jeng, 2012-08-02 Particularly in the context of internal conflicts international law is frequently unable to create and sustain frameworks for peace in Africa In Peacebuilding in the

African Union Abou Jeng explores the factors which have prevented such steps forward in the interaction between the international legal order and postcolonial Africa In the first work of its kind Jeng considers whether these limitations necessitate recasting the existing conceptual structure and whether the Constitutive Act of the African Union provides exactly this opportunity through its integrated peace and security framework Through the case studies of Burundi and Somalia Jeng examines the structures and philosophy of the African Union and assesses the capacity of its practices in peacemaking In so doing this book will be of great practical value to scholars and legal practitioners alike *Development and Diffusionism* J. Dibua,2015-12-04 This book deconstructs the neopatrimonial paradigm that has dominated analysis of Nigerian and African development It shows that by denying agency to Nigerian societies and devaluing indigenous culture and local realities Eurocentric diffusionism played a significant role in the failure of development planning Integral Polity Ronnie Lessem,Ibrahim Abouleish,Louis Herman,2016-05-23 Releasing the genius of an individual an enterprise and a society is a central pre occupation of the contemporary business environment A fascinating approach to how we can begin to tackle this challenge is presented by the authors of Integral Polity Integral spirituality integral philosophy and the integral age at an overall or holistic level of consciousness has therefore become a strong enough idea to form the genesis of a movement over the course of the last half century Taking as a starting point the ground breaking work of the Trans4m Centre for Integral Development this book applies such an integral notion to the realms of business economics and enterprise To be successful an integral approach must recognise the nuances of its environment an integral approach in India is different from that in Indonesia or Iceland and they may in fact complement rather than conflict Therefore this book also provides a fascinating alignment of such integrality with and between different southern and eastern northern and western worlds Using case studies ranging across the globe this review of a newly integral theory and practice provides a new lease of life to what may increasingly be perceived as the self seeking insulated and occasionally violent and corrupt realm of the political

[Africa and the War on Drugs](#) Neil Carrier, Gernot Klantschnig, 2012-10-11 Nigerian drug lords in UK prisons khat chewing Somali pirates hijacking Western ships crystal meth smoking gangs controlling South Africa's streets and narco traffickers corrupting the state in Guinea Bissau these are some of the vivid images surrounding drugs in Africa which have alarmed policymakers academics and the general public in recent years In this revealing and original book the authors weave these aspects into a provocative argument about Africa's role in the global trade and control of drugs In doing so they show how foreign inspired policies have failed to help African drug users but have strengthened the role of corrupt and brutal law enforcement officers who are tasked with halting the export of heroin and cocaine to European and American consumer markets A vital book on an overlooked front of the so called war on drugs *The Elusive African Renaissance* George Klay Kieh, Jr., 2018-09-12 Africa faces several major development challenges that have adversely affected the political and material well being of the majority of the people living there This collection of new essays rigorously analyzes those frontier development issues including democracy leadership the economy poverty alleviation through microfinance schemes food security education health and political instability and offers prescriptions that differ from the dominant neoliberal solutions

**Competitive Authoritarianism** Steven Levitsky, Lucan A. Way, 2010-08-16 Based on a detailed study of 35 cases in Africa Asia Latin America and post communist Eurasia this book explores the fate of competitive authoritarian regimes between 1990 and 2008 It finds that where social economic and technocratic ties to the West were extensive as in Eastern Europe and the Americas the external cost of abuse led incumbents to cede power rather than crack down which led to democratization Where ties to the West were limited external democratizing pressure was weaker and countries rarely democratized In these cases regime outcomes hinged on the character of state and ruling party organizations Where incumbents possessed developed and cohesive coercive party structures they could thwart opposition challenges and competitive authoritarian regimes survived where incumbents lacked such organizational tools regimes were unstable but rarely democratized

