The Age of Partnership Blair B. Kling, Michael Naylor Pearson, 1979 South East Asia, Colonial History: Imperialism before 1800 Paul H. Kratoska, 2001 The six volumes that make up this unique set provide an extensive overview of colonialism in South East Asia In the majority of cases authors chosen were specialists writing about their individual areas of expertise and had first hand experience in the region Outline of contents I Imperialism before 1800 Edited by Peter Borschberg II Empire Building in the Nineteenth Century III High Imperialism IV Imperial Decline Nationalism and the Japanese Challenge V Peaceful Transitions to Independence VI Independence through Violent Struggle **The Political Economy of Commerce: Southern India 1500-1650** Sanjay Subrahmanyam, 2002-07-18 Explores the relationship between long distance trade and the economic and political structure of southern India **European Commercial Expansion in Early Modern Asia** Om Prakash, 2020-04-28 Regular commercial contacts between Europe and Asia date back to at least the early years of the Christian era but the pattern of trade underwent a structural modification following the Portuguese discovery of a route to the East Indies via the Cape of Good Hope This volume illustrates the consequences of the arrival of large numbers of Europeans in the East Europeans both participated in modified and exploited existing trade relationships in the Indian Ocean and the Pacific The studies reprinted here show how some environments such as Japan were hostile whilst most states welcomed the European commercial contact The necessity for Europeans to pay for Asian goods using precious metals is emphasised by the inclusion of articles in monetary transfers in Asian trade a phenomenon which provides a link between economic developments in the Americas and those in Asia from the 16th century onwards

Portuguese Merchants in the Manila Galleon System Cuauhtémoc Villamar, 2020-12-16 Villamar examines the role of Portuguese merchants in the formation of the Manila Galleon as a system of trade founded at the end of the sixteenth century The rise of Manila as a crucial transshipment port was not a spontaneous incident Instead it came about through a complex combination of circumstances and interconnections that nurtured the establishment of the Manila Galleon system a trading mechanism that lasted two and half centuries from 1565 until 1815 Villamar analyses the establishment of the regulatory framework of the trade across the Pacific Ocean as a whole setting that provided legality to the transactions predictability to the transportation and security to the stakeholders He looks both at the Spanish crown strategy in Asia and the emergence of a network of Portuguese merchants located in Manila and active in the long distance trade This informal community of merchants participated from the inception of the trading system across the Pacific with connections between Europe ports in Asia under the control of Portugal the Spanish colonies in America and the city of Manila From its inception the newly founded capital of the Philippines became a hub of connections attracting part of the trade that already existed in Asia Surveying the Portuguese commercial networks from the Estado da Índia across the Spanish lake this book sheds light on the early modern globalization from a truly comprehensive Iberian perspective This is a valuable resource for scholars of Pacific

and Iberian trade history and the maritime history of Asia Merchants of Maritime India, 1500-1800 Ashin Das Gupta, 2024-10-28 The focus of this volume is the rise and fall of the Indian maritime merchant in the early modern period the heyday of Moghul Surat the appearance of a group of independent merchant shipowners and their eclipse at the end of the period in the face of European competition and monopolies Much of the evidence for the activity of these Indian merchants comes from the records of the Dutch and English East India Companies as well as the papers of English private merchants and this is carefully assessed by Professor Das Gupta in these articles He is also concerned to set the picture thus gained in the context of the trade of the Indian Ocean region as a whole and to relate it to the questions of continuity and change raised by Van Leur Trading Companies and Travel Knowledge in the Early Modern World Aske Laursen Brock, Guido van Meersbergen, Edmond Smith, 2021-10-28 Trading Companies and Travel Knowledge in the Early Modern World explores the links between trade empire exploration and global information transfer during the early modern period By charting how the leaders members employees and supporters of different trading companies gathered processed employed protected and divulged intelligence about foreign lands peoples and markets this book throws new light on the internal uses of information by corporate actors and the ways they engaged with relied on and supplied various external publics This ranged from using secret knowledge to beat competitors to shaping debates about empire and to forcing Europeans to reassess their understandings of specific environments due to contacts with non European peoples Reframing our understanding of trading companies through the lens of travel literature this volume brings together thirteen experts in the field to facilitate a new understanding of how European corporations and empires were shaped by global webs of information exchange

