When three long time writers became residents of The Albuquerque Grand Senior Living the Writers Group was born Not to seem elitist we put up notices Com and see if you would like to join Visitors welcome To our pleased surprise four others came one man and two women who had never tried to write stories essays or articles and one woman who had published poetry but also aspired to write prose At our weekly meetings each member was to write something and the others were to comment on the content When the long timers read excerpts from their work the others on their level commented on structure style coherence and so forth quoting editors and professors who had previously made their comments on the work Just at first the new timers wanted a topic assigned but soon these members replaced the assignments with topics that interested them Who needs training wheels when they could fly on original wings Striking and interesting items began to accumulate and it only seemed neighborly to share them with others The Albuquerque Grand writers invite you to taste our wares

International Who's Who in Poetry 2004 Europa Publications,2003 Provides up to date profiles on the careers of leading and emerging poets *Meaningful Places* Rachel McLean Sailor,2014-03-01 The early history of photography in America coincided with the Euro American settlement of the West This thoughtful book argues that the rich history of western photography cannot be understood by focusing solely on the handful of well known photographers whose work has come to define the era Art historian Rachel Sailor points out that most photographers in the West were engaged in producing images for their local communities These pictures didn t just entertain the settlers but gave them a way to understand their new home Photographs could help the settlers adjust to their new circumstances by recording the development of a place revealing domestication alteration and improvement The book explores the cultural complexity of regional landscape photography western places and local sociopolitical concerns Photographic imagery like western paintings from the same era enabled Euro Americans to see the new landscape through their own cultural lenses shaping the idea of the frontier for the people who lived there Anthology of Magazine Verse and Yearbook of American Poetry Alan F. Pater,1981 **The Chicano Index** ,1989 **The Book Exchange** ,1962 Contending for the Faith Daniel Richard Carnett,2002 Examines how a southern evangelical denomination was able to become the second largest religious body in a region characterized by cultural racial and religious pluralism and the effect this had on their structure and beliefs **Park Science** ,2009 That the People Might Live Jace Weaver,1997-12-18 Loyalty to the community is the highest value in Native American cultures argues Jace Weaver In *That the People Might Live* he explores a wide range of Native American literature from 1768 to the present taking this sense of community as both a starting point and a lens Weaver considers some of the best known Native American writers such as Leslie Marmon Silko Gerald Vizenor and Vine Deloria as well as many others who are receiving critical attention here for the first time He contends that the single thing that most defines these authors writings and makes them deserving of study as a literature separate from the national literature of the United States is their commitment to Native community and its survival He terms this commitment communitism a fusion of community and activism The Native American authors are engaged in an ongoing quest for community and write out of a passionate commitment to it They write literally that the People might live Drawing upon the best Native and non Native scholarship including the emerging postcolonial discourse as well as a close reading of the writings themselves Weaver adds his own provocative insights to help readers to a richer understanding of these too often neglected texts A scholar of religion he also sets this literature in the context of Native cultures and religious traditions and explores the tensions between these traditions and Christianity

Translating Southwestern

Landscapes Audrey Goodman, 2022-02-08 Winner of the Western Literature Association's Thomas J Lyon Award Whether as tourist's paradise countercultural destination or site of native resistance the American Southwest has functioned as an Anglo cultural fantasy for more than a century In *Translating Southwestern Landscapes* Audrey Goodman excavates this fantasy to show how the Southwest emerged as a symbolic space from 1880 through the early decades of the twentieth century Drawing on sources as diverse as regional magazines and modernist novels Pueblo portraits and New York exhibits Goodman has crafted a wide ranging history that explores the invention translation and representation of the Southwest Its principal players include amateur ethnographer Charles Lummis who conflated the critical work of cultural translation pulp novelist Zane Grey whose bestselling novels defined the social meanings of the modern West fashionable translator Mary Austin whose re-expressions of Indian song are contrasted with recent examples of ethnopoeitics and modernist author Willa Cather who demonstrated an immaterial feeling for landscape from the Nebraska Plains to Acoma Pueblo Goodman shows how these writers as well as photographers such as Paul Strand Ansel Adams and Alex Harris exhibit different phases of the struggle between an Anglo calling to document Native and Hispanic difference and America's larger drive toward imperial mastery In critiquing photographic representations of the Southwest she argues that commercial interests and eastern prejudices boiled down the experimental images of the late nineteenth century to a few visual myths the persistence of wilderness the innocence of early portraiture and the purity of empty space An ambitious synthesis of criticism and anthropology art history and geopolitical theory *Translating Southwestern Landscapes* names the defining contradictions of America's most recently invented cultural space It shows us that the Southwest of these early visitors is the only Southwest most of us have ever known