**Making Development Geography** Victoria Lawson, 2014-03-18 Making Development Geography is a timely new book which introduces readers to the major themes and debates in development geography It argues cogently that the field is engaged in an ongoing process of reinventing itself as critical development geography and highlights issues such as identity globalization social movements and sexuality Readers are guided through the key concepts and developments of the last 50 years surveying the themes of Keynesianism Marxism and post colonialism At the same time each chapter uses international examples to discuss important contemporary issues so that the real world applications of theory can be understood This enlightening book offers a comprehensive introduction to the fundamental debates for anyone

with an interest in development issues      **Somalis in Maine** Kimberly A. Huisman, Mazie Hough, Kristin M. Langellier, Carol Nordstrom Toner, 2011-06-07 Lewiston a mill town of about thirty six thousand people is the second largest city in Maine It is also home to some three thousand Somali refugees After initially being resettled in larger cities elsewhere Somalis began to arrive in Lewiston by the dozens then the hundreds after hearing stories of Maine s attractions through family networks Today cross cultural interactions are reshaping the identities of Somalis and adding new chapters to the immigrant history of Maine Somalis in Maine offers a kaleidoscope of voices that situate the story of Somalis migration to Lewiston within a larger cultural narrative Combining academic analysis with refugees personal stories this anthology includes reflections on leaving Somalia the experiences of Somali youth in U S schools the reasons for Somali secondary migration to Lewiston the employment of many Lewiston Somalis at Maine icon L L Bean and community dialogues with white Mainers Somalis in Maine seeks to counter stereotypes of refugees as being socially dependent and unable to assimilate to convey the richness and diversity of Somali culture and to contribute to a greater understanding of the intertwined futures of Somalis and Americans      Nigerian Federalism Ibeanu, Okechukwu, Mohammad J., Kuna, 2016-11-25 Nigerian Federalism Continuing Quest for Stability and Nation Building explores the nature of and the debate over a number of recurrent issues such as the origins of Nigerian federalism the number of state units in the federal system fiscal issues political parties distributional issues and intergovernmental relations in Nigerian federalism since the establishment of protofederalism under the Richards Constitution 1946 seventy years ago In exploring the issues the book seeks to answer the question what accounts for the persistence of Nigerian federalism despite the serious discontents that the debate throws up now and again The book offers a reinterpretation which argues that the demand for true federalism which anchors the major trend in the age long debate on the structure of Nigerian federalism is ahistorical and therefore static The book uniquely emphasises the need to periodise the practice of Nigerian federalism into four major phases Based on the periodisation two cardinal propositions emerge from the various chapters of the book First in spite of separatist and centrifugal threats to its existence Nigerian federalism has typically never sought to eliminate diversity but to manage it In this sense the construction of Nigeria s federal system from its earliest beginnings shows clearly that it is both a creature of diversity and an understanding that diversity will remain ingrained in its DNA Secondly Nigeria s federal practice has not sought to mirror any model of true federalism be it in the United States Canada or elsewhere Instead Nigeria s federal system has been a homegrown if unstable modulation between foedus and separatus a constantly negotiated terrain among centripetal and centrifugal forces and between centralisation and decentralisation Consequently a historical periodised understanding of Nigerian federalism is inevitably essential It is this historical and theoretical methodological approach to explaining and understanding Nigerian federalism that gives the book its unique character The book is for the general reader as well as for students including researchers of Nigerian federalism and of Nigerian constitutional and political development policymakers and political parties      Party Politics and

Economic Reform in Africa's Democracies M. Anne Pitcher, 2012-05-07 In Party Politics and Economic Reform in Africa's Democracies M Anne Pitcher offers an engaging new theory to explain the different trajectories of private sector development across contemporary Africa Pitcher argues that the outcomes of economic reforms depend not only on the kinds of institutional arrangements adopted by states in order to create or expand their private sectors but also on the nature of party system competition and the quality of democracy in particular countries To illustrate her claim Pitcher draws on several original data sets covering twenty seven countries in Africa and detailed case studies of the privatization process in Zambia Mozambique and South Africa This study underscores the importance of formal institutions and political context to the design and outcome of economic policies in developing countries