Seventeenth-century Burma and the Dutch East India Company, 1634-1680 Wil O. Dijk, 2006 Accompanying CD ROM contains Appendices **English Trade and Adventure to Russia in the Early Modern Era** Maria Salomon Arel, 2019-04-25 In English Trade and Adventure to Russia in the Early Modern Era Maria Salomon Arel revisits Anglo Russian trade in first half of the seventeenth century Drawing on largely neglected Russian and English sources she reconstructs the history of the Muscovy Company in a period of expanding opportunities for foreigners in Russia and of tightening links between regional markets across the globe In her strongly revisionist telling the Company successfully rebuilt in the aftermath of the devastating Time of Troubles securing its uniquely privileged position in the Russian market at the hands of a newly installed tsar and Romanov dynasty keen to revive the country's decimated economy through the stimulus of foreign trade Meanwhile on the London end of a trade clearly deemed relevant to commercial and shipping interests increasingly dependent on Russian naval stores and invested in the Russian re-export trades to and from the Mediterranean and Asia the Company restructured its organization and finances with crucial royal support in furtherance of the public good and early Stuart dynastic honor As Arel documents by the 1630s 40s English trade to Russia was flourishing as seen in the growing number of Muscovy Company men active all along the Moscow Archangel route their substantial

commercial infrastructure extensive supply networks among a broad swath of Russian merchants and traders and prominent role in the exploitation of monopoly trades established to fill the tsar's coffers with specie The picture drawn by Arel overturns a traditional narrative on the Russia trade that has relegated the English to the shadows demonstrating the tenacity and continued development of their enterprise at the intersection of English commercial expansion Russian economic growth and advancing globalization processes Taking the narrative even further the book opens up new perspectives and research directions by pointing to an incipient link between the Russian and transatlantic markets while shifting the lens on the Anglo Dutch relationship in the Russia trade away from the time worn dichotomy of cutthroat competition to a more nuanced understanding of mutual cooperation and business association between merchants on the ground even in the face of commercial and territorial competition between nations

occasioned by the US withdrawal from Afghanistan and China's increasing role in the region. Providing fresh insights into the structure and ideology of the British raj, the meaning of subaltern resistance, the refashioning of social relations along lines of caste, class, religion, and gender, the different strands of anti-colonial nationalism, and the dynamics of decolonization, this is an essential resource for all students of the modern history of South Asia in an Indian Ocean and global context. **Fortunes à faire** Catherine Manning, 2017-07-05. The history of the French in India has received far less scholarly attention than that of other European nations. English historiography in particular has often treated it as no more than a preliminary to the extension of British power. In addition, work hitherto has tended to focus on the trade with Europe, not the Asian trade, the country trade carried on within Asia. The full importance of this trade for the Dutch and British is now being recognised. This book represents the first sustained study of French activities in Asian trade and fills this gap in the historiography. Catherine Manning is concerned to relate the French traders to their social, regional, and financial roots, and to trace their connections with other commercial groups in India, both European and Asian. The French evidence that she assembles, including much archival material, also makes a significant contribution to the debate about economic decline and renewal in 18th century India. Her analysis stresses the importance of the Indian context and shows that economic and political developments in South India were crucial to the French move from trade to war in the 1740s. Finally, the book examines why the French failed in an enterprise which was to succeed so signally for the British only a few decades later. South East Asia: Colonial Hist V1 Paul Kratoska, 2022-01-26. First published in 2004, the six volumes that make up this set provide an overview of colonialism in South East Asia. The first volume deals with Portuguese, Spanish, and Dutch Imperialism before 1800; the second with empire building during the Nineteenth Century; and the third with the imperial heyday in the early Twentieth Century. The remaining volumes are devoted to the decline of empire, covering nationalism and the Japanese challenge to the Western presence in the region, and the transition to independence. The authors, whose works are anthologised, include both official participants and scholars who wrote about events from a more detached perspective. Wherever possible, authors have been chosen who had first-hand experience in the region. Volume I includes Imperialism in South East Asia before 1800. *Imagining Asia(s)* Andrea Aciri, Kashshaf Ghani, Murari K Jha, Sraman Mukherjee, 2019-10-23. As a continent lying to the east of Europe, Asia has been malleable to different spatial and temporal imaginations and politics. Recent scholarship has highlighted how the seemingly self-contained regional configurations of West and Central Asia, South and Southeast Asia, and East Asia, carved by the Area Studies paradigm, reflect changing geo-political and economic interests rather than historical or cultural roots. This volume advances the question as to what Asia is and as to whether there existed one or many Asia's. It seeks to explore Asian societies as interconnected formations through trajectories, networks of circulation of people, ideas, and objects in the longue durée. Moving beyond the divides of Area Studies scholarship and the arbitrary borders set by late colonial empires and the rise of post-colonial nation-states, this volume maps critically the configuration of contact zones in which mobile bodies, minds,

and cultures interact to foster new images identities and imaginations of Asia *Grass in their Mouths: The Upper Doab of India under the Company's Magna Charta, 1793-1830* Dirk H.A. Kolff, 2010-08-13 Scholarship on the pre Bentinck period of Indian history has taken little notice of the inevitable dilemmas of colonial rule as they became visible in the districts This book argues that the disdain the eighteenth century Westminster parliaments expressed both for Indians and the East India Company induced the Bengal civil service to formulate for itself a corporate identity that because of its distant and self centered character prevented it to acquire an executive hold on most levels of the Indian administration The core of the book consists of superbly detailed studies of the ways in which in the Ganges Jumna doab villagers revenue farmers Indian policemen and revenue officials bankers and judges struggled to overcome or profit from this feature of the colonial administration **The Dynamics of Global Dominance** David B. Abernethy, 2000-01-01 For centuries Europeans ruled vast portions of the world as inhabitants of west European countries sailed to distant continents and took possession of territories whose societies and economies they set out to change How and why did these farflung empires form persist and finally fall David Abernethy addresses these questions in this magisterial survey of the rise and decline of European overseas empires Abernethy identifies broad patterns across time and space interweaving them with fascinating details of cross cultural encounters He argues that relatively autonomous profit making religious and governmental institutions enabled west European countries to launch triple assaults on other societies Indigenous people also played a role in their eventual subjugation by inviting Europeans to intervene in their power struggles Abernethy finds that imperial decline was often the unanticipated result of wars among major powers Postwar crises over colonies unmet expectations empowered movements that eventually took territories as diverse as the thirteen British North American colonies Spain's South American possessions India the Dutch East Indies Vietnam and the Gold Coast to independence In advancing a theory of imperialism that includes European and non European actors and in analyzing economic social and cultural as well as political dimensions of empire Abernethy helps account for Europe's long occupation of global center stage He also sheds light on key features of today's postcolonial world and the legacies of empire concluding with an insightful approach to the moral evaluation of colonialism **Eighteenth-Century Gujarat** Ghulam A. Nadri, 2009 The eighteenth century in South Asian history is a period of great dynamism and a critical phase in the historical trajectory of the subcontinent This book focuses on the merchants and manufacturers of Gujarat who amidst complex political developments succeeded in preserving their autonomy and freedom in the market place By spotting economic growth in the late eighteenth century this study rejects the constructed dualism between a seventeenth century of great progress and an eighteenth century of chaos and decline **An Earthly Paradise** Raziuddin Aquil, Tilottama Mukherjee, 2020-02-25 This collection of articles on varied facets of early modern Bengal showcases cutting edge work in the field and hopes to encourage new research The essays explore the trading networks religious traditions artistic and literary patronage and politico cultural practices that emerged in roughly

sixteenth eighteenth centuries Using a wide array of sources the contributors to this volume coming from diverse academic affiliations and including many young researchers have attempted to address various historiographical black holes bringing in new material and interpretations Early modern Bengal s history tends to get overshadowed by the later developments of the nineteenth century What this assortment of articles highlights is that this period needs to be studied afresh and in depth The region underwent rapid transformations as it got politically integrated with Northern India and its empires and economically with extensive global economic networks Combined with its unique geography the trajectory of this region in all spheres manifest an almost constant interplay of local and extra local forces be it in literature art economic domain political and religious cultures and considerable enterprise and ingenuity Thus a variety of themes including travel accounts Portuguese and Arakanese presence early Dutch French Ostend companies forays into the region artistic production in the Nizamat and later collections of art and missionaries the English company state s intrusions in local economy in salt and raw silk production and indigenous reactions and rebellions consumption practices related to religious activities circulation and translation of texts representation of women in vernacular writings and organization of religious traditions have been analysed in this volume with a wide ranging introduction tying up the themes to the broader historiographical issues and contexts The collection will be an invaluable reference tool for students and scholars of history especially of early modern India Please note This title is co published with Manohar Publishers New Delhi Taylor Francis does not sell or distribute the Hardback in India Pakistan Nepal Bhutan Bangladesh and Sri Lanka