**The African American Entrepreneur** W. Sherman Rogers, 2009-12-14 African American entrepreneurship has been an integral part of the American economy since the 1600s On the eve of the Civil War the collective wealth of free blacks was approximately 50 million In 2006 African Americans earned a whopping 744 billion a figure that exceeds the gross domestic product of all but 15 nations of the 192 independent countries in the world As W Sherman Rogers ably demonstrates African Americans have achieved these economic gains under difficult circumstances Slavery segregation and legally limited access to property education and other opportunities have taken a heavy toll even to this day Besides providing a penetrating glimpse into the world of black entrepreneurship both past and present this book urges African Americans to gain financial independence as entrepreneurs Business ownership Rogers argues will bring security wealth that can be passed to successive generations and educated offspring with much greater earning power The African American Entrepreneur Then and Now explores the lower economic status of Black Americans in light of America's legacy of slavery segregation and rampant discrimination It shines a light on the legal historical sociological and political factors that together help explain the economic condition of Black people in America from their arrival in America to the present In the process the book spotlights the many amazing breakthroughs made by Black entrepreneurs even before the Civil War and Emancipation Profiles of businesspeople from the post Civil War period through today include Booker T Washington pioneer banker and insurer A G Gaston hair care entrepreneur Madame C J Walker Ebony publisher John H Johnson Black Entertainment Television founder Robert L Johnson publisher Earl Graves music producer Damon Dash rapper Sean Combs former basketball stars Dave Bing and Magic Johnson food entrepreneur Michelle Hoskins broadcast personality Cathy Hughes former Beatrice Foods head Reginald Lewis Oprah Winfrey and many more As Rogers points out reading about remarkable African American entrepreneurs can inspire readers to adopt an entrepreneurial mindset To further that goal and help readers take the plunge he outlines many of the skills tools and information necessary for business success success that can help chart a new path to prosperity for all African Americans

**Political Spiritualities** Ruth Marshall, 2009-08-01 After an explosion of conversions to Pentecostalism over the past three decades tens of millions of Nigerians now claim that Jesus is the answer But if Jesus is the answer what is the question What led to

the movement's dramatic rise and how can we make sense of its social and political significance In this ambitiously interdisciplinary study Ruth Marshall draws on years of fieldwork and grapples with a host of important thinkers including Foucault Agamben Arendt and Benjamin to answer these questions To account for the movement's success Marshall explores how Pentecostalism presents the experience of being born again as a chance for Nigerians to realize the promises of political and religious salvation made during the colonial and postcolonial eras Her astute analysis of this religious trend sheds light on Nigeria's contemporary politics postcolonial statecraft and the everyday struggles of ordinary citizens coping with poverty corruption and inequality Pentecostalism's rise is truly global and Political Spiritualities persuasively argues that Nigeria is a key case in this phenomenon while calling for new ways of thinking about the place of religion in contemporary politics

**Managing World Order** Richard Alqaq, 2009-02-28 Since the end of the Cold War United Nations peace operations have become an established and prominent feature of world politics From Liberia to East Timor the UN now carries out extensive governance related functions and is a significant political force in Southern states and societies Here Richard Al Qaq leads us to a radical new understanding of the UN and its role in international politics He uncovers the political and socio economic import of such peace activities for subject societies and raises important questions about the functioning and dynamics of the global political order A critical view of the internal process of programmatic reform within the UN is elaborated by detailed studies of the politics of UN peace operations in three seminal cases of the 1990s in Somalia Rwanda and Angola This book is essential for understanding the new role of the UN especially in Africa and the politics of so called humanitarian intervention and peace building

**The First Liberian Civil War** George Klay Kieh, 2008 This book challenges the dominant view that the first Liberian civil war was caused by ethno cultural antagonisms between and among the country's various ethnic groups Alternatively the book argues that the war was the consequence of the multifaceted crises of underdevelopment cultural economic political and social generated by the neo colonial Liberian State

**Refugees, the State and the Politics of Asylum in Africa** J. Milner, 2009-11-06 How do African states respond to the mass arrival and prolonged presence of refugees This book answers this question by drawing on recent case studies and examining the politics behind refugee policy in Africa The implications of this approach are important not only for the study of asylum in Africa but also for the future of refugee protection
